ALASKA AIR GROUP, INC.

19300 International Boulevard, Seattle, Washington 98188
Telephone: (206) 392-5040

Securities registered pursuant to Section 12(b) of the Act:

Title of each class  Trading Symbol  Name of each exchange on which registered
Common Stock, $0.01 Par Value  ALK  New York Stock Exchange

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

As of January 31, 2022, shares of common stock outstanding totaled 125,912,426. The aggregate market value of the shares of common stock of Alaska Air Group, Inc. held by nonaffiliates on June 30, 2021, was approximately $7.5 billion (based on the closing price of $60.31 per share on the New York Stock Exchange on that date).
DOCUMENTS INCORPORATED BY REFERENCE
Portions of Definitive Proxy Statement relating to 2022 Annual Meeting of Shareholders are incorporated by reference in Part III.
As used in this Form 10-K, the terms “Air Group,” the “Company,” “our,” “we” and “us” refer to Alaska Air Group, Inc. and its subsidiaries, unless the context indicates otherwise. Alaska Airlines, Inc. and Horizon Air Industries, Inc. are referred to as “Alaska” and “Horizon” and together as our “airlines.”

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

In addition to historical information, this Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from historical experience or the Company’s present expectations.

You should not place undue reliance on our forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond our control. Our forward-looking
statements are based on the information currently available to us and speak only as of the date on which this report was filed with the SEC. We expressly disclaim any obligation to issue any updates or revisions to our forward-looking statements, even if subsequent events cause our expectations to change regarding the matters discussed in those statements. For a discussion of our risk factors, see Item 1A. “Risk Factors.” Please consider our forward-looking statements in light of those risks as you read this report.
Alaska Air Group (the "Company" or "Air Group") is a Delaware corporation incorporated in 1985 that operates two airlines, Alaska and Horizon. Alaska was organized in 1932 and incorporated in 1937 in the state of Alaska. Horizon is a Washington corporation that was incorporated and began service in 1981, and was acquired by Air Group in 1986. Air Group acquired Virgin America in 2016, then legally merged the entity with Alaska in 2018, at which time the airlines' operating certificates were also combined. The Company also includes McGee Air Services, an aviation services provider that was established as a wholly-owned subsidiary of Alaska in 2016, and other subsidiaries.

Alaska and Horizon operate as separate airlines, with individual business plans, competitive factors and economic risks. We organize the business and review financial operating performance by aggregating our business in three operating segments, which are as follows:

- **Mainline** - includes scheduled air transportation on Alaska's Boeing and Airbus jet aircraft for passengers and cargo throughout the U.S., and in parts of Mexico, Costa Rica and Belize.
- **Regional** - includes Horizon's and other third-party carriers’ scheduled air transportation for passengers across a shorter distance network within the U.S. and Canada under capacity purchase agreements (CPA). This segment includes the actual revenues and expenses associated with regional flying, as well as an allocation of corporate overhead incurred by Air Group on behalf of the regional operations.
- **Horizon** - includes the capacity sold to Alaska under a CPA. Expenses include those typically borne by regional airlines such as crew costs, ownership costs and maintenance costs.

Together we are the fifth largest airline in the United States, offering unparalleled guest service, connectivity and schedules from our hub markets along the West Coast. With our regional partners, we fly to more than 120 destinations throughout North America. We have operated in a highly competitive and often challenging industry for nearly 90 years. Our top priority as an airline is ensuring the safety of our guests and employees, an area that we continually invest in. Our success over many decades and resilience in difficult times is attributable to our people, business model, and commitment to sustainable growth over the long-term.

In 2021, our business continued to recover from the impacts of the ongoing COVID-19 pandemic that began in 2020. Demand for travel improved considerably in 2021 as travel restrictions and stay-at-home orders relaxed. However, progress was volatile as new COVID-19 variants impacted the communities that we serve. In response to the uncertainties in recovery, we scaled capacity back up in a measured way, bringing flying back as demand materialized. This approach was a critical factor that enabled us to return to profitability in the second half of the year. As a result, our 2021 operating cash flows were positive, even when excluding the impact of government grants. This progress enabled us to repay $1.3 billion in debt and return our debt to capitalization ratio to 49%, the lowest level since the first quarter of 2020. In addition, we voluntarily funded a $100 million pension contribution, bringing our funded status to 98% as of year end.

The improved results in 2021 set a foundation for our return to pre-COVID flying levels by summer 2022 and growth from there. Our 2025 Plan includes ambitious goals, including aligning our growth strategy with critical environmental, social and governance targets. Instrumental to achieving this is our restructured fleet agreement with Boeing, which includes firm commitments for 93 new 737-9 aircraft to be delivered through 2024, with options to purchase 52 additional aircraft. These deliveries began in earnest in 2021, and ramp up significantly in 2022. The new 737-9 aircraft replace the aging Airbus A320 aircraft, which will be retired from the operating fleet by 2023. Significantly improved per-seat economics driven by larger gauge and improved fuel efficiency, as well as the transition to a single mainline fleet, will serve as the baseline for high-margin capacity growth over the next several years.

In 2021, recovery of leisure demand outpaced recovery of business demand. Responding to these trends, we adapted our network to take our guests where they want to fly. We announced 32 new routes to popular leisure destinations, including Belize. With new routes announced in 2021, we will serve 100 nonstop destinations from Seattle-Tacoma International Airport by summer 2022, more than any other carrier. We also formally joined the oneworld® alliance in 2021, which provides global access for our guests and exciting growth opportunities for our airlines. As we grow our West Coast hubs, we plan to maximize connectivity to partner airlines, allowing our guests greater global connectivity. By summer 2022, Alaska guests will be able to access 100 nonstop flights to Europe from the West Coast on oneworld partners. Although we have ambitious growth plans, we will continue to deploy capacity in a disciplined manner that is responsive to changing demand trends.

Our success is fueled by the engagement and dedication of our employees. Aligning our employees' goals with the Company's goals is critical in achieving success. To that end, all employees participate in our Performance-Based Pay (PBP) and
Operational Performance Rewards (OPR) programs, which reward employees across all work groups based on metrics related to safety, profitability and cash flow, sustainability, on-time performance, low costs and customer satisfaction. In 2021, we rewarded employees with $151 million under these incentive programs.

AIR GROUP

Our airlines operate different aircraft and missions. Alaska operates a fleet of narrowbody passenger jets on primarily longer stage-length routes. Alaska contracts primarily with Horizon and SkyWest Airlines, Inc. (SkyWest) for shorter-haul capacity and receives all passenger revenue from those flights. Horizon operates Embraer 175 (E175) regional jet aircraft and Bombardier Q400 turboprop aircraft and sells all of its capacity to Alaska pursuant to a Capacity Purchase Agreement (CPA). The majority of our revenues are generated by transporting passengers. The percentage of revenues by category is as follows:

<table>

(a) Category represents flying within the West Coast. Departures from the West Coast to other regions are captured in other categories.

MAINLINE

Our Mainline operations include Boeing 737 (B737) and Airbus A320 family (A320 and A321neo) jet service offered by Alaska. We offer extensive passenger service from the western U.S. throughout the contiguous United States, Alaska, Hawaii, Mexico, Costa Rica, and Belize. Our largest concentrations of departures are in Seattle, Portland, and the Bay Area. We also offer cargo service throughout our network and have three dedicated cargo aircraft that operate primarily to and within the state of Alaska.

In 2021, we carried 23 million revenue passengers in our Mainline operations, up from 12 million in 2020 as demand for air travel rebounded from the lows of the COVID-19 pandemic. At December 31, 2021, our Mainline operating fleet consisted of 177 B737 jet aircraft and 40 Airbus A320 family jet aircraft.
The percentage of Mainline passenger capacity by region and average stage length is presented below:

(a) Category represents flying within the West Coast. Departures from the West Coast to other regions are captured in other categories.

REGIONAL

Our Regional operations consist primarily of flights operated by Horizon and SkyWest. In 2021, our Regional operations carried approximately 9 million revenue passengers, primarily in the states of Washington, Oregon, Idaho and California. Horizon is the largest regional airline in the Pacific Northwest and carries approximately 65% of Air Group's Regional revenue passengers.

Based on 2021 Horizon passenger enplanements on Regional aircraft, our most significant concentration of Regional activity was in Seattle and Portland. At December 31, 2021, Horizon’s operating fleet consisted of 30 E175 jet aircraft and 32 Bombardier Q400 turboprop aircraft. The Regional fleet operated by SkyWest consisted of 32 E175 aircraft.

FREQUENT FLYER PROGRAM

Alaska Airlines Mileage Plan™ provides a comprehensive suite of frequent flyer benefits. Miles can be earned by flying on our airline, which will accumulate faster because our miles are awarded on flight distance, not spend. Miles can also be earned by flying with one of our partner airlines, by using an Alaska Airlines credit card or through other non-airline partners. As the newest member of oneworld, our already extensive list of airline partners expanded and now comprises 23 partner airlines, making it easier for our members to earn miles and reach elite status in our frequent flyer program, and providing them reciprocal tier status on other oneworld carriers. Through Alaska and our partners, Mileage Plan members have access to a network of over 1,000 worldwide travel destinations. Further, members can receive up to 40,000 bonus miles upon signing up for the Alaska Airlines Visa Signature card and meeting a minimum spend threshold, earning three miles per $1 spent on Alaska Airlines purchases, and one mile per $1 spent on all other purchases. Alaska Airlines Visa Signature cardholders and small business cardholders in the U.S., and select Alaska Mastercard cardholders in Canada, also receive an annual companion ticket that allows members to purchase an additional ticket for $99 plus taxes, with no restrictions or black-out dates, and a free first checked bag for up to seven people traveling on the same itinerary. Earned miles can be redeemed for flights on our airlines, our partner airlines, hotel stays, or for upgrades to first class on Alaska Airlines. We believe all of these benefits give our Mileage Plan members more value than competing programs.

Mileage Plan revenues, including those in the Passenger revenue income statement line item, represented approximately 20% of Air Group's total revenues in 2021. Mileage Plan helps drive revenue growth by attracting new customers, keeping existing customers actively engaged, and building customer loyalty through the benefits that we provide.
COMMERCIAL AGREEMENTS WITH OTHER AIRLINES

Our commercial agreements with other airlines fall into three categories: frequent flyer, codeshare and interline.

- Frequent flyer agreements enable our Mileage Plan members to accrue miles and redeem them for flights on partner airlines.

- Codeshare agreements allow one or more marketing carriers to sell seats on a single operating carrier that services passengers under multiple flight numbers. The sale of codeshare seats can vary depending on the sale arrangement. For example, in a free-sale arrangement, the marketing carrier sells the operating carrier’s inventory without any restriction; whereas in a block-space arrangement, a fixed amount of seats are sold to the marketing carrier by the operating carrier. The interchangeability of the flight code between carriers provides a greater selection of flights for customers, along with increased flexibility for mileage accrual and redemption.

- Interline agreements allow airlines to jointly offer a competitive, single-fare itinerary to customers traveling via multiple carriers to a final destination. An interline itinerary offered by one airline may not necessarily be offered by the other, and the fares collected from passengers are prorated and distributed to interline partners according to preexisting agreements between the carriers.

Frequent flyer, codeshare and interline agreements help increase our traffic and revenue by providing a more diverse network and schedule options to our guests.

Upon entrance to the one world alliance, Alaska added seven new airline partners and enhanced eight existing partnerships with one world members. As a one world member, Alaska’s elite Mileage Plan members now receive tier status matching across member airlines. Depending on tier status, guests can enjoy a variety of privileges, including access to more than 650 international first and business class lounges, fast track through security, priority baggage benefits, priority check-in desks, upgrades, and priority boarding.

Alliances are an important part of our strategy and enhance our revenues by:

- offering our guests more travel destinations and better mileage credit and redemption opportunities, including elite qualifying miles on U.S. and international airline partners;

- providing a consistent and seamless guest experience whether you are flying on Alaska or one of our partners;

- giving us access to more connecting traffic from other airlines; and

- providing members of our alliance partners’ frequent flyer programs an opportunity to travel on Alaska and our regional partners while earning mileage credit in our partners’ programs.

Most of our codeshare relationships are free-sale codeshares, where the marketing carrier sells seats on the operating carrier’s flights from the operating carrier’s inventory, but takes no inventory risk. Our marketing agreements have various termination dates, and one or more may be in the process of renegotiation at any time. Our codeshare and interline agreements generated 2%, 3%, and 5% of our total marketed flight revenues for the years ended December 31, 2021, 2020 and 2019.

(a) These airlines do not have their own frequent flyer program. However, Alaska’s Mileage Plan members can earn and redeem miles on these airlines’ route systems.

**CARGO AND OTHER REVENUE**

The Company provides freight and mail services (cargo). The majority of cargo services are provided to commercial businesses and the United States Postal Service. The Company satisfies cargo service performance obligations and recognizes revenue when the shipment arrives at its final destination, or is transferred to a third-party carrier for delivery.

The Company also earns other revenue for lounge memberships, hotel and car commissions, and certain other immaterial items not intrinsically tied to providing air travel to passengers. Revenue is recognized when these services are rendered and recorded as Cargo and other revenue.

**GENERAL**

The airline industry is highly competitive and subject to potentially volatile business cycles, resulting from factors such as a global pandemic, economic conditions, volatile fuel prices, a largely unionized work force, the need to finance large capital expenditures and the related availability of capital, government regulation—including taxes and fees, and potential aircraft incidents. Airlines have high fixed costs, primarily for wages, aircraft fuel, aircraft ownership and facilities rents. Because expenses of a flight do not vary significantly based on the number of passengers carried, a relatively small change in the number of passengers or in pricing has a disproportionate effect on an airline’s operating and financial results. In other words, a minor shortfall in expected revenue levels could cause a disproportionately negative impact to our operating and financial results. Passenger demand and ticket prices are, in large measure, influenced by the general state of the economy, current global economic and political events, and total available airline seat capacity.
FUEL

Our business and financial results are highly impacted by the price and the availability of aircraft fuel. Aircraft fuel expense includes raw fuel expense, or the price that we generally pay at the airport, including taxes and fees, plus the effect of mark-to-market adjustments to our fuel hedge portfolio as the value of that portfolio increases and decreases. The cost of aircraft fuel is volatile and outside of our control, and it can have a significant and immediate impact on our operating results. Over the past three years, aircraft fuel expense ranged from 14% to 24% of operating expenses. Fuel prices are impacted by changes in both the price of crude oil and refining costs and can vary by region in the U.S.

The price of crude oil on an average annual basis for the past three years has ranged from a low of $39 per barrel in 2020 to a high of $68 in 2021. For us, a $1 per barrel change in the price of oil equates to approximately $16 million of fuel cost annually based on 2021 consumption levels. Said another way, a one-cent change in our fuel price per gallon would have impacted our 2021 fuel cost by approximately $7 million.

Refining margins, which represent the price of refining crude oil into aircraft fuel, are a smaller portion of the overall price of jet fuel, but have also contributed to the price volatility in recent years. Over the last three years, average annual West Coast refining margin prices have fluctuated from a low of $11 per barrel in 2020 to a high of $26 per barrel in 2019.

Generally, West Coast jet fuel prices are somewhat higher and more volatile than prices in the Gulf Coast or on the East Coast. Our average raw fuel cost per gallon increased 37% in 2021, after decreasing 29% in 2020 and decreasing 6% in 2019.

The percentages of our aircraft fuel expense by crude oil and refining margins, as well as the percentage of our aircraft fuel expense of operating expenses, are as follows:

(a) Other includes gains and losses on settled fuel hedges, unrealized mark-to-market fuel hedge gains or losses, taxes and other into-plane costs.

We use crude oil call options as hedges against our exposure to the volatility of jet fuel prices. Call options effectively cap our price for crude oil, limiting our exposure to increasing fuel prices for about half of our planned fuel consumption. With call options, we are hedged against spikes in crude oil prices, and during a period of declines in crude oil prices, we only forfeit cash previously paid for hedge premiums. We begin hedging approximately 18 months in advance of consumption.

In 2020, Alaska began using sustainable aviation fuel for certain flights departing from San Francisco International Airport. Sustainable aviation fuel prices are currently higher than traditional fuel prices as the market is developing. We are evaluating options for obtaining the volume of sustainable aviation fuels that we expect will be necessary to move us towards our long-term sustainability goals. These options include partnerships with alternative fuel companies and industry groups focused on ways to accelerate innovation in this area.

We believe that operating fuel-efficient aircraft and executing on operational best practices are the best hedges against high fuel prices. Maintaining a young, fuel-efficient fleet helps reduce our fuel consumption rate, but also the amount of greenhouse gases and other pollutants that our aircraft emit.
COMPETITION

Competition in the airline industry can be intense and unpredictable. Our competitors consist primarily of other airlines and, to a lesser extent, other forms of transportation. Competition can be direct, in the form of another carrier flying the exact non-stop route, or indirect, where a carrier serves the same two cities non-stop from an alternative airport in that city or via an itinerary requiring a connection at another airport. We compete with other domestic airlines and a limited number of international airlines on nearly all of our scheduled routes. Our largest competitor is Delta Air Lines Inc. (Delta). Approximately 76% of our capacity to and from Seattle competes with Delta. As we have grown in California and have expanded our transcontinental route offerings, United Airlines and Southwest Airlines have also become large competitors and have increased their capacity in markets we serve. Our California and transcontinental routes have a higher concentration of competitors when compared to our historical route structure, which was predominately concentrated in the Pacific Northwest. As carriers further restore domestic capacity in the recovery from the COVID-19 pandemic, we expect the amount of competitive capacity overlap with all carriers to increase in the first quarter of 2022.

We believe that the following competitive factors matter to guests when making an air travel purchase decision:

- **Routes served, flight schedules, codesharing and interline relationships, and frequent flyer programs**

  We compete with other airlines based on markets served, the frequency of service to those markets and frequent flyer opportunities. Some airlines have more extensive route structures than we do, and they offer significantly more international routes. In order to expand opportunities for our guests, we enter into codeshare and interline relationships with other airlines that provide reciprocal frequent flyer mileage credit and redemption privileges. These relationships allow us to offer our guests access to more destinations than we can on our own, gain exposure in markets we do not serve and allow our guests more opportunities to earn and redeem frequent flyer miles. Our Mileage Plan offers some of the most valuable benefits in the industry, allowing our members the ability to earn and redeem miles on 23 partner carriers.

  Our 2021 entry into the oneworld alliance provides our guests increased global network utility and benefits, and positions us to capture an incremental share of global travelers and corporate accounts as demand for air travel recovers further from the COVID-19 pandemic.

- **Safety and guest health**

  Safety is our top priority and is at the core of everything we do. In its most recent rankings for 2022, AirlineRatings.com has again ranked Alaska as the safest U.S. airline within its ranking of the Top 20 safest airlines in the world. In 2020, we also received our 19th Diamond Award of Excellence from the Federal Aviation Administration (FAA), recognizing both Alaska and Horizon aircraft technicians for their commitment to training.

  As a result of the COVID-19 pandemic, our guests are sensitive to the risk of potential contagion throughout their journey. To address these concerns, we partnered with health and safety experts to build our Next-Level Care initiative. The initiative added nearly 100 measures through all stages of travel aimed at educating and helping our guests and employees to stay safe and to build confidence in flying.

- **Fares and ancillary services**

  Ticket and other fee pricing is a significant competitive factor in the airline industry, and the increased availability of fare information on the internet allows travelers to easily compare fares and identify competitor promotions and discounts. Pricing is driven by a variety of factors including, but not limited to, market-specific capacity, market share per route/geographic area, cost structure, fare vs. ancillary revenue strategies, and demand.

  For example, airlines often discount fares to drive traffic in new markets or to stimulate traffic when necessary to improve load factors. In addition, traditional network carriers have been able to reduce their operating costs through bankruptcies and mergers, while low-cost carriers have continued to grow their fleets and expand their networks, potentially enabling them to better control costs per available seat mile (the average cost to fly an aircraft seat one mile), which in turn may enable them to lower their fares. These factors can reduce our pricing power and that of the airline industry as a whole.

  Domestic airline capacity is dominated by four large carriers, representing 78% of total seats. One of our advantages is that we offer low fares and a premium value product and experience. However, given the large concentration of industry capacity, some carriers in our markets may discount their fares substantially to develop or increase market share. Fares that are substantially below our cost to operate can be harmful if sustained over a long period of time. We will defend our
position in our core markets and, if necessary, adjust capacity to better match supply with demand. Our strong financial position and low cost advantage have historically enabled us to offer competitive fares while still earning returns for our shareholders.

• **Customer service and reputation**

We compete with other airlines in areas of customer service such as on-time performance and guest amenities - including first class and other premium seating, quality of on-board products, aircraft type and comfort. All mainline aircraft in operating service have our refreshed interior configuration, which provides our guests with one consistent experience across the fleet. We also began installing next-generation Gogo® inflight satellite-based Wi-Fi on our entire Boeing and Airbus fleets in 2018, which is now planned to be completed in early 2022.

Our employees are a critical element of our reputation. We have a highly engaged workforce that strives to provide genuine and caring service to our guests, both at the airport and onboard. We heavily emphasize our service standards with our employees through training and education programs and monetary incentives related to operational performance and guest satisfaction.

In addition to domestic or foreign airlines that we compete with on most of our routes, we compete with ground transportation in our short-haul markets. Our airlines also compete with technology, such as video conferencing and internet-based meeting tools. We expect that the advancement and increased utilization of these tools will eliminate the need for some business-related travel.

**TICKET DISTRIBUTION**

Our tickets are distributed through three primary channels:

• **Direct to customer**: Selling direct at alaskaair.com is less expensive than other channels. We believe direct sales through this channel are preferable from a branding and customer relationship standpoint because we can establish ongoing communication with the guest and tailor offers accordingly. As a result, we prioritize efforts that drive more business to our website.

• **Traditional and online travel agencies**: Both traditional and online travel agencies typically use Global Distribution Systems to obtain their fare and inventory data from airlines. Bookings made through these agencies result in a fee that is charged to the airline. Many large corporate customers require us to use these agencies. Some of our competitors rely on this distribution channel to a lesser extent than we do, and, as a result, may have lower ticket distribution costs.

• **Reservation call centers**: Our call centers are located in Phoenix, AZ, Seattle, WA, and Boise, ID. We generally charge a $15 fee for booking reservations through the call centers.

Our sales by channel are as follows:

SEASONALITY AND OTHER FACTORS

Our results of operations for any interim period are not necessarily indicative of those for the entire year because our business is subject to seasonal fluctuations. In typical years, our profitability is generally lowest during the first and fourth quarters due principally to fewer departures and passengers. Profitability typically increases in the second quarter and then reaches its highest level during the third quarter as a result of vacation travel. Although pre-tax profits have not fully recovered to pre-COVID levels, seasonal fluctuations began to return to pre-COVID patterns as demand recovered in 2021, aided by the widespread availability of COVID-19 vaccines in the second quarter. However, due to relatively weaker business travel recovery and volatility from new COVID variants, seasonal fluctuations have not fully normalized. In a typical year, some of the impacts of seasonality are offset by travel from the West Coast to leisure destinations, like Hawaii and Costa Rica, and expansion to leisure and business destinations in the mid-continental and eastern U.S. Seasonality and operational fluctuations are not predictable in the current environment and may be permanently changed post-pandemic.

In a typical year, in addition to passenger loads, factors that could cause our quarterly operating results to vary include:

- pricing initiatives by us or our competitors,
- changes in fuel costs,
- increases in competition at our primary airports,
- general economic conditions and resulting changes in passenger demand,
- increases or decreases in passenger and volume-driven variable costs, and
- air space and Air Traffic Control delays, particularly in Seattle and San Francisco.

Many of the markets we serve experience inclement weather conditions in the winter, causing increased costs associated with deicing aircraft, canceling flights and accommodating displaced passengers. Due to our geographic area of operations, we can be more susceptible to adverse weather conditions, particularly in the state of Alaska and the Pacific Northwest, than some of our competitors who may be better able to spread the impact of weather-related risks over larger route systems.

No material part of our business, or that of our subsidiaries, is dependent upon a single customer, or upon a few high-volume customers.

SUSTAINABILITY INITIATIVES

Taking responsibility for our impact on the environment is an integral part of delivering value for all those who depend on us – employees, guests, owners and communities. To that end, we are focused on mitigating or reducing our most significant environmental impacts. Our sustainability goals are anchored by our commitment to reduce our carbon emissions. In 2021, we announced new short and long-term targets, with the ultimate goal of reaching net-zero carbon emissions by 2040. Our roadmap for achieving this goal includes the following focus areas:

- **Renewing our fleet with more efficient airplanes** - Alaska received 11 Boeing 737-9 aircraft in 2021 and has firm commitments to take 82 more. Alaska also has options for 52 additional 737-9 aircraft. These aircraft will provide improved fuel efficiency compared to the aircraft they are slated to replace, and enable fuel-efficient growth as well. Alaska has also partnered with Boeing on the 737-9 ecoDemonstrator program, which tests advanced technologies designed to enhance the safety and sustainability of air travel.

- **Using sustainable aviation fuel** - Among currently available technologies, sustainable aviation fuel has the greatest potential for enabling near-term progress towards our net-zero emissions goal. Alaska has joined other carriers at Seattle Tacoma International Airport and San Francisco International Airport to establish a pathway to commercially viable sustainable aviation fuel. Expanding use of sustainable aviation fuel also depends on its reliable availability. To this end, we are partnered with others in the aviation community to identify and develop new sources of production.

- **Increasing operational efficiency** - Alaska and Horizon take pride in consistently delivering top-of-industry operational performance. Alaska's use of Required Navigational Performance aids in reducing emissions through providing more direct approaches and reducing weather-related diversions. Alaska was also the first in the industry to
adopt Flyways AI, a technology which leverages artificial intelligence and machine learning to optimize air traffic and enable more fuel-efficient flight paths for aggregate savings of fuel, carbon emissions and time.

- **Increasing the use of electric or alternative power** - In 2021, we launched and funded Alaska Star Ventures LLC, an investment arm with a primary focus on identifying and funding companies working on emerging green technologies. Alaska also announced a collaboration with ZeroAvia to begin development on a hydrogen-electric powertrain engine capable of flying regional aircraft in excess of 500 nautical miles. In 2021, Alaska Star Ventures funded $5 million, and has goals to contribute an additional $33 million of cash and in-kind investments through 2028. Alaska and Horizon also continue to expand the use of electric ground equipment at airports.

- **Harnessing carbon offset technology** - To close any remaining gaps on the path to net-zero, we have partnered with industry experts to identify and vet credible, high-quality carbon offsetting technologies.

In alignment with our sustainability goals, we joined the Climate Pledge in 2021, an Amazon-led initiative to limit emissions that includes more than 200 companies. Also in 2021, we included a carbon emissions metric in our company-wide Performance-Based Pay program, as we believe it is important to embed these critical targets into the incentives that align all of our employees.

Aside from our commitments to reducing our airlines’ carbon footprint, we also recognize the impact our operation has in generating waste. In 2018, we were the first U.S. airline to remove plastic straws and stir sticks from our aircraft and in 2019, we launched a campaign called #FillBeforeYouFly to engage our employees and guests in reducing plastic waste. In 2021, we expanded inflight sustainability efforts by trading plastic water bottles and cups for plant-based cartons and recyclable paper cups. Alaska leads the industry in inflight recycling, and continues to evaluate new ways to further reduce inflight waste.

**HUMAN CAPITAL**

**OUR PEOPLE**

Our business is labor intensive. As of December 31, 2021, we employed 22,833 (17,054 at Alaska, 3,494 at Horizon, and 2,285 at McGee Air Services) active employees. Of those employees, 90% are full-time and 10% are part-time. Wages and benefits, including variable incentive pay, represented approximately 56% of our total non-fuel operating expenses in 2021 and 47% in 2020.

Most major airlines, including Alaska and Horizon, have employee groups that are covered by collective bargaining agreements. Airlines with unionized workforces generally have higher labor costs than carriers without unionized workforces. Those with unionized workforces may not have the ability to adjust labor costs downward quickly in response to new competition or slowing demand. At December 31, 2021, labor unions represented 86% of Alaska’s, 50% of Horizon’s, and 87% of McGee Air Services’ employees.

Our relations with U.S. labor organizations are governed by the Railway Labor Act (RLA). Under the RLA, collective bargaining agreements do not expire, but instead become amendable as of a stated date. If either party wishes to modify the terms of any such agreement, it must notify the other party in the manner prescribed by the RLA and/or described in the agreement. After receipt of such notice, the parties must meet for direct negotiations, and if no agreement is reached, either party may request the National Mediation Board to initiate a process including mediation, arbitration, and a potential “cooling off” period that must be followed before either party may engage in self-help.
Alaska’s union contracts at December 31, 2021 were as follows:

<table>
<thead>
<tr>
<th>Union</th>
<th>Employee Group</th>
<th>Number of Employees</th>
<th>Contract Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Association of Flight Attendants (AFA)</td>

</tbody>
</table>

(a) Negotiations with ALPA for an updated collective bargaining agreement are ongoing as of the date of this filing. In September 2021, Alaska Airlines engaged the National Mediation Board to assist in negotiations.

(b) As a result of amendments to Mexican labor laws, the Company has up to four years to make changes to the existing labor agreements. During that time, the existing contracts remain in place.

Horizon’s union contracts at December 31, 2021 were as follows:

<table>
<thead>
<tr>
<th>Union</th>
<th>Employee Group</th>
<th>Number of Employees</th>
<th>Contract Status</th>

</tr>
</tbody>
</table>

With the dramatic decline in demand we experienced in 2020, our workforce was larger than necessary to support our operational and business needs. To help stabilize the business, we utilized temporary workforce reduction mechanisms, including early-out and voluntary leave programs which were available to all frontline work groups. We also offered incentive leaves to Alaska pilots and mechanics. As demand significantly rebounded in late spring 2021, Alaska began recalling employees from leave programs prior to their intended expiry, with all employees on leave returned to active employment by October 2021.

Alaska and Horizon invest in employee programs and training that aid advancement throughout the Company. Our Pilot Pathways Program provides a clear and direct path for Horizon pilots to progress to mainline flying has advanced 263 pilots since inception in 2018. In 2021, we also created an internal maintenance technician development program, which will provide eligible employees with financial assistance to enhance and develop skills with the goal of becoming a certified maintenance technician. Providing meaningful advancement opportunities to employees throughout Air Group is important, and we continue to evaluate new programs which support our people and advance our long-term strategic goals.
DIVERSITY, EQUITY AND INCLUSION

At Alaska and Horizon, we believe that every person deserves respect regardless of race, ethnicity, capability, age, gender, or sexual orientation. We are committed to advancing equity in all forms, and have set specific and measurable goals to deliver on our commitments to racial equity and diversity by 2025. Our primary goals in this arena are to increase racial diversity in our leadership team and build a culture of inclusion for all employees.

We are also working with existing partners such as United Negro College Fund (UNCF) to create career pathways for at least 175,000 young people. As a reflection of the importance of these commitments, a portion of long-term executive compensation has been tied to achievement of these goals.

COMMUNITY INVOLVEMENT

Alaska and Horizon are dedicated to actively supporting the communities we serve. In 2021, Air Group companies donated $11 million in cash and in-kind travel to approximately 900 charitable organizations, and our employees volunteered more than 21,000 hours of community service related to youth and education, medical research and transportation. Our cargo business also provided critical support to communities in need by transporting essential goods and shipments of COVID-19 vaccines throughout the state of Alaska.

The Alaska Airlines Foundation (the Foundation) also provides grants to nonprofits that offer educational and career-development programs to young people. Organizations are invited to apply bi-annually for grants ranging from $5,000 to $20,000, with preference given to organizations that can demonstrate partnership and long-term program sustainability. Since inception in 1999, the Foundation has donated more than $3 million in grants, including nearly $260,000 in 2021.

For more details on the Company's environmental, social and governance goals, strategy and roadmap for success, refer to the annual LIFT report on our website, www.alaskaair.com/lift. The information contained on our sustainability website is not a part of this annual report on Form 10-K.

Mr. Minicucci was elected President and Chief Executive Officer (CEO) of Alaska Air Group effective March 31, 2021, and has been President of Alaska Airlines since May 2016. Prior to that he was Executive Vice President/Operations of Alaska Airlines from December 2008 to May 2016, and was Alaska’s Chief Operating Officer from December 2008 until November 2019. He was Chief Executive Officer of Virgin America Inc. from December 2016 to July 2018, when Virgin America was merged into Alaska. He leads Air Group’s Management Executive Committee, and was elected to the Alaska Air Group Board of Directors in May 2020.

Mr. Tackett was elected Chief Financial Officer in March 2020 and is a member of Air Group’s Management Executive Committee. Mr. Tackett joined Alaska Airlines in 2000 and has served in a number of roles including Managing Director Financial Planning and Analysis (2008-2010), Vice President Labor Relations (2010-2015), Vice President Revenue Management (2016), Senior Vice President Revenue and E-commerce (2017-2018), and Executive Vice President Planning and Strategy (2018-2020).

Mr. Levine was elected Senior Vice President Legal and General Counsel of Alaska Air Group and Alaska Airlines in January 2020 and is a member of Air Group’s Management Executive Committee. Mr. Levine was previously Vice President Legal and General Counsel of Alaska Air Group and Alaska Airlines (January 2016 - January 2020). He was elected Corporate Secretary of Alaska Air Group and Alaska Airlines in August 2017 and of Horizon Air in January 2020. Mr. Levine joined Alaska Airlines in February 2006 as a Senior Attorney. He also served as Associate General Counsel and Managing Director Commercial Law and General Litigation from July 2009 to February 2011 and, subsequently, as Deputy General Counsel and Managing Director of Legal at Alaska Airlines from February 2011 to January 2016.

Mr. Sprague was elected President of Horizon Air effective November 6, 2019 and is a member of Air Group’s Management Executive Committee. Mr. Sprague previously served as Senior Vice President External Relations of Alaska Airlines from May 2014 until his resignation in September 2017. Mr. Sprague also served Alaska Airlines as Vice President of Marketing from March 2010 to April 2014 and Vice President of Alaska Air Cargo from April 2008 to March 2010.
Mr. Harrison was elected Executive Vice President and Chief Commercial Officer in August 2015. He is a member of Air Group’s Management Executive Committee. Mr. Harrison joined Alaska Airlines in 2003 as the Managing Director of Internal Audit and was elected Vice President of Planning and Revenue Management in 2008. He was elected Senior Vice President of Planning and Revenue Management in 2014 and Executive Vice President and Chief Revenue Officer in February 2015.

Ms. von Muehlen was elected Executive Vice President and Chief Operating Officer of Alaska Airlines effective April 3, 2021 and is a member of Air Group’s Management Executive Committee. Prior to that she served as Senior Vice President of Maintenance and Engineering of Alaska Airlines from January 2019 to April 2021. Ms. von Muehlen served as Chief Operating Officer at Horizon Air from January 2018 to January 2019, and Managing Director of Airframe, Engine, Components MRO at Alaska Airlines from December 2012 to January 2018.

Ms. Schneider was elected Senior Vice President of People at Alaska Airlines in June 2019 and is a member of Air Group’s Management Executive Committee. Ms. Schneider was previously Vice President of People at Alaska (August 2017-May 2019) Vice President of Inflight Services at Alaska (2011-2017), and later also took responsibility for Call Centers at Alaska (February 2017). She began her career at Alaska as Manager of Financial Accounting in 1989 and she has held a number of positions until her election in 2011.

Ms. Birkett-Rakow was elected Senior Vice President of Public Affairs and Sustainability at Alaska Airlines in November 2021. She was previously elected Vice President of Public Affairs and Sustainability in February 2021 and also served as Vice President of External Relations at Alaska Airlines from September 2017 to February 2021. Ms. Birkett Rakow is a member of Air Group's Management Executive Committee.

REGULATION

GENERAL

The airline industry is highly regulated, most notably by the federal government. The Department of Transportation (DOT), the Transportation Security Administration (TSA) and the FAA exercise significant regulatory authority over air carriers.

- DOT: A domestic airline is required to hold a certificate of public convenience and necessity issued by the DOT in order to provide passenger and cargo air transportation in the U.S. Subject to certain individual airport capacity, noise and other restrictions, this certificate permits an air carrier to operate between any two points in the U.S. Certificates do not expire, but may be revoked for failure to comply with federal aviation statutes, regulations, orders or the terms of the certificates. While airlines are permitted to establish their own fares without government regulation, the DOT has jurisdiction over the approval of international codeshare agreements, marketing alliance agreements between major domestic carriers, international and some domestic route authorities, Essential Air Service market subsidies, carrier liability for personal or property damage, and certain airport rates and charges disputes. International treaties may also contain restrictions or requirements for flying outside of the U.S. and impose different carrier liability limits than those applicable to domestic flights. The DOT has been active in implementing a variety of consumer protection regulations, covering subjects such as advertising, passenger communications, denied boarding compensation and tarmac delay response. Airlines are subject to enforcement actions that are brought by the DOT for alleged violations of consumer protection and other economic regulations. We are not aware of any enforcement proceedings that could either materially affect our financial position or impact our authority to operate.

- FAA: The FAA, through Federal Aviation Regulations (FARs), generally regulates all aspects of airline operations, including establishing personnel, maintenance and flight operation standards. Domestic airlines are required to hold a valid air carrier operating certificate issued by the FAA. Pursuant to these regulations, we have established, and the FAA has approved, our operations specifications and a maintenance program for each type of aircraft we operate. Each maintenance program provides for the ongoing maintenance of the relevant aircraft type, ranging from frequent routine inspections to major overhauls. Periodically, the FAA issues Airworthiness Directives (ADs) that must be incorporated into our aircraft maintenance program and operations. All airlines are subject to enforcement actions that are brought by the FAA from time to time for alleged violations of FARs or ADs. At this time, we are not aware of any enforcement proceedings that could either materially affect our financial position or impact our authority to operate.

- TSA: Airlines serving the U.S. must operate a TSA-approved Aircraft Operator Standard Security Program (AOSSP), and comply with TSA Security Directives (SDs) and regulations. Under TSA authority, we are required to collect a September 11 Security Fee of $5.60 per one-way trip from passengers and remit that sum to the government to fund aviation security measures. Airlines are subject to enforcement actions that are brought by the TSA for alleged violations of the AOSSP,
SDs or security regulations. We are not aware of any enforcement proceedings that could either materially affect our financial position or impact our authority to operate.

The Department of Justice and DOT have jurisdiction over airline competition matters. The U.S. Postal Service has jurisdiction over certain aspects of the transportation of mail and related services. Labor relations in the air transportation industry are regulated under the RLA. To the extent we continue to fly to foreign countries and pursue alliances with international carriers, we may be subject to certain regulations of foreign agencies and international treaties.

We are also subject to the oversight of the Occupational Safety and Health Administration (OSHA) concerning employee safety and health matters. The OSHA and other federal agencies have been authorized to create and enforce regulations that have an impact on our operations. In addition to these federal activities, various states have been delegated certain authorities under these federal statutes. Many state and local governments have adopted employee safety and health laws and regulations. We maintain our safety and health programs in order to meet or exceed these requirements.

ENVIRONMENTAL

We are also subject to various laws and government regulations concerning environmental matters, both domestically and internationally. Domestic regulations that have an impact to our operations include the Airport Noise and Capacity Act of 1990, the Clean Air Act, Resource Conservation and Recovery Act, Clean Water Act, Safe Drinking Water Act, the Comprehensive Environmental Response and Compensation Liability Act, the National Environmental Policy Act (including Environmental Justice), Emergency Planning and Community Right-to-Know Act and the Toxic Substances Control Act. Many state and local environmental regulations exceed these federal regulations. In the future we expect there to be incremental legislation aimed at further reduction of greenhouse gas emissions, hazardous substances and additional focus on environmental justice.

The Airport Noise and Capacity Act recognizes the rights of airport operators with noise problems to implement local noise abatement programs so long as they do not interfere unreasonably with interstate or foreign commerce or the national air transportation system. Authorities in several cities have established aircraft noise reduction programs, including the imposition of nighttime curfews. We believe we have sufficient scheduling flexibility to accommodate local noise restrictions.

The domestic US airline industry committed to carbon neutral growth starting in 2020. Through this commitment we have joined participation in the Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA), a global, market-based emissions offset program issued by the International Civil Aviation Organization to be carbon neutral for international growth. As a result of the COVID-19 pandemic, the growth baseline year was modified and set to 2019 during the initial phase. This does not have a direct impact on domestic flights, however the EPA finalized a rule in 2020 on aircraft emission standards which aligns with the international agreements. Additional commitments to decarbonize through the Paris Climate Accord and domestic carbon neutrality remain a potential impact to our industry.

At this time we do not currently anticipate adverse financial impacts from any specific existing or pending environmental regulation or reporting requirements, new regulations, related to our existing or past operations, or compliance issues could harm our financial condition, results of operations or cash flows in future periods.

INSURANCE

We carry insurance of types customary in the airline industry and in amounts deemed adequate to protect our interests and property and to comply both with federal regulations and certain credit and lease agreements. The insurance policies principally provide coverage for airline hull, spares and comprehensive legal liability, war and allied perils, and workers’ compensation. In addition, we currently carry a cyber insurance policy in the event of security breaches from malicious parties.

We believe that our emphasis on safety and our state-of-the-art flight deck safety technology help to control the cost of our insurance.

WHERE YOU CAN FIND MORE INFORMATION

Our filings with the Securities and Exchange Commission, including our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports are available on our website at www.alaskaair.com, free of charge, as soon as reasonably practicable after these reports are electronically filed with, or furnished to, the SEC. The information contained on our website is not a part of this annual report on Form 10-K.
GLOSSARY OF TERMS

Adjusted Net Debt - long-term debt, including current portion, plus capitalized operating leases, less cash and marketable securities

Adjusted Net Debt to EBITDAR - represents adjusted net debt divided by EBITDAR (trailing twelve months earnings before interest, taxes, depreciation, amortization, special items and rent)

Aircraft Utilization - block hours per day; this represents the average number of hours per day our aircraft are in transit

Aircraft Stage Length - represents the average miles flown per aircraft departure

ASMs - available seat miles, or “capacity”; represents total seats available across the fleet multiplied by the number of miles flown

CASM - operating costs per ASM, or "unit cost"; represents all operating expenses including fuel and special items

CASMex - operating costs excluding fuel and special items per ASM; this metric is used to help track progress toward reduction of non-fuel operating costs since fuel is largely out of our control

Debt-to-Capitalization Ratio - represents adjusted debt (long-term debt plus capitalized operating lease liabilities) divided by total equity plus adjusted debt

Diluted Earnings per Share - represents earnings per share (EPS) using fully diluted shares outstanding

Diluted Shares - represents the total number of shares that would be outstanding if all possible sources of conversion, such as stock options, were exercised

Economic Fuel - best estimate of the cash cost of fuel, net of the impact of our fuel-hedging program

Load Factor - RPMs as a percentage of ASMs; represents the number of available seats that were filled with paying passengers

Mainline - represents flying Boeing 737, Airbus 320 family and Airbus 321neo jets and all associated revenues and costs

Productivity - number of revenue passengers per full-time equivalent employee

RASM - operating revenue per ASMs, or "unit revenue"; operating revenue includes all passenger revenue, freight & mail, Mileage Plan and other ancillary revenue; represents the average total revenue for flying one seat one mile

Regional - represents capacity purchased by Alaska from Horizon and SkyWest. Financial results in this segment include actual on-board passenger revenue, less costs such as fuel, distribution costs, and payments made to Horizon and SkyWest under the respective capacity purchased arrangement (CPA). Additionally, Regional includes an allocation of corporate overhead such as IT, finance, and other administrative costs incurred by Air Group and on behalf of Horizon

RPMs - revenue passenger miles, or "traffic"; represents the number of seats that were filled with paying passengers; one passenger traveling one mile is one RPM

Yield - passenger revenue per RPM; represents the average revenue for flying one passenger one mile

ITEM 1A. RISK FACTORS

If any of the following occurs, our business, financial condition and results of operations could be harmed. The trading price of our common stock could also decline. We operate in a continually changing business environment. In this environment, new risks may emerge, and already identified risks may vary significantly in terms of impact and likelihood of occurrence. Management cannot predict such developments, nor can it assess the impact, if any, on our business of such new risk factors or of events described in any forward-looking statements.
We have adopted an enterprise-wide risk analysis and oversight program designed to identify the various risks faced by the organization, assign responsibility for managing those risks to individual executives as well as align these risks with Board oversight. These enterprise-wide risks align to the risk factors discussed below.

COVID-19

The global pandemic caused by COVID-19, and related measures implemented to combat its spread has had, and is expected to continue to have, a material adverse effect on the Company’s operations, financial position and liquidity.

In late 2019, an outbreak of novel coronavirus and its resulting disease (COVID-19) was detected in Wuhan, China. Since that time, COVID-19 has spread rapidly throughout the globe, including within the United States, where millions of cases have been positively diagnosed to date. Although travel restrictions and stay-at-home orders have largely been lifted following the rollout of vaccination programs, the rise of new variants has led to volatility in bookings and overall demand for air travel. This volatility, coupled with low recovery of business travel, had and continues to have a material adverse impact on our revenues and results of operations. Additionally, our operations have been, and may continue to be, negatively affected if our employees or vendor partners are quarantined or sickened as a result of exposure to COVID-19.

In response to the pandemic, we implemented, and continue to refine and adjust, a comprehensive strategy to mitigate the impacts on our business. This strategy may itself have negative impacts on our business and operations. Our strategies for encouraging air travel may continue to evolve in response to emerging variants. These new strategies may require further investment, and if not successful, may not generate related revenues to offset these costs. One such action is the elimination of change fees for first and main cabin fares and the ability to rebook travel for an extended period beyond standard rebooking terms. The loss of change fee revenue, combined with ongoing significant ticket cancellation activity, has adversely impacted our revenues and liquidity.

At this time, we are unable to predict what impact the pandemic will have on future customer behavior. New variants, particularly those which are vaccine-resistant, may result in further variability in advance booking and refund activity. The recovery of business travel may be impacted by widespread use of video conferencing or the reduction of business travel budgets. In addition, the Company has incurred, and will continue to incur COVID-19 related costs in response to the need for higher staffing levels as well as for enhanced aircraft cleaning and additional procedures to limit transmission among employees and guests. These contingencies, individually and in the aggregate, could have a material adverse impact on our business.

We have accepted certain conditions by accepting funding under the Payroll Support Program of the Coronavirus Aid, Relief and Economic Security (CARES) Act.

The CARES Act was signed into law on March 27, 2020, providing U.S. airlines and related businesses the ability to access liquidity in the form of grants, loans, loan guarantees and other investments by the U.S. government.

In 2020 and 2021, the Company, Alaska, Horizon, and McGee entered agreements with the United States Department of the Treasury (Treasury) to secure approximately $2.3 billion of funding under the CARES Act Payroll Support Program (PSP) and two related extensions. Of total funding, $600 million is in the form of an unsecured senior term loan payable over ten years. PSP proceeds were used exclusively for employee payroll and benefits expenses in accordance with the terms and conditions of the PSP agreements and the applicable provisions of the CARES Act.

In addition to repayment commitments, we remain subject to the following conditions under our CARES Act agreements:

- The Company may not repurchase its common stock or pay dividends on its common stock until October 1, 2022;
- Compensation and severance payments for officers and employees who earned more than $425,000 in total compensation in 2019 will be subject to maximum limitations through April 1, 2023; and
- The Company must maintain certain internal controls and records, and provide any additional reporting required by the U.S. government.

These conditions may adversely affect the Company’s profitability, our ability to negotiate favorable terms with loyalty partners, our attractiveness to investors, and our ability to compensate at market-competitive levels and retain key personnel.
Mandatory vaccination programs could have a material adverse impact on the Company’s operations and financial results.

The President's executive order dated September 9, 2021 requires employees of government contractors to be fully vaccinated against COVID-19. Alaska Airlines and Horizon Air are government contractors by virtue of their agreements with the U.S. government for the carriage of passengers and mail, among other activities. McGee Air Services is subject to the executive order as a subcontractor of Alaska Airlines. As of the date of this filing, the executive order is subject to unsettled legal challenges, and its legality must be upheld in the judicial system prior to its enforcement by the government. Should the executive order be upheld in its current form, employers may excuse employees from the vaccination requirement only with a valid medical or religious exemption. Alaska, Horizon and McGee operate in highly competitive job markets in which the pool of available employees is limited. Our companies, contractors, and vendor partners whose services we rely on to run our operation may lose current or prospective employees because individuals decline to be vaccinated. If our companies, contractors, and vendor partners cannot fill job vacancies with other qualified workers, operational disruption and associated negative impact to guests and our financial results could result. If we cannot comply with the scope and/or timing of the executive order or similar state mandates, we could lose business and revenues associated with our government contracts.

SAFETY, COMPLIANCE AND OPERATIONAL EXCELLENCE

Our reputation and financial results could be harmed in the event of an airline accident or incident.

An accident or incident involving one of our aircraft or an aircraft operated by one of our codeshare partners or CPA carriers could involve loss of life and result in a loss of confidence in our Company by the flying public and/or aviation authorities. We could experience significant claims from injured passengers, bystanders and surviving relatives, as well as costs for the repair or replacement of a damaged aircraft and temporary or permanent loss from service. We maintain liability insurance in amounts and of the type generally consistent with industry practice, as do our codeshare partners and CPA carriers. However, the amount of such coverage may not be adequate to fully cover all claims, and we may be forced to bear substantial economic losses from such an event. Substantial claims resulting from an accident in excess of our related insurance coverage would harm our business and financial results. Moreover, any aircraft accident or incident, even if it is fully insured and does not involve one of our aircraft, could cause a public perception that our airlines or the aircraft we or our partners fly are less safe or reliable than other transportation alternatives. This would harm our business.

Our operations are often affected by factors beyond our control, including delays, cancellations and other conditions, which could harm our business, financial condition and results of operations.

As is the case for all airlines, our operations often are affected by delays, cancellations and other conditions caused by factors largely beyond our control.

Factors that might impact our operations include:

• contagious illness and fear of contagion;
• congestion, construction, space constraints at airports, and/or air traffic control problems, all of which many restrict flow;
• adverse weather conditions;
• lack of operational approval (e.g. new routes, aircraft deliveries, etc.);
• increased security measures or breaches in security;
• changes in international treaties concerning air rights;
• international or domestic conflicts or terrorist activity;
• interference by modernized telecommunications equipment with aircraft navigation technology; and
• other changes in business conditions.
Due to the concentration of our flights in the Pacific Northwest and Alaska, we believe a large portion of our operation is more susceptible to adverse weather conditions than other carriers. A general reduction in airline passenger traffic as a result of any of the above-mentioned factors could harm our business, financial condition and results of operations.

**We rely on vendors for certain critical activities and sourcing, which could expose us to disruptions in our operation or unexpected cost increases.**

We rely on vendors for a variety of services and functions critical to our business, including airframe and engine maintenance, regional flying, ground handling, fueling, computer reservation system hosting, telecommunication systems, information technology infrastructure and services, and deicing, among others.

Even though we strive to formalize agreements with these vendors that define expected service levels, our use of outside vendors increases our exposure to several risks. In the event that one or more vendors go into bankruptcy, ceases operation or fails to perform as promised, for reasons such as supply chain delays, or workforce shortages, replacement services may not be readily available at competitive rates, or at all. If one of our vendors fails to perform adequately, we may experience increased costs, delays, maintenance issues, safety issues or negative public perception of our airline. Vendor bankruptcies, unionization, regulatory compliance issues or significant changes in the competitive marketplace among suppliers could adversely affect vendor services or force us to renegotiate existing agreements on less favorable terms. These events could result in disruptions in our operations or increases in our cost structure.

**Impacts of climate change, including legal, regulatory or market responses, may have a material adverse result on our operations and/or financial position.**

Concerns regarding climate change, including the impacts of a gradual increase in global temperatures leading to more severe weather conditions, continue to rise. Increased frequency or duration of extreme weather conditions could cause significant and prolonged impacts to our operation or disrupt our supply chain. These disruptions may result in increased operating costs and lost revenue should we be unable to operate our published schedules.

Many aspects of our operation are subject to increasing regulations governing environmental change. Increased governmental regulation involving aircraft emissions and environmental investigation and remediation costs coupled with public expectations for reductions in greenhouse gas emissions may require us to make significant investments in emerging and yet unproven technologies. Should these technologies not gain approval for use in our operation, our results of operations may be adversely impacted, and we may be required to direct new investments to different technologies. Failure to comply with increasing regulation, or in addressing the concerns of our guests and our shareholders, may adversely impact financial position, our results of operations, or our stock price.

**Changes in government regulation imposing additional requirements and restrictions on our operations could increase our operating costs and result in service delays and disruptions.**

Airlines are subject to extensive regulatory and legal requirements, both domestically and internationally, that require substantial compliance costs. In the last several years, Congress has passed laws, and the U.S. DOT, the TSA and the FAA have issued regulations that have required significant expenditures relating to maintenance of aircraft, operation of airlines and broadening of consumer protections.

Similarly, there are a number of legislative and regulatory initiatives and reforms at the federal, state and local levels. These initiatives include increasingly stringent laws to protect the environment, minimum wage requirements, mandatory paid sick or family leave, and health care mandates. These laws could affect our relationship with our workforce and the vendors that serve our airlines and cause our expenses to increase without an ability to pass through these costs. New initiatives with employer-funded costs, specifically those impacting Washington State, could disproportionately increase our cost structure as compared to our competitors. In recent years, the airline industry has experienced an increase in litigation over the application of state and local employment laws, particularly in California. Application of these laws may result in operational disruption, increased litigation risk, and impact on negotiated labor agreements.

Almost all commercial service airports are owned and/or operated by units of local or state governments. Airlines are largely dependent on these governmental entities to provide adequate airport facilities and capacity at an affordable cost. Many airports have increased their rates and charges to air carriers to reflect higher costs of security, updates to infrastructure, and other expenses. Additional laws, regulations, taxes, airport rates and airport charges may be occasionally proposed that could significantly increase the cost of airline operations or reduce the demand for air travel. Although lawmakers may impose these additional fees and view them as “pass-through” costs, we believe that a higher total ticket price will influence consumer
purchase and travel decisions and may result in an overall decline in passenger traffic, which would harm our business. Additionally, changes in laws and regulations at the local level may be difficult to track and maintain compliance. Any instances of non-compliance could result in additional fines and fees.

The airline industry continues to face potential security concerns and related costs.

Terrorist attacks, the fear of such attacks or other hostilities involving the U.S. could have a significant negative effect on the airline industry, including us, and could:

- significantly reduce passenger traffic and yields as a result of a dramatic drop in demand for air travel;
- significantly increase security and insurance costs;
- make war risk or other insurance unavailable or extremely expensive;
- increase fuel costs and the volatility of fuel prices;
- increase costs from airport shutdowns, flight cancellations and delays resulting from security breaches and perceived safety threats; and
- result in a grounding of commercial air traffic by the FAA.

The occurrence of any of these events would harm our business, financial condition and results of operations.

STRATEGY

The airline industry is highly competitive and susceptible to price discounting and changes in capacity, which could have a material adverse effect on our business. If we cannot successfully compete in the marketplace, our business, financial condition, and operating results will be materially adversely affected.

The U.S. airline industry is characterized by substantial price competition. Airlines compete for market share by increasing or decreasing their capacity, route systems, and the number of markets served. Several of our competitors have increased their capacity in markets we serve, particularly in our key West Coast markets. This dynamic may be exacerbated by competition among airlines to attract passengers during the recovery from the COVID-19 pandemic. The resulting increased competition in both domestic and international markets may have a material adverse effect on our results of operations, financial condition, or liquidity.

We strive toward maintaining and improving our competitive cost structure by setting aggressive unit cost-reduction goals. This is an important part of our business strategy of offering the best value to our guests through low fares while achieving acceptable profit margins and return on capital. If we are unable to maintain our cost advantage over the long-term and achieve sustained targeted returns on invested capital, we will likely not be able to grow our business in the future or weather industry downturns. Therefore, our financial results may suffer.

The airline industry may undergo further restructuring, consolidation, or the creation or modification of alliances or joint ventures, any of which could have a material adverse effect on our business, financial condition and results of operations.

We continue to face strong competition from other carriers due to restructuring, consolidation, and the creation and modification of alliances and joint ventures. Since deregulation, both the U.S. and international airline industries have experienced consolidation through a number of mergers and acquisitions. Carriers may also improve their competitive positions through airline alliances, slot swaps/acquisitions and/or joint ventures. Certain airline joint ventures further competition by allowing airlines to coordinate routes, pool revenues and costs, and enjoy other mutual benefits, achieving many of the benefits of consolidation.

Our concentration in certain markets could cause us to be disproportionately impacted by adverse changes in circumstances in those locations.

Our strategy involves a high concentration of our business in key West Coast markets. A significant portion of our flights occur to and from our Seattle, Portland, and Bay Area hubs. In 2021, passengers to and from Seattle, Portland, and the Bay Area accounted for 82% of our total guests.
We believe that concentrating our service offerings in this way allows us to maximize our investment in personnel, aircraft and ground facilities, as well as to gain greater advantage from sales and marketing efforts in those regions. As a result, we remain highly dependent on our key markets. Our business could be harmed by any circumstances causing a reduction in demand for air transportation in our key markets. An increase in competition in our key markets could also cause us to reduce fares or take other competitive measures that, if sustained, could harm our business, financial condition and results of operations.

**We are dependent on a limited number of suppliers for aircraft and parts.**

Alaska is dependent on Boeing and Airbus as its sole suppliers for aircraft and many aircraft parts. Horizon is similarly dependent on Embraer and De Havilland. Additionally, each carrier is dependent on sole suppliers for aircraft engines for each aircraft type. As a result, we are more vulnerable to issues associated with the supply of those aircraft and parts including design defects, mechanical problems, contractual performance by the manufacturers, or adverse perception by the public that would result in customer avoidance or in actions by the FAA. Should we be unable to resolve known issues with certain of our aircraft or engine suppliers, it may result in the inability to operate our aircraft for extended periods. Additionally, if effects of the ongoing economic recovery and/or supply chain backlog causes our limited vendors to have performance problems, reduced or ceased operations, bankruptcies, workforce shortages, or other events causing them to be unable to fulfill their commitments to us, our operations and business could be materially adversely affected.

Should these suppliers be unable to manufacture or deliver new aircraft, we may not be able to grow our fleet at intended rates, which could impact our financial position. Boeing has significant production constraints for the 737-9 aircraft, which may impact the timing of deliveries. If we are unable to receive these aircraft and future aircraft in a timely manner, our growth plans could be negatively impacted. Additionally, further consolidation amongst aircraft and aircraft parts manufacturers could further limit the number of suppliers. This could result in an inability to operate our aircraft or instability in the foreign countries in which the aircraft and its parts are manufactured.

**We rely on partner airlines for codeshare and frequent flyer marketing arrangements.**

Our airlines are parties to marketing agreements with a number of domestic and international air carriers, or “partners,” including an expanded relationship with American. These agreements provide that certain flight segments operated by us are held out as partner “codeshare” flights and that certain partner flights are held out for sale as Alaska codeshare flights. Refer to Item 1 above for details regarding these codeshare agreements. In addition, the agreements generally provide that members of Alaska’s Mileage Plan program can earn credit on or redeem credit for partner flights and vice versa. We receive revenue from flights sold under codeshare and from interline arrangements. In addition, we believe that the frequent flyer arrangements are an important part of our loyalty program. The loss of a significant partner through bankruptcy, consolidation, or otherwise, could have a negative effect on our revenues or the attractiveness of our Mileage Plan program, which we believe is a source of competitive advantage.

Our entry into the oneworld global alliance is expected to provide us with many benefits, including the ability to seamlessly connect our guests to more points around the globe, as well as better serve corporate partners. Entry into the alliance may cause us to lose existing codeshare agreements with partners who are not oneworld members, and could limit options to bring non-oneworld carrier partners into our Mileage Plan program. Further, maintaining an alliance with another U.S. airline may expose us to additional regulatory scrutiny. Failure to appropriately manage these partnerships and alliances could negatively impact future growth plans and our financial position.

We routinely engage in analysis and discussions regarding our own strategic position, including alliances, codeshare arrangements, interline arrangements, and frequent flyer program enhancements, and will continue to pursue these commercial activities. If other airlines participate in consolidation or reorganization, those airlines may significantly improve their cost structures or revenue generation capabilities, thereby potentially making them stronger competitors of ours and potentially impairing our ability to realize expected benefits from our own strategic relationships.
Economic uncertainty, or another recession, would likely impact demand for our product and could harm our financial condition and results of operations.

The airline industry, which is subject to relatively high fixed costs and highly variable and unpredictable demand, is particularly sensitive to changes in economic conditions. We are particularly dependent on U.S. consumer confidence and the health of the U.S. economy. Unfavorable U.S. economic conditions have historically driven changes in travel patterns and have resulted in reduced spending for both leisure and business travel. For some consumers, leisure travel is a discretionary expense, and shorter distance travelers, in particular, have the option to replace air travel with surface travel. Businesses are able to forgo air travel by using communication alternatives such as video conferencing or may be more likely to purchase less expensive tickets to reduce costs, which can result in a decrease in average revenue per seat. Unfavorable economic conditions also hamper the ability of airlines to raise fares to counteract increased fuel, labor and other costs. Unfavorable or even uncertain economic conditions could negatively affect our financial condition and results of operations.

TECHNOLOGY

We rely heavily on automated systems to operate our business, including expanded reliance on systems managed or hosted by third parties. Failure to invest in new technology or a disruption of our current systems or their operators could harm our business.

We heavily depend on automated systems to operate our business. This includes our airline reservation system, check-in kiosks, website, telecommunication systems, maintenance systems, airline operations control systems, flight deck/route optimization systems, planning and scheduling, mobile applications and devices, and many other systems. These systems require significant investment of employee time and cost for maintenance and upgrades. Failure to appropriately execute these procedures may result in service disruptions or system failures. Additionally, as part of our commitment to innovation and providing an attractive guest travel experience, we invest in new technology to ensure our critical systems are reliable, scalable, and secure. We also continue to expand our reliance on third party providers for management or hosting of operational and financial systems. Should these providers fail to meet established service requirements or provide inadequate technical support, we could experience disruptions in our operation, ticketing or financial systems. Additionally, all of our automated systems cannot be completely protected against events beyond our control, including natural disasters, computer viruses, cyberattacks, other security breaches, or telecommunications failures.

Substantial or repeated failures or disruptions to any of these critical systems could reduce the attractiveness of our services or cause our guests to do business with another airline. Disruptions, failed implementations, untimely or incomplete recovery, or a breach of these systems or the data centers/cloud infrastructure they run on could result in the loss of important data, an increase in our expenses, loss of revenue, impacts to our operational performance, or a possible temporary cessation of our operations.

We continue to monitor emerging technologies, including technologies which may have disruptive impacts which are out of our control, such as the rollout of 5G wireless service. We will continue to work with regulatory agencies and other air carriers to mitigate potential impacts of these technologies on the safety and security of air travel.

Failure to appropriately comply with evolving and expanding information security rules and regulations or to safeguard our employee or guest data could result in damage to our reputation and cause us to incur substantial legal and regulatory cost.

As part of our core business, we are required to collect, process, store and share personal and financial information from our guests and employees. Under current or future privacy legislation, we are subject to significant legal risk should we not appropriately protect that data. Our entrance into the oneworld alliance exposes us to incremental global regulation and therefore risk. In addition, we continue to expand our reliance on third-party software providers and data processors, including cloud providers. Unauthorized access of personal and financial data via fraud or other means of deception could result in data loss, theft, modification, or unauthorized disclosure. To the extent that either we or third parties with whom we share information experience a data breach, fail to appropriately safeguard personal data, or are found to be out of compliance with applicable laws, and regulations, we could be subject to additional litigation, regulatory risks and reputational harm. Further, as regulation of the collection and storage of personal and financial information continues to evolve and increase, we may incur significant costs to bring our systems and processes into compliance.

Cyber security threats have and will continue to impact our business. Failure to appropriately mitigate these risks could negatively impact our operations, onboard safety, reputation and financial condition.
Our sensitive information is securely transmitted over public and private networks. Our systems are subject to increasing and evolving cyber security risks. Unauthorized parties have attempted and continue to attempt to gain access to our systems and information, including through fraudulent misrepresentation and other means of deception. Methods used by unauthorized parties are continually evolving and may be difficult to identify. Because of these ever-evolving risks and regular attacks, we continue to review policies and educate our people on various methods utilized in attempts to gain unauthorized access to bolster awareness and encourage cautionary practices. However, the nature of these attacks means that proper policies, technical controls, and education may not be enough to prevent all unauthorized access. Emerging cybercrime threats include the loss of functionality of critical systems through ransomware, denial of service, or other attacks. A compromise of our systems, the security of our infrastructure or those of other business partners that result in our information being accessed or stolen by unauthorized persons could result in substantial costs for response and remediation, adversely affect our operations and our reputation, and expose us to litigation, regulatory enforcement, or other legal action. A cybersecurity attack impacting our onboard or other operational systems may result in an accident or incident onboard or significant operational disruptions, which could adversely affect our reputation, operation and financial position. Further, a significant portion of our office employees have transitioned to remote work, which increases our exposure to cyberattacks, and could compromise our financial or operational systems.

**FINANCIAL CONDITION AND FINANCIAL MARKETS**

Our business, financial condition and results of operations are substantially exposed to the volatility of jet fuel prices. Significant increases in jet fuel costs would harm our business.

Fuel costs constitute a significant portion of our total operating expenses. Future increases in the price of jet fuel may harm our business, financial condition and results of operations unless we are able to increase fares and fees or add ancillary services to attempt to recover increasing fuel costs.

*We have a significant amount of debt and fixed obligations, and have incurred substantial incremental debt in response to the COVID-19 pandemic. These obligations could lead to liquidity restraints and have a material adverse effect on our financial position.*

We carry, and will continue to carry for the foreseeable future, a substantial amount of debt and aircraft operating lease commitments. In response to the COVID-19 pandemic, we obtained new financing to fund operations through periods of unprecedented low demand, and for the unknown duration of any economic recovery period. Although we aim to keep our leverage low, due to our high fixed costs, including aircraft lease commitments and debt service, a decrease in revenues would result in a disproportionately greater decrease in earnings.

Our outstanding long-term debt and other fixed obligations could have important consequences. For example, they could limit our ability to obtain additional financing to fund our future capital expenditures, working capital or other purposes; require us to dedicate a material portion of our operating cash flow to fund lease payments and interest payments on indebtedness, thereby reducing funds available for other purposes; or limit our ability to withstand competitive pressures and reduce our flexibility in responding to changing business and economic conditions. Further, should we incur incremental obligations, issuers may require future debt agreements to contain more restrictive covenants or require additional collateral beyond historical market terms which may further restrict our ability to successfully access capital.

Although we have historically been able to generate sufficient cash flow from our operations to pay our debt and other fixed obligations when they become due, we cannot ensure we will be able to do so in the future. If we fail to do so, our business could be harmed.

*Our maintenance costs will increase as our fleet ages, and we will periodically incur substantial maintenance costs due to the timing of maintenance events of our aircraft.*

As of December 31, 2021, the average age of our Next Gen passenger aircraft (B737-700, -800, -900, -900ERs) was approximately 10.9 years, the average age of our B737-9 was approximately 0.4 years, the average age of our operating A320 and A321neo aircraft was approximately 9.3 years, the average age of our owned E175 aircraft was approximately 3.6 years, and the average age of our Q400 aircraft was approximately 13.7 years. Typically, our newer aircraft require less maintenance than they will in the future. Any significant increase in maintenance expenses could have a material adverse effect on our results of operations. In addition, expenses for aircraft coming off lease could result in incremental maintenance expense as we are required to return leased planes in a contractually specified condition.
The application of the acquisition method of accounting resulted in us recording goodwill, which could result in significant future impairment charges and negatively affect our financial results.

In accordance with acquisition accounting rules, we recorded goodwill on our consolidated balance sheet to the extent the Virgin America acquisition purchase price exceeded the net fair value of Virgin America’s tangible and identifiable intangible assets and liabilities as of the acquisition date. Goodwill is not amortized, but is tested for impairment at least annually. We could record impairment charges in our results of operations as a result of, among other items, extreme fuel price volatility, a significant decline in the fair value of certain tangible or intangible assets, unfavorable trends in forecasted results of operations and cash flows, uncertain economic environment and other uncertainties. We can provide no assurance that a significant impairment charge will not occur in one or more future periods. Any such charges may materially affect our financial results.

**BRAND AND REPUTATION**

*As we evolve our brand we will engage in strategic initiatives that may not be favorably received by all of our guests.*

We continue to focus on strategic initiatives designed to increase our brand appeal to a diverse and evolving demographic of airline travelers. These efforts could include significant enhancements to our in-airport and on-board environments, increasing our direct customer relationships through improvements to our purchasing portals (digital and mobile) and optimization of our customer loyalty programs. In pursuit of these efforts we may negatively affect our reputation with some of our existing customer base.

The Company’s brand and reputation could be harmed if it is exposed to significant negative publicity distributed through social media.

We operate in a highly visible industry that has significant exposure to social media. Negative publicity, including as a result of misconduct by our guests or employees, or failure to adhere to COVID-19 related health and safety protocols, can spread rapidly through social media. Should the Company not respond in a timely and appropriate manner to address negative publicity, the Company’s brand and reputation may be significantly harmed. Such harm could have a negative impact on our financial results.

**LABOR RELATIONS AND LABOR STRATEGY**

A significant increase in labor costs, unsuccessful attempts to strengthen our relationships with union employees or loss of key personnel could adversely affect our business and results of operations.

Labor costs remain a significant component of our total expenses. In addition to costs associated with represented employee groups, labor costs could also increase for non-unionized employees and via vendor agreements as we work to compete for highly skilled and qualified employees against the major U.S. airlines and other businesses in a thriving job market.

Ongoing and periodic negotiations with labor unions could result in job actions, such as slow-downs, sick-outs, or other actions designed to disrupt normal operations and pressure the employer to acquiesce to bargaining demands during negotiations, although unlawful until after lengthy mediation attempts, the operation could be significantly impacted. Although we have a long track record of fostering good communications, negotiating approaches and developing other strategies to enhance workforce engagement in our long-term vision, unsuccessful attempts to strengthen relationships with union employees or loss of key personnel could divert management’s attention from other projects and issues, which could adversely affect our business and results of operations.

The inability to attract, retain and train qualified personnel, or maintain our culture, could result in guest impacts and adversely affect our business and results of operations.

We compete against other major U.S. airlines for pilots, aircraft technicians and other labor. As more pilots in the industry approach mandatory retirement age, the U.S. airline industry may be affected by a pilot shortage. Attrition beyond normal levels, or the inability to attract new pilots, could negatively impact our operating results. Additionally, the industry, including related vendor partners, has experienced and may continue to experience challenges in hiring and retaining other labor positions, such as aircraft technicians, ground handling and customer service agents and flight attendants. The Company's or our vendor partners' inability to attract and retain personnel for these positions could negatively impact our operating results, which may harm our growth plans. Additionally, we may be required to increase our wage and benefit packages, or pay increased rates to our vendors, to retain these positions. This would result in increased overall costs and may adversely impact our guest experience and financial position.
Our success is also dependent on cultivating and maintaining a unified culture with cohesive values and goals. Much of our continued success is tied to our guest loyalty. Failure to maintain and grow the Alaska culture could strain our ability to maintain relationships with guests, suppliers, employees and other constituencies. As part of this process, we may continue to incur substantial costs for employee programs.

**REGULATION**

*Our amended and restated certificate of incorporation provides that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for most legal actions involving actions brought against us by stockholders, which could limit our stockholders’ ability to obtain a favorable judicial forum for disputes with us or our directors, officers or other employees.*

Our certificate of incorporation provides that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware is the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of our company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees or our stockholders, (iii) any action asserting a claim arising pursuant to any provision of Section 203 of the General Corporation Law of the State of Delaware, or the DGCL, or as to which the DGCL confers jurisdiction to the Court of Chancery of the State of Delaware, or (iv) any action asserting a claim governed by the internal affairs doctrine. This exclusive forum provision is intended to apply to claims arising under Delaware state law and would not apply to claims brought pursuant to the Exchange Act or the Securities Act, or any other claim for which the federal courts have exclusive jurisdiction. The exclusive forum provision in our certificate of incorporation will not relieve us of our duties to comply with the federal securities laws and the rules and regulations thereunder, and our stockholders will not be deemed to have waived our compliance with these laws, rules and regulations.

This exclusive forum provision may limit a stockholder’s ability to bring a claim in a judicial forum of its choosing for disputes with us or our directors, officers or other employees, which may discourage lawsuits against us and our directors, officers and other employees. In addition, stockholders who do not reside in or near Delaware. The Court of Chancery of the State of Delaware may also reach different judgments or results than would other courts, including courts where a stockholder would otherwise choose to bring the action, and such judgments or results may be more favorable to our company than to our stockholders.

(a) The table above does not include 8 leased A319, 13 leased A320 and 2 owned Q400 non-operating aircraft.

“Management’s Discussion and Analysis of Financial Condition and Results of Operations” discusses future orders and options for additional aircraft. “Liquidity and Capital Resources” provides more information about aircraft that are used to secure long-term debt arrangements or collateralize credit facilities. Note 7 to the Consolidated Financial Statements provides more information regarding leased aircraft as capitalized on our consolidated balance sheets.

Alaska’s leased B737 Next Gen aircraft have lease expiration dates between 2023 and 2028. Alaska’s leased B737-9 aircraft have lease expiration dates between 2031 and 2033. Alaska’s leased A319 and A320 aircraft have lease expiration dates between 2022 and 2025, including those aircraft that have been permanently removed from our operating fleet, but have not been returned to lessors. A321neo aircraft have lease expiration dates between 2029 and 2031. Horizon’s leased Q400 aircraft have lease expiration dates between 2022 and 2023. The leased E175 aircraft support Alaska’s capacity purchase agreement with SkyWest, and are under agreement through 2030. Alaska has the option to extend some of the leases for additional periods.

## GROUND FACILITIES AND SERVICES

In various cities in the state of Alaska, we own terminal buildings and hangars. We also own several buildings located at or near Seattle-Tacoma International Airport (Sea-Tac). These include a multi-bay hangar and shops complex (used primarily for line maintenance), a flight operations and training center, an air cargo facility, an information technology office and data center, and various other commercial office buildings.

At the majority of the airports we serve, we lease ticket counters, gates, cargo and baggage space, ground equipment, office space and other support areas. Airport leases contain provisions for periodic adjustments of lease rates. We are typically responsible for maintenance, insurance and other facility-related expenses and services under these agreements. We also lease operations, training, administrative, and data center facilities in Burlingame, CA; Portland, OR; Quincy, WA; and Spokane, WA, line maintenance stations in Boise, ID; San Jose, CA; Redmond, OR; Seattle, WA; and Spokane, WA, and call center facilities in Phoenix, AZ and Boise, ID, and a multi-bay hangar in Portland, OR.

## ITEM 3. LEGAL PROCEEDINGS

The Company is a party to various litigation matters incidental to our business. Other than as described in Note 10 to our consolidated financial statements included in Part II, Item 8 of this Annual Report on Form 10-K, Management believes the ultimate outcome of these matters is not likely to materially affect our financial position or results of operations.

## ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.
PART II
ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

As of December 31, 2021, there were 135,255,808 shares of common stock of Alaska Air Group, Inc. issued, 125,905,864 shares outstanding, and 2,443 shareholders of record. In March 2020, the Company suspended the payment of dividends indefinitely. Our common stock is listed on the New York Stock Exchange (symbol: ALK).

SALES OF NON-REGISTERED SECURITIES

None.

PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

Historically, the Company purchased shares pursuant to a $1 billion repurchase plan authorized by the Board of Directors in August 2015. In March 2020, the Company suspended the share repurchase program indefinitely. The plan has remaining authorization to purchase an additional $456 million in shares.

PERFORMANCE GRAPH

The following graph compares our cumulative total stockholder return since December 31, 2016 with the S&P 500 Index and the Dow Jones U.S. Airlines Index. The graph assumes that the value of the investment in our common stock and each index (including reinvestment of dividends) was $100 on December 31, 2016.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand our company, our operations and our present business environment. MD&A is provided as a supplement to – and should be read in conjunction with – our consolidated financial statements and the accompanying notes. All statements in the following discussion that are not statements of historical information or descriptions of current accounting policy are forward-looking statements. Please consider our forward-looking statements in light of the risks referred to in this report’s introductory cautionary note and the risks mentioned in Part I, “Item 1A. Risk Factors.” This overview summarizes the MD&A, which includes the following sections:

• **Year in Review**—highlights from 2021 outlining some of the major events that happened during the year and how they affected our financial performance.

• **Results of Operations**—an in-depth analysis of our revenues by segment and our expenses from a consolidated perspective for the most recent two years presented in our consolidated financial statements. To the extent material to the understanding of segment profitability, we more fully describe the segment expenses per financial statement line item. Financial and statistical data is also included here. This section also includes forward-looking statements regarding our view of 2022.

• **Liquidity and Capital Resources**—an overview of our financial position, analysis of cash flows, sources and uses of cash, contractual obligations and commitments, and off-balance sheet arrangements.

• **Critical Accounting Estimates**—a discussion of our accounting estimates that involve significant judgment and uncertainties.

This section of the Form 10-K covers discussion of 2021 and 2020 results, and comparisons between those years. For a discussion of the year ended December 31, 2020 compared to the year ended December 31, 2019, please refer to Part II, Item 7, “Management's Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2020.

YEAR IN REVIEW

Business Recovery

Our 2021 financial performance demonstrates the strength of our business model and our ability to adapt while facing uneven recovery from the COVID-19 pandemic. With the widespread availability of vaccines and the relaxation of local restrictions in many of the markets we serve, customer demand for air travel increased dramatically in late spring 2021. For the full year, we recorded revenues of $6.2 billion, 70% of 2019 levels, on 79% of our 2019 capacity. Despite volatility caused by the rise of new variants, our measured return of capacity, coupled with solid cost control and operational performance enabled us to return to adjusted pre-tax profitability in the third and fourth quarters of 2021. Although we recorded an adjusted net loss for the full year of $256 million, profitability in the second half of the year indicates our approach to recovery has largely been successful.

With our business stabilizing, we generated $138 million in operating cash flow, excluding $892 million in grants received from the CARES Payroll Support Program. With our mid-year return to profitability and early return to positive cash flow generation, we were well positioned to begin utilizing excess on-hand liquidity to pay down debt and repair our balance sheet. In 2021 we repaid $1.3 billion in debt, offset by $363 million in issuances, which lowered our debt-to-capitalization ratio to 49%, marking a 12 point improvement from December 31, 2020. Additionally, we made a $100 million voluntary pension contribution payment to the defined benefit plan for Alaska’s pilots, bringing our pension status to 98% funded at year end. Balance sheet strength combined with our operational model has been critical to our past success, and we believe we are well positioned exiting 2021 to again capitalize on these as we prepare for growth.
Outlook

Our improving financial results and well-managed balance sheet provide a strong foundation for the next phase of recovery. We remain committed to returning capacity in a measured way, and will align our ongoing network restoration with the continued return of demand. We expect to be back to 2019 flying levels by summer 2022, and to grow our airlines from there in the back half of the year.

Recent demand setbacks and operational disruptions stemming from the omicron variant are reflected in our first quarter expectations. While January was acutely impacted, bookings for Presidents Day and beyond remain strong. In response to these conditions, we scaled back our first quarter capacity plans. As a result, in Q1 2022 we expect to fly approximately 10% to 13% below the same period in 2019, and expect total revenue to be 14% to 17% below the same period in 2019. Our unit costs for the period are expected to be up 15% to 18% versus 2019, with 7 points of pressure attributable to lower than expected levels of flying given the recent schedule adjustments.

For full year 2022, we expect capacity to increase 2% to 6% versus 2019, dependent on demand. This guidance reflects first half capacity that is flat to slightly up, and second half capacity that could be as much as 10% higher versus 2019.

Throughout the pandemic we have stated our commitment to returning to 2019 unit costs levels even if we were to remain a smaller airline for some time. While we no longer expect to be a smaller airline, as signaled by our growth plans in the back half of the year, we are still fundamentally committed to returning to our pre-COVID cost performance. For the full year, we expect CASMex to be up 3% to 6% versus 2019 levels, which includes the impact of lease return costs associated with our Airbus aircraft. Excluding those costs, we expect CASMex to be up 1% to 3% versus 2019. This guidance implies we will return to our pre-COVID cost levels in the second half of 2022.

The guidance we have provided and our outlook more broadly are sensitive to health trends, exposure to variants of the COVID-19 virus, and regulations and restrictions imposed by state, local and federal authorities. Our plans will be responsive to emerging information and the guidance we have provided is subject to greater uncertainty than we have historically experienced. Our people continue to focus on keeping costs low, running a great operation, and welcoming guests back to travel with Next-Level Care to ensure they are safe and comfortable when they fly. These are competitive advantages we have cultivated over many years that will continue to serve us well in 2022 and beyond. We are confident that we are prepared to meet the challenges ahead and that we will emerge from the pandemic a stronger and more resilient airline.

RESULTS OF OPERATIONS

ADJUSTED (NON-GAAP) RESULTS AND PER-SHARE AMOUNTS

We believe disclosure of earnings excluding the impact of the Payroll Support Program wage offset, special items, mark-to-market gains or losses or other individual special revenues or expenses is useful information to investors because:

- By excluding fuel expense and certain special items (including the Payroll Support Program wage offset, impairment and restructuring charges and merger-related costs) from our unit metrics, we believe that we have better visibility into the results of operations as we focus on cost-reduction initiatives emerging from the COVID-19 pandemic. Our industry is highly competitive and is characterized by high fixed costs, so even a small reduction in non-fuel operating costs can lead to a significant improvement in operating results. In addition, we believe that all domestic carriers are similarly impacted by changes in jet fuel costs over the long run, so it is important for management (and thus investors) to understand the impact of (and trends in) company-specific cost drivers, such as productivity, airport costs, maintenance costs, etc., which are more controllable by management.

- Cost per ASM (CASM) excluding fuel and certain special items, such as the Payroll Support Program wage offset, impairment and restructuring charges and merger-related costs, is one of the most important measures used by management and by our Board of Directors in assessing quarterly and annual cost performance.

- CASM excluding fuel and certain special items is a measure commonly used by industry analysts and we believe it is an important metric by which they have historically compared our airline to others in the industry. The measure is also the subject of frequent questions from investors.
• Adjusted income before income tax and other items as specified in our plan documents is an important metric for the employee annual cash incentive plan, which covers the majority of employees within the Alaska Air Group organization.

• Disclosure of the individual impact of certain noted items provides investors the ability to measure and monitor performance both with and without these special items. We believe that disclosing the impact of these items as noted above is important because it provides information on significant items that are not necessarily indicative of future performance. Industry analysts and investors consistently measure our performance without these items for better comparability between periods and among other airlines.

• Although we disclose our unit revenues, we do not (nor are we able to) evaluate unit revenues excluding the impact that changes in fuel costs have had on ticket prices. Fuel expense represents a large percentage of our total operating expenses. Fluctuations in fuel prices often drive changes in unit revenues in the mid-to-long term. Although we believe it is useful to evaluate non-fuel unit costs for the reasons noted above, we would caution readers of these financial statements not to place undue reliance on unit costs excluding fuel as a measure or predictor of future profitability because of the significant impact of fuel costs on our business.

Although we are presenting these non-GAAP amounts for the reasons above, investors and other readers should not necessarily conclude that these amounts are non-recurring, infrequent, or unusual in nature.

2021 COMPARED WITH 2020

Our consolidated net income for 2021 was $478 million, or $3.77 per diluted share, compared to a net loss of $1.3 billion, or $10.72 per share, in 2020.

Excluding the impact of the Payroll Support Program wage offset, special items and mark-to-market fuel hedge adjustments, our adjusted consolidated net loss for 2021 was $256 million, or $2.03 per share, compared to an adjusted consolidated net loss of $1.3 billion, or $10.17 per share, in 2020. The following table reconciles our adjusted net loss per share (EPS) during the full year 2021 and 2020 to amounts as reported in accordance with GAAP.

| (in millions, except per-share amounts) | Twelve Months Ended December 31, |
| --- | --- | --- | --- |
| | 2021 | 2020 | |
| Reported GAAP net income (loss) and diluted EPS | $478 | $3.77 | $1,324 | $10.72 |
| Payroll Support Program wage offset | (914) | (7.21) | (782) | (6.33) |
| Mark-to-market fuel hedge adjustments | (47) | (0.37) | (8) | (0.06) |
| Special items - impairment charges and other | (1) | (0.01) | 627 | 5.08 |
| Special items - restructuring charges | (10) | (0.08) | 220 | 1.78 |
| Special items - merger-related costs | — | — | 6 | 0.05 |
| Special items - net non-operating | — | — | 26 | 0.21 |
| Income tax effect on special items and fuel hedge adjustments | 238 | 1.87 | (21) | (0.18) |
| Non-GAAP adjusted net loss and EPS | $ (256) | $ (2.03) | $ (1,256) | $ (10.17) |
CASMex is reconciled to CASM below:

OPERATING REVENUES

Total operating revenues increased $2.6 billion, or 73%, during 2021 compared to the same period in 2020. The changes are summarized in the following table:

<table>
<thead>
<tr>
<th>(in millions)</th>
<th>Twelve Months Ended December 31,</th>
<th>% Change</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2021</td>
<td>2020</td>
</tr>
<tr>
<td>Passenger revenue</td>
<td>$5,499</td>
<td>$3,019</td>
</tr>
<tr>
<td>Mileage Plan other revenue</td>
<td>461</td>
<td>374</td>
</tr>
<tr>
<td>Cargo and other</td>
<td>216</td>
<td>173</td>
</tr>
<tr>
<td><strong>Total operating revenues</strong></td>
<td><strong>$6,176</strong></td>
<td><strong>$3,566</strong></td>
</tr>
</tbody>
</table>

**Passenger Revenue**

On a consolidated basis, Passenger revenue for 2021 increased by $2.5 billion, or 82%, on a 41% increase in capacity, and an 18 point increase in load factor. Recovery from the pandemic is the driver of these changes as demand for travel increased in 2021, primarily led by leisure travelers. There were setbacks to the improvement late in the fourth quarter as absenteeism driven by the omicron variant and severe winter weather on the West Coast led to canceled flights and lost passenger revenue.

We anticipate Passenger revenue for 2022 will increase as compared to 2021 consistent with our overall growth plan. Although we face headwinds in the first quarter due to continuing impacts of the omicron variant, we anticipate full year capacity will grow 2% to 6% versus 2019.

**Mileage Plan Other Revenue**

On a consolidated basis, Mileage Plan other revenue increased $87 million, or 23%, as compared to 2020, largely due to an increase in commission revenue from our affinity card partner stemming from growing consumer spend and an increase in cardholders.

**Cargo and Other**

On a consolidated basis, Cargo and other revenue increased $43 million, or 25%, from 2020. The increase is primarily due to the return of all three freighters back to full capacity in the second quarter of 2021, coupled with increased belly cargo activity on increased scheduled departures.

We expect that our cargo revenues will increase in 2022 as compared to 2021 on a full year of freighter capacity and incremental belly cargo availability as we increase our capacity.

OPERATING EXPENSES

Total operating expenses increased $150 million, or 3%, compared to 2020. We consider it useful to summarize operating expenses as follows, which is consistent with the way expenses are reported internally and evaluated by management:

<table>
<thead>
<tr>
<th>(in millions)</th>
<th>Twelve Months Ended December 31,</th>
<th>% Change</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2021</td>
<td>2020</td>

<td>5,137</td>
<td>4,547</td>
</tr>
<tr>
<td>Payroll Support Program wage offset</td>
<td>(914)</td>
<td>(782)</td>
</tr>
<tr>
<td>Special items - impairment charges and other</td>
<td>(1)</td>
<td>627</td>
</tr>
<tr>
<td>Special items - restructuring charges</td>
<td>(10)</td>
<td>220</td>
</tr>
<tr>
<td>Special items - merger-related costs</td>
<td>—</td>
<td>6</td>
</tr>
<tr>
<td><strong>Total operating expenses</strong></td>
<td><strong>$5,491</strong></td>
<td><strong>$5,341</strong></td>
</tr>
</tbody>
</table>

Significant operating expense variances from 2020 are more fully described below.
Fuel Expense

Aircraft fuel expense includes raw fuel expense (as defined below) plus the effect of mark-to-market adjustments to our fuel hedge portfolio as the value of that portfolio increases and decreases. Our aircraft fuel expense can be volatile because it includes these gains or losses in the value of the underlying instrument as crude oil prices and refining margins increase or decrease. Raw fuel expense is defined as the price that we generally pay at the airport, or the “into-plane” price, including taxes and fees. Raw fuel prices are impacted by world oil prices and refining costs, which can vary by region in the U.S. Raw fuel expense approximates cash paid to suppliers and does not reflect the effect of our fuel hedges.

Aircraft fuel expense increased $556 million, or 77%, compared to 2020. The elements of the change are illustrated in the following table:

<table>
<thead>
<tr>
<th>(in millions, except for per gallon amounts)</th>
<th>Twelve Months Ended December 31,</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2021</td>
<td>2020</td>
</tr>
<tr>
<td>Raw or “into-plane” fuel cost</td>
<td>$1,383</td>
<td>$713</td>
</tr>
<tr>
<td>(Gain)/loss on settled hedges</td>
<td>(57)</td>
<td>18</td>
</tr>
<tr>
<td>Consolidated economic fuel expense</td>
<td>$1,326</td>
<td>$731</td>
</tr>
<tr>
<td>Mark-to-market fuel hedge adjustments</td>
<td>(47)</td>
<td>(8)</td>
</tr>
<tr>
<td>GAAP fuel expense</td>
<td>$1,279</td>
<td>$723</td>
</tr>
<tr>
<td>Fuel gallons</td>
<td>656</td>
<td>461</td>
</tr>
</tbody>
</table>

The raw fuel price per gallon increased 37% due to higher West Coast jet fuel prices. West Coast jet fuel prices are impacted by both the price of crude oil, as well as refining margins associated with the conversion of crude oil to jet fuel. Increased fuel costs were also driven by a 42% increase in gallons consumed compared to 2020, consistent with a 41% increase in capacity.

Gains recognized for hedges that settled during the year were $57 million in 2021, compared to losses of $18 million in 2020. These amounts represent cash received from settled hedges, offset by cash paid for the premium cost on related call options.

We expect our economic fuel cost per gallon in the first quarter of 2022 to range between $2.45 and $2.50 per gallon based on current market West Coast jet fuel prices.

Non-fuel Expenses

The table below provides the reconciliation of the operating expense line items, excluding fuel, the Payroll Support Program wage offset and special items. Significant operating expense variances from 2020 are more fully described below.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
Wages and Benefits

Wages and benefits increased during 2021 by $165 million, or 8%, compared to 2020, excluding the impact of the Payroll Support Program wage offset. The primary components of Wages and benefits are shown in the following table:

<table>
<thead>
<tr>
<th>(in millions)</th>
<th>Twelve Months Ended December 31,</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2021</td>
</tr>
<tr>
<td>Wages</td>
<td>$1,643</td>
</tr>
<tr>

<td>275</td>
</tr>
<tr>
<td>Payroll taxes</td>
<td>122</td>
</tr>
<tr>
<td><strong>Total wages and benefits</strong></td>
<td><strong>$2,218</strong></td>
</tr>
</tbody>
</table>

Wages and payroll taxes increased by a combined $172 million, or 10%, on a 10% increase in FTEs. Increased FTEs as compared to the prior period are primarily the result of pilots and employees returning from leaves of absence and incentive lines accepted in 2020. Higher wage rates from incentives paid to certain employees in the summer and holiday periods in response to increasing demand were largely offset by a lower average wage rate from the growth in newly hired employees who have a lower wage base than more senior employees.

We expect wages and benefits expense to be higher in 2022 compared to 2021 given our expected growth in overall FTEs needed to support our expected capacity growth. Our guidance does not include the impacts of any future agreements we may reach in 2022, most notably with our mainline pilots whose contract became amendable in April 2020.

Variable Incentive Pay

Variable incentive pay expense increased to $151 million in 2021 from $130 million in 2020. The increase is primarily due to higher payouts achieved under the Performance Based Pay Plan by meeting or exceeding certain cash flow, safety, emissions and productivity targets.

Aircraft Maintenance

Aircraft maintenance costs increased by $43 million compared to 2020. The increase is primarily due to increased component repairs which were deferred in 2020, as well as increased power-by-the-hour expense driven by increased utilization of covered aircraft.

We expect aircraft maintenance expense to be higher in 2022 due to increased aircraft utilization and expected lease return costs that are expected to be incurred over the next 24 to 36 months as we prepare to return Airbus aircraft to lessors.

Aircraft Rent

Aircraft rent expense decreased $45 million, or 15%, compared to 2020, primarily as a result of full impairment taken on certain leased Airbus aircraft in 2020.

We expect aircraft rent to increase in 2022 on the annualization of expense and incremental deliveries of leased 737-9 aircraft as well as incremental SkyWest lease deliveries.

Landing Fees and Other Rentals

Landing fees and other rental expenses increased $138 million, or 33%, compared to 2020, primarily due to a significant increase in departures, combined with increased rates at certain of our hub airports.

We expect landing fees and other rental expense to increase in 2022 as we continue to increase capacity and departures across our network, combined with higher rates at many of our hub airports.
**Contracted Services**

Contracted services increased by $54 million, or 30%, compared to 2020, primarily driven by increased departures and passengers at stations where we outsource our ground operations.

We expect contracted services to increase in 2022 as we continue to increase capacity and departures throughout our network.

**Selling Expenses**

Selling expenses increased by $72 million, or 71%, compared to 2020 primarily driven by a significant increase in distribution costs and credit card commissions stemming from increased revenues. Increased marketing spend and sponsorship costs related to the return of professional sports and events also contributed to the year-over-year increase.

We expect selling expense to increase in 2022, due primarily to higher sales as demand for air travel returns and an increase in marketing costs as we expand our network.

**Food and Beverage Service**

Food and beverage service increased by $49 million, or 54%, compared to 2020, consistent with the overall increase in revenue passengers, as well as the return and expansion of many of our on-board products in 2021.

We expect food and beverage service to increase in 2022 as we continue to increase capacity and departures throughout our network and return to full service aboard our aircraft.

**Third-party Regional Carrier Expense**

Third-party regional carrier expense, which represents payments made to SkyWest under our CPA agreements, increased $19 million, or 15%, in 2021 compared to 2020. The increase in expense is primarily due to increases in departures flown by SkyWest as compared to the prior-year period, offset by the final pass through of CARES Act PSP funding for SkyWest pilot and flight attendant wages.

We expect third-party regional carrier expense to be higher in 2022 on the addition of 10 aircraft flown by SkyWest under a CPA.

**Other Expense**

Other expense increased $100 million, or 25%, compared to 2020 primarily driven by incremental crew hotel stays and per diem, consistent with the overall increase in departures and capacity, as well as additional expense for professional services.

We expect other expense to increase in 2022 as we increase departures and hire more employees, resulting in incremental crew costs.

**Special Items - Impairment charges**

We recorded an impairment benefit of $1 million in 2021. The benefit consisted of adjustments associated with leased aircraft that have been retired and removed from the operating fleet but not yet returned to the lessor. We continue to evaluate total estimated costs to return these permanently parked aircraft, and make updates to total expense when necessary.

**Special Items - Restructuring charges**

We recorded a restructuring benefit of $10 million in 2021 primarily as a result of issuing recall notices to pilots on incentive lines for periods earlier than were previously anticipated. As all employees expected to return to work have been recalled, we do not anticipate further restructuring charges in 2022.

**ADDITIONAL SEGMENT INFORMATION**

Refer to Note 13 of the consolidated financial statements for a detailed description of each segment. Below is a summary of each segment’s profitability.
Mainline

Mainline adjusted pretax loss was $179 million in 2021 compared to adjusted pretax loss of $1.4 billion in 2020. The $1.2 billion improvement in pretax loss was driven by a $2.2 billion increase in Mainline operating revenue, offset by a $471 million increase in Mainline non-fuel operating expense and a $496 million increase in Mainline fuel expense.

As compared to the prior year, higher Mainline revenues are primarily attributable to a 94% increase in traffic on a 46% increase in capacity, driven by the recovery seen in demand in 2021. Non-fuel operating expenses and fuel expenses rose given the increase in traffic and capacity, as well as higher raw fuel prices.

Regional

Regional adjusted pretax loss was $210 million in 2021 compared to an adjusted pretax loss of $421 million in 2020. The $211 million improvement in pretax loss was primarily attributable to a $413 million increase in Regional operating revenues, offset by a $103 million increase in Regional non-fuel operating expense and a $99 million increase in Regional fuel expense.

As compared to the prior year, higher Regional revenues are primarily attributable to a 59% increase in traffic on a 17% increase in capacity, driven by the recovery seen in demand in 2021. Non-fuel operating expenses and fuel expenses rose given the increase in traffic and capacity, as well as higher raw fuel prices.

Horizon

Horizon achieved an adjusted pretax profit of $12 million in 2021 compared to $41 million in 2020, primarily as a result of higher operating expenses in 2021. The increased expenses were primarily related to flight operations and maintenance costs as the business began to recover during the year.

LIQUIDITY AND CAPITAL RESOURCES

Improved results and increased demand in 2021 allowed us to begin the process of returning our balance sheet and available liquidity to pre-pandemic levels. During the year, we made the following meaningful progress:

- Generated positive operating cash flow in excess of $1 billion, bolstered by improved advance bookings as demand returns, and the receipt of $892 million in Payroll Support Program funding from the U.S. Treasury under extensions of CARES Act programs;
- Repaid $1.3 billion in debt, including the termination of the CARES Act secured loan, full repayment of two outstanding lines of credit, and prepayment of the $425 million 364-day term loan facility;
- Decreased debt-to-capitalization ratio to 49% at December 31, 2021 from 61% at December 31, 2020;
- Made a $100 million voluntary contribution to the defined benefit plan for Alaska's pilots, boosting estimated combined funded status of all defined benefit plans to 98%, and;
- Restored pool of unencumbered aircraft in the operating fleet to 42 as of December 31, 2021, which could be financed, if necessary.

As the business continues to recover to sustained profitability, reducing outstanding debt, normalizing our on-hand liquidity, and strengthening our balance sheet remain high priorities. We anticipate funding our planned 2022 capital expenditures of $1.5 billion to $1.6 billion with cash on-hand.

We believe that our current cash and marketable securities balance, combined with available sources of liquidity, will be sufficient to fund our operations, meet our debt payment obligations, and remain in compliance with the financial debt covenants in existing financing arrangements for the foreseeable future.

In our cash and marketable securities portfolio, we invest only in securities that meet our primary investment strategy of maintaining and securing investment principal. The portfolio is managed by reputable firms that adhere to our investment policy that sets forth investment objectives, approved and prohibited investments, and duration and credit quality guidelines. Our policy, and the portfolio managers, are continually reviewed to ensure that the investments are aligned with our strategy.
The table below presents the major indicators of our financial condition and liquidity:

2.7x  (1.7x)
The following discussion summarizes the primary drivers of the increase in our cash and marketable securities balance and our expectation of future cash requirements.

ANALYSIS OF OUR CASH FLOWS

Cash Provided by Operating Activities

Net cash provided by operating activities was $1 billion in 2021 compared to net cash used of $234 million in 2020. Cash provided by ticket sales is the primary source of our operating cash flow. In 2021, we also had material cash inflows of $892 million from the receipt of PSP grants. Our primary use of operating cash flow is for operating expenses, including payments for employee wages and benefits, payments to suppliers for goods and services and payments to lessors and airport authorities for rents and landing fees. Operating cash flow also includes payments to, or refunds from, federal, state and local taxing authorities. Changes in demand that resulted from the pandemic recovery and the changes we made to our operations in response had a dramatic impact on our operating cash flows in 2021.

In 2021, revenues increased $2.6 billion when compared to 2020, driven by improved demand described more fully below, and incremental cash from our affinity card partners on increased miles purchased. Operating expenses increased $150 million versus prior year, driven by significantly higher fuel costs and increased operating costs as we returned capacity to meet demand, offset by a reduction of $858 million in non-cash impairment and restructuring charges recorded in 2020.

In 2021, Air Traffic Liability (ATL) increased $90 million, driven by new ticket purchases primarily at the end of the year, offset by credits redeemed for travel. Although ATL was a source of working capital in 2021, as of December 31, 2021 the balance includes $234 million in travel credits issued to guests. These credits are expected to be redeemed by guests for travel in future periods and will represent a working capital headwind.

Cash Used in Investing Activities

Cash used in investing activities was $1 billion during 2021 compared to $593 million in 2020. Increased cash used in investing activities is primarily driven by the 2020 sale-leaseback transaction for ten owned A320 aircraft, with no comparative transaction in 2021. Cash used also increased due to a $70 million increase in capital expenditures, as well as net purchases of marketable securities of $706 million in 2021, compared to net purchases of $644 million in 2020. Increased net purchases are primarily driven by additional cash on hand from borrowings and the PSP, which allowed the Company to invest additional funds.

Cash Used in Financing Activities

Cash used in financing activities was $914 million during 2021, compared to net cash provided of $2 billion in 2020. During the year, we utilized cash on hand to make $1.3 billion in debt payments, compared to $565 million in the prior year. These payments were offset by proceeds from debt issuances of $363 million, compared to $2.6 billion issued in 2020 in response to the COVID-19 pandemic.

MATERIAL CASH COMMITMENTS

Material cash requirements include the following contractual and other obligations:

Aircraft Commitments

As of December 31, 2021, Alaska has firm orders to purchase 74 Boeing 737-9 aircraft with deliveries in 2022 through 2024 and firm commitments to lease eight Boeing 737-9 aircraft with deliveries between 2023 and 2034. Alaska also has an agreement with SkyWest Airlines to expand our long-term capacity purchase agreement by three aircraft in 2022 and two aircraft in 2023. Horizon also has commitments to purchase seven E175 aircraft with deliveries in 2023 through 2025. Alaska has options to acquire up to 52 additional 737-9 aircraft and Horizon has options to acquire 15 E175 aircraft. Options will be exercised only if we believe return on invested capital targets can be met over the long term.
The following table summarizes our anticipated fleet count by year, as of the date of this filing:

</table>

<sup>a</sup> Anticipated fleet activity reflects intended early retirement and extensions or replacement of certain leases, not all of which have been contracted yet.

<sup>b</sup> Actual fleet at December 31, 2021, excluding Airbus aircraft that were removed from operating service in 2020 in response to COVID-19 capacity reductions. Of these, nine have since been returned to service in 2021 and three are planned to return in 2022.

<sup>c</sup> Retirements in 2022 and 2023 are contractual lease expirations of Horizon Q400 aircraft in each respective year.

<sup>d</sup> Aircraft are either owned or leased by Horizon or operated under a capacity purchase agreement with a third party. Under the terms of our capacity purchase agreement with a third party, in 2023 an additional spare aircraft will be leased to support the operational integrity of the network.

For future firm orders and option exercises, we may finance the aircraft through cash flow from operations or long-term debt.

**Future Fuel Hedge Positions**

All of our future oil positions are call options, which are designed to effectively cap the cost of the crude oil component of our jet fuel purchases. With call options, we are hedged against volatile crude oil price increases and, during a period of decline in crude oil prices, we only forfeit cash previously paid for hedge premiums. Our crude oil positions are as follows:

<table>

(a) Future minimum lease payments for aircraft includes commitments for aircraft which have been removed from operating service, as we have remaining obligations under existing terms.
(b) Includes non-cancelable contractual commitments for aircraft and engines, buyer furnished equipment, and contractual aircraft maintenance obligations.
(c) For variable-rate debt, future obligations are shown above using LIBOR forward curve as of December 31, 2021.
(d) Primarily comprised of non-aircraft lease costs associated with capacity purchase agreements.

Debt Obligations and Interest Obligations

The Company primarily issues debt to fund purchases of aircraft or other capital expenditures. In response to the COVID-19 pandemic, in 2020, we issued $2.6 billion in debt to withstand the downturn and prepare for recovery. In 2021, we repaid $1.3 billion in debt, including prepayments of $923 million, which was partially offset by issuances of $363 million. At December 31, 2021, our debt portfolio carries a weighted average interest rate of 3.3%. Interest is paid with regular debt service. Debt service obligations in 2022 is expected to be $456 million, inclusive of interest and principal. Refer to Note 6 to the consolidated financial statement for further discussion of our debt and interest balances.

Leased Aircraft Return Costs

For many of our leased aircraft, we are required under the contractual terms to return the aircraft in a specified state. As a result of these contractual terms, we may incur significant costs at the termination of the lease. Costs of returning leased aircraft are accrued when the costs are probable and reasonably estimable, usually beginning at least 12 months prior to the lease return, unless the leased asset is removed from operation. If the leased aircraft is removed from the operating fleet, the estimated cost of return is accrued at the time of removal. Such estimates are based on the time remaining on the lease, planned aircraft usage and the provisions included in the lease agreement, although the actual amount due to any lessor upon return may not be known with certainty until lease termination. We anticipate recording material expenses and cash outflows to return aircraft beginning in 2022, as all Airbus A319 and A320 aircraft are expected to be removed from operating service by 2023.

Credit Card Agreements

We have agreements with a number of credit card companies to process the sale of tickets and other services. Under these agreements, there are material adverse change clauses that, if triggered, could result in the credit card companies holding back a reserve from our credit card receivables. Under one such agreement, we could be required to maintain a reserve if our credit rating is downgraded to or below a rating specified by the agreement or our cash and marketable securities balance fell below $500 million. Under another such agreement, we could be required to maintain a reserve if our cash and marketable securities balance fell below $500 million. We are not currently required to maintain any reserve under these agreements, but if we were, our financial position and liquidity could be materially harmed.

Deferred Income Taxes

For federal income tax purposes, the majority of our assets are fully depreciated over a seven-year life using an accelerated depreciation method or bonus depreciation, if available. For financial reporting purposes, the majority of our assets are depreciated over 15 to 25 years to an estimated salvage value using the straight-line basis. This difference has created a significant deferred tax liability. At some point in the future the depreciation basis will reverse, potentially resulting in an increase in income taxes paid.
While it is possible that we could have material cash obligations for this deferred liability at some point in the future, we cannot estimate the timing of long-term cash flows with reasonable accuracy. Taxable income and cash taxes payable in the short term are impacted by many items, including the amount of book income generated (which can be volatile depending on revenue and fuel prices), usage of net operating losses, whether bonus depreciation provisions are available, any future tax reform efforts at the federal level, as well as other legislative changes that are beyond our control.

In 2021, we made tax payments, net of refunds, totaling $48 million. The Company had an effective tax rate of 24%. We believe that we have the liquidity available to make our future tax payments.
CRITICAL ACCOUNTING ESTIMATES

The discussion and analysis of our financial position and results of operations in this MD&A are based upon our consolidated financial statements. The preparation of these financial statements requires us to make estimates and judgments that affect our financial position and results of operations. See Note 1 to the consolidated financial statements for a description of our significant accounting policies.

Critical accounting estimates are defined as those that reflect significant management judgment and uncertainties and that potentially may lead to materially different results under varying assumptions and conditions. Management has identified the following critical accounting estimate and has discussed the development, selection and disclosure of these policies with our audit committee.

FREQUENT FLYER PROGRAMS

Alaska's Mileage Plan loyalty program awards mileage credits, referred to as miles, to members who fly on our airlines and our airline partners. We also sell services, including miles for transportation, Companion Fare™ certificates, bag fee waivers, and access to our brand and customer lists to major banks that offer Alaska co-brand credit cards. To a lesser extent, miles for transportation are also sold to other non-airline partners, such as hotels, and car rental agencies. Outstanding miles may be redeemed for travel on our airlines or eligible airline partners, and for non-airline products such as hotels. As long as Mileage Plan is in existence, we have an obligation to provide future travel.

Mileage credits and the various other services we sell under our loyalty program represent performance obligations that are part of a multiple deliverable revenue arrangement. Accounting guidance requires that we use a relative standalone selling price model to allocate consideration received to the material performance obligations in these contracts. Our relative standalone selling price models are refreshed when contracts originate or are materially modified. We also update our model annually based on observed volumes.

At December 31, 2021, we had approximately 301 billion miles outstanding, resulting in an aggregate deferred revenue balance of $2.4 billion. The deferred revenue resulting from our relative selling price allocations requires significant management judgment. There are uncertainties inherent in these estimates. Therefore, different assumptions could affect the amount and/or timing of revenue recognition or expenses. The most significant assumptions are described below.

1. The rate at which we defer sales proceeds related to services sold:

We estimate the standalone selling price for each performance obligation, including mileage credits, by considering multiple inputs and methods, including but not limited to, the estimated selling price of comparable travel, discounted cash flows, brand value, published selling prices, number of miles awarded, and the number of miles redeemed. We estimate the selling prices and volumes over the terms of the agreements in order to determine the allocation of proceeds to each of the multiple deliverables.

2. The number of miles that will not be redeemed for travel (breakage):

We estimate how many miles will be used per award. For example, our members may redeem mileage credits for award travel to various locations or choose between a highly restricted award and an unrestricted award. Our estimates are based on the current requirements in our Mileage Plan program and historical and future award redemption patterns.

We review significant Mileage Plan assumptions on an annual basis, or more frequently should circumstances indicate a need, and change our assumptions if facts and circumstances indicate that a change is necessary. Any such change in assumptions could have a significant effect on our financial position and results of operations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have interest rate risk on our variable rate debt obligations and our available-for-sale marketable investment portfolio, and commodity-price risk in jet fuel required to operate our aircraft fleet. We purchase the majority of our jet fuel at prevailing market prices and seek to manage market risk through execution of our hedging strategy and other means. We have market-sensitive instruments in the form of fixed rate debt instruments and financial derivative instruments used to hedge our exposure to jet fuel price increases and interest rate increases. We do not purchase or hold any derivative financial instruments for trading purposes.
Aircraft Fuel

Currently, our fuel hedging portfolio consists of crude oil call options. Call options effectively cap our pricing for the crude oil component of jet fuel, limiting our exposure to increasing fuel prices for about half of our planned fuel consumption. With call options, we are hedged against volatile crude oil price increases, and, during a period of decline in crude oil prices, we only forfeit cash paid for hedge premiums. We believe there is risk in not hedging against fuel price increases. We estimate that a hypothetical 10% increase or decrease in the forward curve for crude oil prices as of December 31, 2021 would change the fair value of our crude oil hedge portfolio to approximately $132 million or $44 million.

The portfolio value of our fuel hedge contracts was $81 million at December 31, 2021 compared to a portfolio value of $15 million at December 31, 2020. We did not have any collateral held by counterparties on these agreements as of December 31, 2021.

We continue to believe that our fuel hedge program is an important part of our strategy to reduce our exposure to volatile fuel prices. We expect to enter into these types of contracts prospectively, although significant changes in market conditions could affect our decisions. For more discussion, see Note 4 to our consolidated financial statements.

Interest Rates

We have exposure to market risk associated with changes in interest rates related primarily to our debt obligations and short-term investment portfolio. Our debt obligations include variable rate instruments, which have exposure to changes in interest rates. In order to mitigate the risk of interest rate fluctuations, we have a number of interest rate swaps that fix the interest rates on certain variable rate debt agreements. A hypothetical 10% change in the average interest rates incurred on average variable rate debt held during 2021 would have correspondingly changed our net earnings and cash flows associated with these items by less than $3 million. Our variable rate debt represents approximately 29% and 53% of our total long-term debt as of December 31, 2021 and December 31, 2020. Approximately $469 million of the Company’s total variable rate notes payable were effectively fixed via interest rate swaps at December 31, 2021.

Our exposure to interest rate variability is further mitigated through our variable rate investment portfolio. We also have investments in marketable securities, which are exposed to market risk associated with changes in interest rates. If short-term interest rates were to average one point more than they did in 2021, interest income would increase by approximately $23 million.

Our variable rate instruments, including long-term debt, interest rate swaps, and credit facilities, all make reference to the London Interbank Offered Rate (LIBOR) as the interest rate benchmark. It is expected that in June 2023, LIBOR will be discontinued as a reference rate. In the event of the discontinuance of LIBOR, we will need to transition our LIBOR-based contracts to a mutually agreed-upon alternate benchmark rate, which effectively places the Lenders and the Company in the same economic position that existed immediately prior to the discontinuation of LIBOR. At this time, we do not anticipate that the discontinuance of LIBOR will materially impact our liquidity or financial position.

Inflationary Risk

Inflation in the United States in late 2021 was among the highest it has been in the past 30 years. Although a large portion of our operating costs are contractual with escalation clauses, a portion of our costs are subject to inflationary pressures. Examples include fuel costs, goods and services for which we do not have existing contracts, wages for employees, airport costs based on cost recovery models, and certain vendor costs that include wage increase clauses, among others. Elevated inflation rates for a prolonged period of time, without the ability to increase our fares at a similar rate, may have a significant impact to our financial results.

ITEM 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
Alaska Air Group, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Alaska Air Group, Inc. and subsidiaries (the Company) as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive operations, shareholders’ equity, and cash flows for each of the years in the three-year period ended December 31, 2021, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 11, 2022 expressed an unqualified opinion on the effectiveness of the Company’s internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Assessment of Mileage Plan model

As discussed in Note 3 to the consolidated financial statements, the Company has a Mileage Plan loyalty program which provides frequent flyer travel awards to program members based upon accumulated loyalty mileage credits. The Company utilizes a complex model to account for the Mileage Plan program, which involves numerous inputs and assumptions. Deferred revenues related to the Mileage Plan program were $2.4 billion as of December 31, 2021. Associated Mileage Plan revenues recognized from deferred revenue and recorded in passenger revenue were $639 million for the year ended December 31, 2021.

We identified the assessment of the Mileage Plan model as a critical audit matter. This was due to the high degree of auditor judgment required to assess that sufficient audit evidence was obtained over the model as well as the key inputs.
and assumptions used to develop the estimates of Mileage Plan revenue and deferred revenue due to the complex design of the model. Key inputs include miles credited and miles redeemed and key assumptions include estimated breakage and the standalone selling price of a mile.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Company’s Mileage Plan model. This included controls related to the integrity of the model as well as the key inputs and key assumptions utilized in the model. We checked the accuracy of key calculations utilized in the Mileage Plan model. We tested the completeness and accuracy of information technology system data used to determine the miles credited and miles redeemed inputs. We inspected the Company’s methodology to develop key assumptions was consistent with historical methods. We assessed the breakage rate assumption by comparing it to historical breakage and breakage rates used by others in the airline industry. We considered changes in the Mileage Plan program terms and customer behavior for potential changes in the breakage rate. We evaluated the fluctuation in the standalone selling price of a mile assumption by comparing it to changes in passenger ticket fares. We compared the standalone selling price of a mile assumption to other data points including miles sold on the Company’s website and the contractual rates that miles are sold to other airlines and bank partners. We evaluated fluctuations in Mileage Plan balances in relation to program changes, economic conditions, and observed industry trends and events.

In addition, we evaluated the sufficiency of audit evidence obtained over the Mileage Plan model by assessing the results of procedures performed.

We have served as the Company’s auditor since 2004.

- **Total cash, cash equivalents, and restricted cash at end of the period** | $494 | $1,386 | $232 |

See accompanying notes to consolidated financial statements.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

The consolidated financial statements include the accounts of Alaska Air Group (Air Group, or the Company), and its primary subsidiaries, Alaska Airlines, Inc. (Alaska) and Horizon Air Industries, Inc. (Horizon). Our consolidated financial statements also include McGee Air Services, a ground services subsidiary of Alaska. The Company conducts substantially all of its operations through these subsidiaries. All significant intercompany balances and transactions have been eliminated. These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and their preparation requires the use of management’s estimates. Actual results may differ from these estimates.

Certain reclassifications have been made to prior year financial statements to conform to classifications used in the current year.

Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with original maturities of three months or less, such as money market funds, commercial paper and certificates of deposit. They are carried at cost, which approximates market value. The Company reduces cash balances when funds are disbursed. Due to the time delay in funds clearing the banks, the Company normally maintains a negative balance in its cash disbursement accounts, which is reported as a current liability. The amount of the negative cash balance was $7 million and $5 million at December 31, 2021 and 2020, and is included in accounts payable, with the change in the balance during the year included in other financing activities in the consolidated statements of cash flows.

The Company's restricted cash balances are not material and are classified as Other noncurrent assets. Restricted cash balances are primarily used to guarantee various letters of credit, self-insurance programs or other contractual rights. They consist of highly liquid securities with original maturities of three months or less. They are carried at cost, which approximates fair value.

 Marketable Securities

Investments with original maturities of greater than three months and remaining maturities of less than one year are classified as short-term investments. Investments with maturities beyond one year may be classified as short-term based on their highly liquid nature and because such marketable securities represent the investment of cash that is available for current operations. All cash equivalents and short-term investments are classified as available-for-sale and realized gains and losses are recorded using the specific identification method. Changes in market value are reflected in accumulated other comprehensive loss (AOCL).

The Company evaluates the investment portfolio on a quarterly basis for expected credit losses. The Company uses a systematic methodology that groups assets by relevant market sector, and considers available quantitative and qualitative evidence in evaluating potential allowances for credit losses. If the cost of an investment exceeds its fair value, management evaluates, among other factors, general market conditions, credit quality of debt instrument issuers, the duration and extent to which the fair value is less than cost, the Company's intent and ability to hold, or plans to sell, the investment. Once a decline in fair value is determined to be the result of an expected credit loss, an allowance is recorded to Other—net in the consolidated statements of operations.

Receivables—net

Receivables primarily consist of amounts due from taxing authorities, credit card processors, and the Company's affinity card partner stemming from income tax returns, sales of tickets to customers and bank purchased miles. Given the nature of these receivables, reserves are immaterial to the overall balance.

Inventories and Supplies—net

Expendable aircraft parts, materials and supplies are stated at average cost and are included in Inventories and supplies—net. An obsolescence allowance for expendable parts is accrued based on estimated lives of the corresponding fleet type and salvage values. The allowance for expendable inventories was $49 million and $46 million at December 31, 2021 and 2020. Removals from the reserve in 2021 were immaterial. Inventory and supplies—net also includes fuel inventory of $21 million and $15 million at December 31, 2021 and 2020. Repairable and rotatable aircraft parts inventories are included in flight equipment.
Property, Equipment and Depreciation

Property and equipment are recorded at cost and depreciated using the straight-line method over their estimated useful lives less an estimated salvage value, which are as follows:

<table>
<thead>
<tr>
<th>Aircraft and other flight equipment:</th>
<th>Estimated Useful Life</th>
<th>Estimated Salvage Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Boeing 737 and E175 aircraft</td>
<td>20 to 25 years</td>
<td>10%</td>
</tr>
<tr>
<td>Bombardier Q400 aircraft</td>
<td>15 years</td>
<td>5%</td>
</tr>
<tr>
<td>Buildings</td>
<td>25 to 40 years</td>
<td>10%</td>
</tr>
<tr>
<td>Minor building and land improvements</td>
<td>10 years</td>
<td>—%</td>
</tr>
<tr>
<td>Capitalized leases and leasehold improvements</td>
<td>Generally shorter of lease term or estimated useful life</td>
<td>—%</td>
</tr>
<tr>
<td>Computer hardware and software</td>
<td>3 to 10 years</td>
<td>—%</td>
</tr>
<tr>
<td>Other furniture and equipment</td>
<td>5 to 10 years</td>
<td>—%</td>
</tr>
</tbody>
</table>

Near the end of an asset's estimated useful life, management updates the salvage value estimates based on current market conditions and expected use of the asset. Repairable and rotatable aircraft parts are included in Aircraft and other flight equipment, and are depreciated over the associated fleet life.

Capitalized interest, based on the Company’s weighted-average borrowing rate, is added to the cost of the related asset, and is depreciated over the estimated useful life of the asset.

Maintenance and repairs, other than engine maintenance on B737-800 engines, are expensed when incurred. Major modifications that extend the life or improve the usefulness of aircraft are capitalized and depreciated over their estimated period of use. Maintenance on B737-800 engines is covered under a power-by-the-hour agreement with a third party, whereby the Company pays a determinable amount, and transfers risk, to a third party. Beginning in 2022, maintenance on owned E175 aircraft will also be covered under a power-by-the-hour agreement with a third party. For these agreements, the Company expenses the contract amounts based on engine usage.

The Company evaluates long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the total carrying amount of an asset or asset group may not be recoverable. The Company groups assets for purposes of such reviews at the lowest level at which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities, which is generally the fleet level. An impairment loss is considered when estimated future undiscounted cash flows expected to result from the use of the asset or asset group and its eventual disposition are less than its carrying amount. If the asset or asset group is not considered recoverable, a write-down equal to the excess of the carrying amount over the fair value will be recorded. For these purposes, the fair value is estimated using a combination of Level 2 inputs, including published market value estimates for the assets being assessed, and Level 3 inputs, including Company-specific and asset-specific indicators.

Goodwill

Goodwill represents the excess of purchase price over the fair value of the related net assets acquired in the Company's acquisition of Virgin America and is not amortized. The total balance of goodwill is associated with the Mainline reporting unit. The Company reviews goodwill for impairment annually in the fourth quarter, or more frequently if events or circumstances indicate than an impairment may exist. The assessment utilizes either a qualitative or quantitative approach. The qualitative approach considers factors such as Alaska Air Group market capitalization and other market trends, and unobservable inputs, including Company specific cash flow and performance information. If it is determined that it is more likely than not that the asset may be impaired, management utilizes a quantitative approach to assess the asset's fair value and the amount of impairment and a charge may be recorded. In 2021, the fair value of the Mainline reporting unit substantially exceeded its carrying value.
Intangible Assets

Intangible assets are comprised primarily of indefinite-lived airport slots and finite-lived customer relationships recorded in conjunction with the acquisition of Virgin America. Finite-lived intangibles were recorded at fair value upon acquisition and are amortized over their estimated useful lives. Indefinite-lived intangibles were recorded at fair value upon acquisition and are not amortized, but are tested at least annually for impairment using a similar methodology to goodwill, as described above.

Aircraft Maintenance Deposits

Certain Airbus leases include contractually required maintenance deposit payments to the lessor, which collateralize the lessor for future maintenance events should the Company not perform required maintenance. Most of the lease agreements provide that maintenance deposits are reimbursable upon completion of the major maintenance event in an amount equal to the lesser of (i) the amount qualified for reimbursement from maintenance deposits held by the lessor associated with the specific major maintenance event or (ii) the qualifying costs related to the specific major maintenance event. The Company establishes accounting maintenance deposits as assets on the balance sheet using estimates of the anticipated timing and cost of the specific major maintenance events, such that the accounting deposits do not exceed the amount qualified for reimbursement. Aircraft maintenance deposits recorded on the consolidated balance sheets were $175 million and $242 million as of December 31, 2021 and December 31, 2020.

Leased Aircraft Return Costs

Costs of returning leased aircraft are accrued when the costs are probable and reasonably estimable, usually beginning at least twelve months prior to the lease return, unless a determination is made that the leased asset is removed from operation. If the leased aircraft is removed from the operating fleet, the estimated cost of return is accrued at the time of removal. Any accrual is based on the time remaining on the lease, planned aircraft usage and the provisions included in the lease agreement, although the actual amount due to any lessor upon return may not be known with certainty until lease termination.

As leased aircraft are returned, payments made reduce the outstanding lease return liability. Of the total outstanding liability, $53 million is included in Other accrued liabilities and $114 million is included in Other liabilities on the consolidated balance sheets as of December 31, 2021, compared to $54 million included in Other accrued liabilities and $246 million included in Other liabilities on the consolidated balance sheets as of December 31, 2020. Expense associated with lease returns in the standard course of operating the aircraft is included in Aircraft maintenance in the consolidated statements of operations. Expense associated with lease returns when aircraft are permanently parked is recorded as a charge at the date the aircraft is permanently parked, regardless of contractual return date, and is classified as Special items - impairment charges and other in the consolidated statements of operations. See Note 2 for further discussion of these special items.

Advertising Expenses

The Company's advertising expenses include advertising, sponsorship and promotional costs. Advertising production costs are expensed as incurred. Advertising expense was $63 million, $41 million and $72 million during the years ended December 31, 2021, 2020 and 2019.

Derivative Financial Instruments

The Company's operations are significantly impacted by changes in aircraft fuel prices and interest rates. In an effort to manage exposure to these risks, the Company periodically enters into fuel and interest rate derivative instruments. These derivative instruments are recognized at fair value on the balance sheet and changes in the fair value are recognized in AOCL or in the consolidated statements of operations, depending on the nature of the instrument.

The Company does not apply hedge accounting to its derivative fuel hedge contracts, nor does it hold or issue them for trading purposes. For cash flow hedges related to interest rate swaps, the effective portion of the derivative represents the change in fair value of the hedge that offsets the change in fair value of the hedged item. To the extent the change in the fair value of the hedge does not perfectly offset the change in the fair value of the hedged item, the ineffective portion of the hedge is immediately recognized in interest expense.

Fair Value Measurements

Accounting standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants.
participants on the measurement date. The standards also establish a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

**Level 1** - Quoted prices in active markets for identical assets or liabilities.

**Level 2** - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

**Level 3** - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company has elected not to use the fair value option provided in the accounting standards for non-financial instruments. Accordingly, those assets and liabilities, including property, plant and equipment, goodwill, intangible assets and certain other assets and liabilities are carried at amortized cost. For financial instruments, the assets and liabilities are carried at fair value, which is determined based on the market approach or income approach, depending upon the level of inputs used. The leveling of inputs for financial and non-financial instruments are disclosed in this note, and Note 5.

**Income Taxes**

The Company uses the asset and liability approach for accounting for and reporting income taxes. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases and for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. A valuation allowance would be established, if necessary, for the amount of any tax benefits that, based on available evidence, are not expected to be realized. As of December 31, 2021, there is a partial valuation allowance against net deferred tax assets. The Company accounts for unrecognized tax benefits in accordance with the applicable accounting standards.

See Note 8 to the consolidated financial statements for more discussion of income taxes.

**Stock-Based Compensation**

Accounting standards require companies to recognize expense over the service period based on the fair value of stock options and other equity-based compensation issued to employees estimated as of the grant date. These standards apply to all stock awards that the Company grants to employees as well as the Company’s Employee Stock Purchase Plan (ESPP), which features a look-back provision and allows employees to purchase stock at a 15% discount. All stock-based compensation expense is recorded in wages and benefits in the consolidated statements of operations.

**Earnings Per Share (EPS)**

Diluted EPS is calculated by dividing net income by the average common shares outstanding plus additional common shares that would have been outstanding assuming the exercise of in-the-money stock options and restricted stock units, using the treasury-stock method. In 2021 anti-dilutive stock options excluded from the calculation of EPS were not material.

**Recently Adopted Accounting Pronouncements**

In March 2020, the FASB issued ASU 2020-04, "Reference Rate Reform (Topic 848)," which provides temporary optional expedients and exceptions to the current guidance on contract modifications and hedge accounting to ease the financial reporting burden related to the expected market transition from LIBOR to alternative reference rates. In January 2021, the FASB updated Topic 848, providing additional clarification and scope relating to transition to alternative reference rates. The guidance was effective upon issuance and generally can be applied to applicable contract modifications through December 31, 2022. The Company is not expected to transition to alternative rates prior to fiscal year 2023. The Company does not expect adoption and transition to alternative reference rates will have a material impact on our consolidated financial statements.
NOTE 2. SPECIAL ITEMS

The public health and economic crisis resulting from the outbreak of COVID-19 in 2020 continues to have a significant impact on the Company. Although the relaxation of restrictions by state and local governments and the rollout of vaccination programs have allowed for the return of demand, passenger enplanements remain below pre-pandemic levels and variants continue to drive volatility in recovery. As a result, the Company continues to fly less capacity than it had pre-pandemic.

Beginning in 2020, the Company implemented various cost-saving initiatives, including permanently parking aircraft, restructuring the workforce through early-out and incentive leave programs, and obtaining funding available under programs offered by the Treasury. As demand has improved and the business has grown back toward pre-pandemic flying levels, these programs have been adjusted to meet the needs of the airlines. The impacts of these programs for the years ended December 31, 2021 and 2020 are described further below.

**Lease Return Costs**

Alaska removed 40 leased Airbus aircraft from operating service in 2020, and recorded an estimate of the expected future lease return costs for the aircraft of $209 million to Special items - impairment charges and other in the consolidated statements of operations. In 2021, the Company recorded a net benefit of $1 million associated with changes in these estimates. Lease return costs also include the write off of associated maintenance deposits when the Company no longer expects to perform maintenance events covered by those deposits. The Company continues to evaluate the estimated costs to return leased aircraft. The lease return cost estimates are based on the Company's best estimate of costs to return aircraft as of the date of this filing.

In 2021, Alaska initiated a plan to reactivate up to 12 previously parked Airbus aircraft to support Alaska's plan for restoring capacity to pre-pandemic levels by summer 2022. Nine of these reactivated aircraft returned to the operating fleet in 2021, with three more expected to be reactivated in early 2022. At this time, the Company does not anticipate the return to service of these aircraft will materially change estimated lease return costs previously recorded, as leases for aircraft returning to service generally expire within a near-term window.

**Workforce restructuring**

The Company's subsidiaries reduced their operating workforce in 2020 to better align with the expected size of the business. To mitigate the need for involuntary furloughs, various early-out and voluntary leave programs were made available to all frontline work groups, in addition to incentive leave programs made available to Alaska pilots and mechanics. Through these programs over 600 employees took permanent early-outs, and over 3,300 employees took voluntary or incentive leaves. All employees on these temporary leave programs were called back to work by October 1, 2021.

In 2020, as a result of these programs, the Company recorded $220 million in wage expense to Special items - restructuring charges in the consolidated statement of operations for those pilots and mechanics on incentive leaves, ongoing medical benefit coverage and lump-sum termination payments. Throughout 2021, the Company continued to refine and update capacity expectations and training schedules, which resulted in changes to anticipated leave lengths. As a result, the Company recorded a net benefit of $10 million during the year ended December 31, 2021.

The table below presents a roll forward of the outstanding voluntary leave liability (in millions):

| Twelve Months Ended December 31, 2021 |  
|----------------------------------------|----------------------------------------|
| Total voluntary leave liability balance at January 1 | $127 |
| Cash payments | (105) |
| Charges and adjustments | (10) |
| Total voluntary leave liability balance at December 31 | $12 |

The outstanding accrual at December 31, 2021 is for final payments to participants on a retirement incentive leave who will not return to active employment. The balance is reflected in accrued wages, benefits and payroll taxes on the consolidated balance sheet.
**Impairment charges**

In 2020, the Company temporarily and permanently parked certain aircraft in response to the loss of demand driven by the COVID-19 pandemic. At that time, the Company performed impairment tests on certain long-lived and intangible assets, as well as receivable balances to evaluate recoverability. These impairment tests indicated impairment on the Q400 fleet, permanently parked Airbus aircraft, and related capital improvements, resulting in impairment charges of $363 million. The Company also identified certain intangible assets, purchase deposits, and receivable balances deemed unrecoverable, and recorded an additional $30 million in charges for those balances. The total of these special charges, lease return costs summarized above, the recognition of a legal settlement and other immaterial charges comprise the $627 million recorded as Special items - impairment charges and other on the consolidated statement of operations for the period ending December 31, 2020. In 2021, the Company did not identify any indicators of impairment of long-lived assets, goodwill, intangibles or receivables.

**CARES Act Funding**

In 2021, Alaska, Horizon and McGee finalized agreements with the Treasury through an extension of the PSP, made available under the Consolidated Appropriations Act, 2021 (PSP 2) and received an additional $626 million.

Alaska, Horizon and McGee also finalized additional agreements with the Treasury under a third round of the PSP, made available under the American Rescue Plan of 2021 (PSP 3), and received total funds of $585 million.

Total funds contracted from the Treasury under the Payroll Support Programs are allocated as follows (in millions):

<table>
<thead>
<tr>
<th></th>
<th>Grants</th>
<th>Loans</th>
<th>Warrants</th>
<th>Total Proceeds</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSP 1</td>
<td>757</td>
<td>293</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>1,645</strong></td>
<td><strong>600</strong></td>
<td><strong>25</strong></td>
<td><strong>2,270</strong></td>
</tr>
</tbody>
</table>

Funds were exclusively used for payment of employee salaries, wages and benefits. In 2021 and 2020, $892 million and $753 million in PSP grant funds were recorded as an offset to wages, salaries and benefits as eligible expenses were incurred. Also included within the annual total offset are employee retention credits as provided for in the CARES Act of $21 million in 2021 and $29 million in 2020. The Company does not expect to record additional wage offsets in 2022.

Upon receipt of the funds issued under PSP 3, certain conditions and restrictions were extended. These conditions include, but are not limited to, refraining from conducting involuntary furloughs or reducing employee pay rates of pay through September 30, 2021, and placing limits on executive compensation through April 1, 2023. The conditions also included suspension of dividends and share repurchases through September 30, 2022.

**NOTE 3. REVENUE**

Ticket revenue is recorded as Passenger revenue, and represents the primary source of the Company’s revenue. Also included in Passenger revenue are passenger ancillary revenues such as bag fees, on-board food and beverage, ticket change fees, and certain revenue from the frequent flyer program. In 2020, the Company eliminated ticket change fees indefinitely from main cabin and first class fares. Mileage Plan other revenue includes brand and marketing revenue from our co-branded credit card and other partners and certain interline frequent flyer revenue, net of commissions. Cargo and other revenue includes freight and mail revenue, and to a lesser extent, other ancillary revenue products such as lounge membership and certain commissions.

The Company disaggregates revenue by segment in Note 13. The level of detail within the Company’s consolidated statements of operations, segment disclosures, and in this footnote depict the nature, amount, timing and uncertainty of revenue and how cash flows are affected by economic and other factors.
Passenger Ticket and Ancillary Services Revenue

The primary performance obligation on a typical passenger ticket is to provide air travel to the passenger. Ticket revenue is collected in advance of travel and recorded as ATL on the consolidated balance sheets. The Company satisfies its performance obligation and recognizes ticket revenue for each flight segment when the transportation is provided.

Ancillary passenger revenues relate to items such as checked-bag fees, ticket change fees (prior to 2021), and on-board food and beverage sales, all of which are provided at time of flight. As such, the obligation to perform these services is satisfied at the time of travel and is recorded with ticket revenue in Passenger revenue.

Revenue is also recognized for tickets that are expected to expire unused, a concept referred to as “passenger ticket breakage.” Passenger ticket breakage is recorded at the intended travel date using estimates made at the time of sale based on the Company’s historical experience of expired tickets, and other facts such as program changes and modifications. Differences between advance passenger ticket breakage estimates and actual expirations are recognized as revenue when changes to estimate assumptions are observed or when tickets are no longer valid.

In addition to selling tickets on its own marketed flights, Alaska has interline agreements with partner airlines under which it sells multi-city tickets with one or more segments of the trip flown by a partner airline, or it operates a connecting flight sold by a partner airline. Each segment in a connecting flight represents a separate performance obligation. Revenue on segments sold and operated by the Company is recognized as Passenger revenue in the gross amount of the allocated ticket price when the travel occurs, while the commission paid to the partner airline is recognized as a selling expense when the related transportation is provided. Revenue on segments operated by a partner airline is deferred for the full amount of the consideration received at the time the ticket is sold and, once the segment has been flown the Company records the net amount, after compensating the partner airline, as Cargo and other revenue.

A portion of revenue from the Mileage Plan program is recorded in Passenger revenue. As members are awarded mileage credits on flown tickets, these credits become a distinct performance obligation to the Company. The Company allocates the transaction price to each performance obligation identified in a passenger ticket contract on a relative standalone selling price basis. The standalone selling price for loyalty mileage credits issued is discussed in the Loyalty Mileage Credits section of this Note below. The amount allocated to the mileage credits is deferred on the balance sheet. Once a member travels using a travel award redeemed with mileage credits on one of the Company’s airline carriers, the revenue associated with those mileage credits is recorded as Passenger revenue.

Taxes collected from passengers, including transportation excise taxes, airport and security fees and other fees, are recorded on a net basis within Passenger revenue in the consolidated statements of operations.

</tr>
</tbody>
</table>

As passenger tickets and related ancillary services are primarily sold via credit cards, certain amounts due from credit card processors are recorded as airline traffic receivables. These credit card receivables and receivables from our affinity credit card partner represent $167 million and $83 million on the consolidated balance sheets as of December 31, 2021 and 2020.

For performance obligations with performance periods of less than one year, GAAP provides a practical expedient that allows the Company not to disclose the transaction price allocated to remaining performance obligations and the timing of related revenue recognition. As passenger tickets expire one year from ticketing, if unused or not exchanged, the Company elected to apply this practical expedient.
Mileage Plan Loyalty Program

Loyalty mileage credits

The Company’s Mileage Plan loyalty program provides frequent flyer travel awards to program members based upon accumulated loyalty mileage credits. Mileage credits are earned through travel, purchases using the Mileage Plan co-branded credit card and purchases from other participating partners. The program has a 24-month expiration period for unused mileage credits from the month of last account activity. In response to the COVID-19 pandemic, the Company suspended expiry of outstanding mileage credits through June 30, 2022. The Company offers redemption of mileage credits through free, discounted or upgraded air travel on flights operated by Alaska and its regional partners or on one of its 23 partners, as well as redemption at partner hotels.

The Company uses a relative standalone selling price to allocate consideration to material performance obligations in contracts with customers that include loyalty mileage credits. As directly observable selling prices for mileage credits are not available, the Company determines the standalone selling price of mileage credits primarily using actual ticket purchase prices for similar tickets flown, adjusted for the likelihood of redemption, or breakage. In determining similar tickets flown, the Company considers current market prices, class of service, type of award, and other factors. For mileage credits accumulated through travel on partner airlines, the Company uses actual consideration received from the partners.

Revenue related to air transportation is deferred in the amount of the relative standalone selling price allocated to the loyalty mileage credits as they are issued. The Company satisfies its performance obligation when the mileage credits are redeemed and the related air transportation is delivered.

The Company estimates breakage for the portion of loyalty mileage credits not expected to be redeemed using a statistical analysis of historical data, including actual mileage credits expiring, slow-moving and low-credit accounts, among other factors. The breakage rate for the twelve months ended December 31, 2021 and 2020 was 17.4%. The Company reviews the breakage rate on an annual basis.

Co-brand credit card agreements and other

In addition to mileage credits, the co-brand credit card agreements, referred to herein as the Agreements, also include performance obligations for waived bag fees, Companion Fare™ offers to purchase an additional ticket at a discount, marketing, and the use of intellectual property including the brand (unlimited access to the use of the Company’s brand and frequent flyer member lists), which is the predominant element in the Agreement. The co-brand card bank partners are the customer for some elements, including the brand and marketing, while the Mileage Plan member is the customer for other elements such as mileage credits, bag waivers, and companion fares.

At the inception of the Agreement, management estimated the selling price of each of the performance obligations. The objective was to determine the price at which a sale would be transacted if the product or service was sold on a stand-alone basis. The Company determined its best estimate of selling price for each element by considering multiple inputs and methods including, but not limited to, the estimated selling price of comparable travel, discounted cash flows, brand value, published selling prices, number of miles awarded, and number of miles redeemed. The Company estimated the selling prices and volumes over the term of the Agreement in order to determine the allocation of proceeds to each of the multiple deliverables. The estimates of the standalone selling prices of each element do not change subsequent to the original valuation of the contract unless the contract is materially modified, but the allocation between elements may change based upon the actual and updated projected volumes of each element delivered during the term of the contract.

Consideration received from the banks is variable and is primarily from consumer spend on the card, among other items. The Company allocates consideration to each of the performance obligations, including mileage credits, waived bag fees, companion fares, and brand and marketing, using their relative standalone selling price. Because the performance obligation related to providing use of intellectual property including the brand is satisfied over time, it is recognized in Mileage Plan other revenue in the period that those elements are sold. The Company records passenger revenue related to the air transportation and certificates for discounted companion travel when the transportation is delivered.

In contracts with non-bank partners, the Company has identified two performance obligations in most cases - travel and brand. The travel performance obligation is deferred until the transportation is provided in the amount of the estimated standalone selling price of the ticket, less breakage, and the brand performance obligation is recognized using the residual method as commission revenue when the brand element is sold. Mileage credit sales recorded under the residual approach are immaterial to the overall program.
Partner airline loyalty

Alaska has interline arrangements with certain airlines whereby its members may earn and redeem Mileage Plan credits on those airlines, and members of a partner airline’s loyalty program may earn and redeem frequent flyer program credits on flights operated by Alaska and its regional partners. When a Mileage Plan member earns credits on a partner airline, the partner airline remits a contractually-agreed upon fee to the Company which is deferred until credits are redeemed. When a Mileage Plan member redeems credits on a partner airline, the Company pays a contractually agreed upon fee to the other airline, which is netted against the revenue recognized associated with the award travel. When a member of a partner airline redeems frequent flyer credits on Alaska, the partner airline remits a contractually-agreed upon amount to the Company, recognized as Passenger revenue upon travel. If the partner airline’s member earns frequent flyer program credits on an Alaska flight, the Company remits a contractually-agreed upon fee to the partner airline and records a commission expense.

Mileage Plan revenue included in the consolidated statements of operations (in millions):

<table>

<td><strong>$1,100</strong></td>
</tr>
</tbody>
</table>

Mileage Plan other revenue is primarily brand and marketing revenue from our affinity card products.

Cargo and Other

The Company provides freight and mail services (cargo). The majority of cargo services are provided to commercial businesses and the United States Postal Service. The Company satisfies cargo service performance obligations and recognizes revenue when the shipment arrives at its final destination, or is transferred to a third-party carrier for delivery.

The Company also earns other revenue for lounge memberships, hotel and car commissions, and certain other immaterial items not intrinsically tied to providing air travel to passengers. Revenue is recognized when these services are rendered and recorded as Cargo and other revenue. The transaction price for Cargo and other revenue is the price paid by the customer.

Air Traffic Liability and Deferred Revenue

Passenger ticket and ancillary services liabilities

The Company recognized Passenger revenue of $703 million and $502 million from the 2020 and 2019 year-end air traffic liability balance during the twelve months ended December 31, 2021 and 2020.

Included within the air traffic liability on the consolidated balance sheets is an outstanding liability for travel credits that guests may utilize for future travel. A high volume of credits were issued in 2020 as a result of the COVID-19 pandemic, and issuance levels in 2021 normalized, though remain above pre-pandemic levels. In April 2021, as part of the Company’s COVID-19 relief measures, travel credits that were set to expire at any point in 2021 were extended through December 31, 2021 for possible travel through November 30, 2022. Of these credits, those not redeemed for travel by December 31, 2021 expired and were recognized as revenue in 2021.
Mileage Plan liabilities

The total deferred revenue liability included on the consolidated balance sheets represents the remaining transaction price that has been allocated to Mileage Plan performance obligations not yet satisfied by the Company. In general, the current amounts will be recognized as revenue within 12 months and the long-term amounts will be recognized as revenue over a period of approximately three to four years. This period of time represents the average time that members have historically taken to earn and redeem miles.

The Company records a receivable for amounts due from the affinity card partner and from other partners as mileage credits are sold until the payments are collected. The Company had $62 million and $48 million of such receivables as of December 31, 2021 and December 31, 2020.

Mileage credits are combined into one homogeneous pool and are not specifically identifiable. As such, loyalty revenues disclosed earlier in this Note are comprised of miles that were part of the deferred revenue and liabilities balances at the beginning of the period and miles that were issued during the period. The table below presents a roll forward of the total frequent flyer liability (in millions):

<table>

</tr>
</tbody>
</table>

Selling Costs

Certain costs such as credit card fees, travel agency and other commissions paid, as well as Global Distribution Systems booking fees, are incurred when the Company sells passenger tickets and ancillary services in advance of the travel date. The Company defers such costs and recognizes them as expenses when the travel occurs. Prepaid expense recorded on the consolidated balance sheets for such costs was $37 million and $24 million as of December 31, 2021 and December 31, 2020. The Company recorded related expense on the consolidated statements of operations of $90 million, $43 million and $208 million for the twelve months ended December 31, 2021, 2020 and 2019.

NOTE 4. DERIVATIVE INSTRUMENTS AND RISK MANAGEMENT

Fuel Hedge Contracts

The Company’s operations are inherently dependent upon the price and availability of aircraft fuel. To manage economic risks associated with fluctuations in aircraft fuel prices, the Company periodically enters into call options for crude oil. As of December 31, 2021, the Company had outstanding fuel hedge contracts covering approximately 425 million gallons of crude oil that will be settled from January 2022 to June 2023.

Interest Rate Swap Agreements

The Company is exposed to market risk from adverse changes in variable interest rates on long-term debt. To manage this risk, the Company periodically enters into interest rate swap agreements. As of December 31, 2021, the Company has 12 interest rate swap agreements with third parties designed to hedge the volatility of the underlying variable interest rates on $469 million of debt. All of the interest rate swap agreements stipulate that the Company pay a fixed interest rate and receive a floating interest rate over the term of the underlying contracts. All significant terms of the swap agreements match the terms of the underlying hedged items and have been designated as qualifying hedging instruments, which are accounted for as cash flow hedges.

As qualifying cash flow hedges, the interest rate swaps are recognized at fair value on the balance sheet, and changes in the fair value are recognized in accumulated other comprehensive loss. The effective portion of the derivative represents the change in fair value of the hedge that offsets the change in fair value of the hedged item. To the extent the change in fair value of the hedge does not perfectly offset the change in the fair value of the hedged item, the ineffective portion of the hedge is recognized in interest expense, if material.
Fair Values of Derivative Instruments

Fair values of derivative instruments on the consolidated balance sheet (in millions):

<td>(13)</td>
</tr>
</tbody>
</table>

The amounts shown as recognized in aircraft rent for cash flow hedges (interest rate swaps) represent the realized losses transferred out of AOCL to aircraft rent. Losses related to interest rate swaps on variable rate debt of $10 million were recognized in interest expense during 2021. The amounts shown as recognized in OCI are prior to the losses recognized in aircraft rent during the period. The Company expects to reclassify from OCI $6 million in interest expense within the next twelve months.
NOTE 5. FAIR VALUE MEASUREMENTS

In determining fair value, there is a three-level hierarchy based on the reliability of the inputs used. Level 1 refers to fair values based on quoted prices in active markets for identical assets or liabilities. Level 2 refers to fair values estimated using significant other observable inputs and Level 3 refers to fair values estimated using significant unobservable inputs.

**Fair Value of Financial Instruments on a Recurring Basis**

As of December 31, 2021, total cost basis for marketable securities was $2.6 billion. There were no significant differences between the cost basis and fair value of any individual class of marketable securities.

### Fair values of financial instruments on the consolidated balance sheet (in millions):

<table>

<td>(9)</td>
</tr>
<tr>
<td><strong>Total Liabilities</strong></td>
<td>$—</td>
<td>$(9)</td>
</tr>
</tbody>
</table>

The Company uses the market and income approach to determine the fair value of marketable securities. U.S. government securities and equity mutual funds are Level 1 as the fair value is based on quoted prices in active markets. The remaining marketable securities instruments are Level 2 as the fair value is based on standard valuation models that calculate values from observable inputs such as quoted interest rates, yield curves, credit ratings of the security and other observable market information.

The Company uses the market and income approaches to determine the fair value of derivative instruments. The fair value for fuel hedge call options is determined utilizing an option pricing model that uses inputs that are readily available in active markets or can be derived from information available in active markets. In addition, the fair value considers exposure to credit losses in the event of non-performance by counterparties. Interest rate swap agreements are Level 2 as the fair value of these contracts is determined based on the difference between the fixed interest rate in the agreements and the observable LIBOR-based interest forward rates at period end, multiplied by the total notional value.

### Activity and Maturities for Marketable Securities

Unrealized losses from marketable securities are primarily attributable to changes in interest rates. Management does not believe any unrealized losses are the result of expected credit losses based on the Company’s evaluation of available evidence as of December 31, 2021.

Proceeds from sales of marketable securities were $3.6 billion, $2.3 billion and $1.7 billion in 2021, 2020, and 2019.
Maturities for marketable securities (in millions):

<table>
<thead>
<tr>
<th>Maturity</th>
<th>Cost Basis</th>
<th>Fair Value</th>

<td>44</td>
<td>42</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$2,645</strong></td>
<td><strong>$2,639</strong></td>
</tr>
</tbody>
</table>

As of December 31, 2021, $6 million of total marketable securities do not have a maturity date and are therefore excluded from the total fair value of maturities for marketable securities above.

**Fair Value of Other Financial Instruments**

The Company uses the following methods and assumptions to determine the fair value of financial instruments that are not recognized at fair value as described below.

*Cash, Cash Equivalents, and Restricted Cash:* Cash equivalents consist of highly liquid investments with original maturities of three months or less, such as money market funds, commercial paper and certificates of deposit. They are carried at cost, which approximates fair value.

The Company’s restricted cash balances are primarily used to guarantee various letters of credit, self-insurance programs or other contractual rights. Restricted cash consists of highly liquid securities with original maturities of three months or less. They are carried at cost, which approximates fair value.

*Debt:* To estimate the fair value of all fixed-rate debt as of December 31, 2021, the Company uses the income approach by discounting cash flows or estimation using quoted market prices, utilizing borrowing rates for comparable debt over the remaining life of the outstanding debt. The estimated fair value of the fixed-rate Enhanced Equipment Trust Certificate debt is Level 2, as it is estimated using observable inputs, while the estimated fair value of $763 million of other fixed-rate debt, including PSP notes payable, is classified as Level 3, as it is not actively traded and is valued using discounted cash flows which is an unobservable input.

Weighted-average fixed-interest rate: 3.7% 4.3%
Weighted-average variable-interest rate: 1.3% 1.9%
Approximately $469 million of the Company’s total variable-rate notes payable are effectively fixed via interest rate swaps at December 31, 2021, bringing the weighted-average interest rate for the full debt portfolio to 3.3%.

During 2021, the Company’s total debt decreased $956 million, the result of payments of $1.3 billion, including $923 million in prepayments. Payments were offset by issuances of $363 million, including $311 million of unsecured loans from the PSP and $54 million in proceeds from issuance of debt.

**CARES Act Loan**

In 2020, the Company finalized an agreement with the Treasury to obtain up to $1.9 billion via a secured term loan facility. In 2020, the Company drew $135 million under the agreement, which was used for general corporate purposes and certain operating expenses in accordance with the terms and conditions of the loan agreement and the applicable provisions of the CARES Act. The full balance was repaid in the second quarter of 2021. In accordance with the related agreement, the facility terminated at the time of repayment.

**Debt Maturity**

At December 31, 2021, long-term debt principal payments for the next five years and thereafter are as follows (in millions):

<table>

**Bank Lines of Credit**

Alaska has three credit facilities totaling $486 million as of December 31, 2021. One of the credit facilities for $150 million expires in March 2025 and is secured by certain accounts receivable, spare engines, spare parts and ground service equipment. A second credit facility for $250 million expires in June 2024 and is secured by aircraft. Both facilities have variable interest rates based on LIBOR plus a specified margin. A third credit facility for $86 million expires in June 2022 and is secured by aircraft.

Alaska has secured letters of credit against the third facility, but has no plans to borrow using either of the two facilities. All credit facilities have a requirement to maintain a minimum unrestricted cash and marketable securities balance of $500 million. Alaska was in compliance with this covenant at December 31, 2021.

**NOTE 7. LEASES**

The Company leases property and equipment through operating leases and categorizes these leases into five asset classes: aircraft, capacity purchase arrangements for aircraft operated by third-party carriers (CPA aircraft), airport and terminal facilities, corporate real estate and other equipment. All capitalized lease assets have been recorded on the consolidated balance sheet as of December 31, 2021 as Operating lease assets, with the corresponding liabilities recorded as Operating lease liabilities. Operating rent expense is recognized on a straight-line basis over the term of the lease.

The Company has elected the practical expedient under ASC 842 - Leases, allowing a policy election to exclude from recognition short-term lease assets and lease liabilities for leases with an initial term of twelve months or less. Such expense was not material for the twelve months ended December 31, 2021, 2020, and 2019.
Operating lease assets balance by asset class was as follows (in millions):

<table>
<thead>
<tr>

<tr>
<td><strong>Total Operating lease assets</strong></td>
<td><strong>$1,453</strong></td>
<td></td>
<td><strong>$1,400</strong></td>
</tr>
</tbody>
</table>

**Aircraft**

At December 31, 2021, Alaska had operating leases for ten Boeing 737-800, five Boeing 737-9, and 61 Airbus aircraft, and Horizon had operating leases for seven Bombardier Q400 aircraft. Remaining lease terms for these aircraft extend up to 12 years, some with options to extend, subject to negotiation at the end of the term. As extension is not certain, and rates are highly likely to be renegotiated, the extended term is only capitalized when it is reasonably determinable. While aircraft rent is primarily fixed, certain leases contain rental adjustments throughout the lease term which would be recognized as variable expense as incurred. Variable lease expense for aircraft for the twelve months ended December 31, 2021, 2020, and 2019 was $5 million, $1 million, and $4 million.

**Capacity purchase agreements with aircraft (CPA aircraft)**

At December 31, 2021, Alaska had CPAs with two carriers, including the Company’s wholly-owned subsidiary, Horizon. Horizon sells 100% of its capacity under a CPA with Alaska. Alaska also has a CPA with SkyWest covering 32 E175 aircraft to fly certain routes in the Lower 48 and Canada. Under these agreements, Alaska pays the carriers an amount which is based on a determination of their cost of operating those flights and other factors intended to approximate market rates for those services. As Horizon is a wholly-owned subsidiary, intercompany leases between Alaska and Horizon have not been recognized under the standard.

Remaining lease terms for CPA aircraft extend up to nine years. Financial arrangements of the CPAs include a fixed component, representing the costs to operate each aircraft which is capitalized. CPAs also include variable rent based on actual levels of flying, which is expensed as incurred. Variable lease expense for CPA aircraft for the twelve months ended December 31, 2021, 2020, and 2019 was not material.

**Airport and terminal facilities**

The Company leases ticket counters, gates, cargo and baggage space, office space and other support areas at numerous airports. For this asset class, the Company has elected to combine lease and non-lease components. The majority of airport and terminal facility leases are not capitalized because they do not meet the definition of controlled assets under the standard, or because the lease payments are entirely variable. For airports where leased assets are identified, and where the contract includes fixed lease payments, operating lease assets and lease liabilities have been recorded. The Company is also commonly responsible for maintenance, insurance and other facility-related expenses and services under these agreements. These costs are recognized as variable expense in the period incurred. Airport and terminal facilities variable lease expense for the twelve months ended December 31, 2021, 2020, and 2019 was $377 million, $286 million, and $322 million.

Starting in 2018, the Company leased twelve airport slots at LaGuardia Airport and eight airport slots at Reagan National Airport to a third party. For these leases, the Company recorded $16 million, $14 million, and $13 million of lease income during the twelve months ended December 31, 2021, 2020, and 2019.

**Corporate real estate and other leases**

Leased corporate real estate is primarily for office space in hub cities, data centers, land leases, and reservation centers. For this asset class, the Company has elected to combine lease and non-lease components under the standard. Other leased assets are comprised of other ancillary contracts and items including leased flight simulators, ground equipment, and spare engines. Variable lease expense related to corporate real estate and other leases for the twelve months ended December 31, 2021, 2020, and 2019 was $17 million, $12 million, and $10 million.
**Sale-leaseback transaction**

In 2020, Alaska entered into a transaction to sell ten owned Airbus A320 aircraft and replace those aircraft with 13 new leased Boeing 737-9 aircraft. Also included in the transaction is the leaseback of all ten Airbus aircraft in the interim period between the sale of those aircraft and delivery of the first ten 737-9 aircraft. Of these deliveries, five were received in 2021, with the remaining eight scheduled in 2022.

**Components of Lease Expense**

**Supplemental Cash Flow Information**

During the year ended December 31, 2021, the Company paid $359 million for capitalized operating leases. The Company also acquired $273 million of operating lease assets in exchange for assumption of the same total of operating lease liabilities, inclusive of lease extensions.

**Lease Term and Discount Rate**

As most leases do not provide an implicit interest rate, the Company generally utilizes the incremental borrowing rate (IBR) based on information available at the commencement date of the lease to determine the present value of lease payments. The weighted average IBR and weighted average remaining lease term (in years) for all asset classes were as follows at December 31, 2021:

<table>

(a) - Future minimum lease payments for aircraft include commitments for aircraft which have been removed from operating service as the Company remains obligated under existing terms.

(b) - Future minimum lease payments in the table above are inclusive of incentive credits related to leased Boeing 737-9 aircraft. As a result, the operating lease liabilities presented on the consolidated balance sheet exceed total future payments. This difference will exist until all leased 737-9 aircraft are delivered.

As of December 31, 2021, we have entered into but not yet commenced leases for Boeing 737-9 and E175 aircraft, as well as other non-aircraft equipment. The liabilities associated with these leases are expected to be approximately $730 million. These leases will commence in 2022 and 2023 with lease terms ranging from 2023 to 2035.

NOTE 8. INCOME TAXES

Deferred Income Taxes

Deferred income taxes reflect the impact of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and such amounts for tax purposes. The Company has a net deferred tax liability, primarily due to differences in depreciation rates for federal income tax purposes and for financial reporting purposes.

Deferred tax (assets) and liabilities comprise the following (in millions):

<table>
<thead>
<tr>
<th></th>
<th>2021</th>

</tbody>
</table>

At December 31, 2021, the Company has paid gross taxes of $52 million and expect to pay $21 million more for the tax year 2021. The Company is also awaiting payment of a $285 million federal tax refund receivable as a result of carrying back losses.
from the 2020 tax year and other various amendments of prior year tax returns. The Company also has gross state NOLs of approximately $413 million that expire beginning in 2023 and continuing through 2041.

Virgin America experienced multiple “ownership changes” as defined in Section 382 of the Internal Revenue Code of 1986, as amended (the "Code"), the most recent being its acquisition by the Company. Section 382 of the Code imposes an annual limitation on the utilization of pre-ownership change NOLs. Any unused annual limitation may, subject to certain limits, be carried over to later years. During 2021, all remaining NOLs acquired through the acquisition of Virgin America were utilized to offset federal taxable income.

Valuation allowances are provided to reduce the related deferred income tax assets to an amount which will, more likely than not, be realized. The Company has determined it is more likely than not that a portion of the state NOL carryforward will not be realized and, therefore, has provided a valuation allowance of $20 million for that portion as of December 31, 2021. The Company has likewise concluded it is more likely than not that all of its federal and the remaining state deferred income tax assets will be realized and thus no additional valuation allowance has been recorded. The Company reassesses the need for a valuation allowance each reporting period.

Components of Income Tax Expense (Benefit)

The components of income tax expense (benefit) are as follows (in millions):

</tbody>
</table>

As of December 31, 2021, the Company had $41 million of accrued tax contingencies, of which $34 million, if fully recognized, would increase the effective tax rate. As of December 31, 2021, 2020 and 2019, the Company has accrued interest and penalties, net of federal income tax benefit, of $8 million, $6 million, and $7 million. In 2021, the Company recognized an expense of $2 million, compared to a benefit of $1 million in 2020, and expense of $1 million in 2019, for interest and penalties, net of federal income tax benefit. At December 31, 2021, the Company has unrecognized tax benefits recorded as a liability. The Company increased its reserves for uncertain tax positions in 2021 by $6 million, primarily due to current year activity and amended returns. These uncertain tax positions could change as a result of the Company’s ongoing audits, settlement of issues, new audits and status of other taxpayer court cases. The Company cannot predict the timing of these actions. Due to the positions being taken in various jurisdictions, the amounts currently accrued are the Company’s best estimate as of December 31, 2021.

NOTE 9. EMPLOYEE BENEFIT PLANS

Four qualified defined-benefit plans, one non-qualified defined-benefit plan, and seven defined-contribution retirement plans cover various employee groups of Alaska, Horizon and McGee Air Services.

The defined-benefit plans provide benefits based on an employee’s term of service and average compensation for a specified period of time before retirement. The qualified defined-benefit pension plans are closed to new entrants.

Accounting standards require recognition of the overfunded or underfunded status of an entity’s defined-benefit pension and other post-retirement plan as an asset or liability in the consolidated financial statements and requires recognition of the funded status in AOCL.

Qualified Defined-Benefit Pension Plans

The Company’s four qualified defined-benefit pension plans are funded as required by the Employee Retirement Income Security Act of 1974. The defined-benefit plan assets consist primarily of marketable equity and fixed-income securities. The work groups covered by qualified defined-benefit pension plans include salaried employees, pilots, clerical, office, passenger service employees, mechanics and related craft employees. The Company uses a December 31 measurement date for these plans. All plans are closed to new entrants.

</tbody>
</table>

The discount rates are determined using current interest rates earned on high-quality, long-term bonds with maturities that correspond with the estimated cash distributions from the pension plans. At December 31, 2021, the Company selected discount rates for each of the plans using a pool of higher-yielding bonds estimated to be more reflective of settlement rates, as management has taken steps to ultimately terminate or settle plans that are frozen and move toward freezing benefits in active plans in the future. In determining the expected return on plan assets, the Company assesses the current level of expected returns on risk-free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested and the expectations for future returns of each asset class. The expected return for each asset class is then weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

Plan assets are invested in common commingled trust funds invested in equity and fixed income securities and in certain real estate assets. The target and actual asset allocation of the funds in the qualified defined-benefit plans, by asset category, are as follows:

(a) As our Salaried Plan is frozen and fully funded, our investment strategies differ significantly from that of our other outstanding plans. Investments are in lower-risk securities, with earnings designed to maintain a fully-funded status.

The Company’s investment policy focuses on achieving maximum returns at a reasonable risk for pension assets over a full market cycle. The Company determines the strategic allocation between equities, fixed income and real estate based on current funded status and other characteristics of the plans. As the funded status improves, the Company increases the fixed income allocation of the portfolio and decreases the equity allocation. Actual asset allocations are reviewed regularly and periodically rebalanced as appropriate.

Plan assets invested in common commingled trust funds are fair valued using the net asset values of these funds to determine fair value as allowed using the practical expedient method outlined in the accounting standards. Fair value estimates for real estate are calculated using the present value of expected future cash flows based on independent appraisals, local market conditions and current and projected operating performance.

Percent funded 98 % 85 %

The accumulated benefit obligation for the combined qualified defined-benefit pension plans was $2.7 billion and $2.8 billion at December 31, 2021 and 2020. During 2021 actuarial gains decreased the benefit obligation primarily due to the increase in discount rates.

The amounts recognized in the consolidated balance sheets (in millions):

Nonqualified Defined-Benefit Pension Plan

Alaska also maintains an unfunded, noncontributory defined-benefit plan for certain elected officers. This plan uses a December 31 measurement date. The assumptions used to determine benefit obligations and the net period benefit cost for the nonqualified defined-benefit pension plan are similar to those used to calculate the qualified defined-benefit pension plan. The plan’s unfunded status, PBO and accumulated benefit obligation are immaterial. The net pension expense in prior year and expected future expense is also immaterial.

Post-retirement Medical Benefits

The Company allows certain retirees to continue their medical, dental and vision benefits by paying all or a portion of the active employee plan premium until eligible for Medicare, currently age 65. This results in a subsidy to retirees, because the premiums received by the Company are less than the actual cost of the retirees’ claims. The accumulated post-retirement benefit obligation for this subsidy is unfunded. The accumulated post-retirement benefit obligation was $125 million and $138 million at December 31, 2021 and 2020. The net periodic benefit cost was not material in 2021 or 2020.
Defined-Contribution Plans

The seven defined-contribution plans are deferred compensation plans under section 401(k) of the Internal Revenue Code. All of these plans require Company contributions. Total expense for the defined-contribution plans was $125 million, $126 million and $132 million in 2021, 2020, and 2019.

The Company also has a noncontributory, unfunded defined-contribution plan for certain elected officers of the Company who are ineligible for the nonqualified defined-benefit pension plan. Amounts recorded as liabilities under the plan are not material to the consolidated balance sheets at December 31, 2021 and 2020.

Pilot Long-term Disability Benefits

Alaska maintains a long-term disability plan for its pilots. The long-term disability plan does not have a service requirement. Therefore, the liability is calculated based on estimated future benefit payments associated with pilots that were assumed to be disabled on a long-term basis as of December 31, 2021 and does not include any assumptions for future disability. The liability includes the discounted expected future benefit payments and medical costs. The total liability was $77 million and $61 million, which was recorded net of a prefunded trust account of $8 million and $7 million, and included in long-term other liabilities on the consolidated balance sheets as of December 31, 2021 and December 31, 2020.

Employee Incentive-Pay Plans

The Company has employee incentive plans that pay employees based on certain financial and operational metrics. These metrics are set and approved annually by the Compensation and Leadership Development Committee of the Board of Directors. The aggregate expense under these plans in 2021, 2020 and 2019 was $151 million, $130 million and $163 million. The incentive plans are summarized below.

- **Performance-Based Pay (PBP)** is a program that rewards the majority of Alaska and Horizon employees. The program is based on various metrics that adjust periodically, including those related to Air Group profitability, cash flow metrics, safety, and sustainability.

- The **Operational Performance Rewards Program (OPR)** entitles the majority of Alaska and Horizon employees to quarterly payouts of up to $450 per person if certain monthly operational and customer service objectives are met.

NOTE 10. COMMITMENTS AND CONTINGENCIES

Future minimum payments for commitments as of December 31, 2021 (in millions):

<table>

<td>$1,599</td>
</tr>
</tbody>
</table>

(a) Includes non-cancelable contractual commitments for aircraft and engines, aircraft maintenance and parts management.
(b) Includes all non-aircraft lease costs associated with capacity purchase agreements.

Aircraft Commitments

Aircraft purchase commitments include non-cancelable contractual commitments for aircrafts and engines. As of December 31, 2021, Alaska had commitments to purchase 74 Boeing 737-9 aircraft with deliveries in 2022 through 2024. Horizon also has commitments to purchase seven E175 aircraft with deliveries in 2023 through 2025. Subsequent to December 31, 2021, Horizon added an additional five commitments with deliveries in 2022 and 2023. Alaska has options to purchase 52 737-9 aircraft and Horizon has options to purchase 15 E175 aircraft. Option payments are not reflected in the table above.
Aircraft Maintenance and Parts Management

Through its acquisition of Virgin America, the Company has a separate maintenance-cost-per-hour contract for management and repair of certain rotatable parts to support Airbus airframe and engine maintenance and repair. In 2017, Alaska entered into a similar contract for maintenance on its B737-800 aircraft engines. These agreements require monthly payments based upon utilization, such as flight hours, cycles and age of the aircraft, and, in turn, the agreement transfers certain risks to the third-party service provider. There are minimum payments under both agreements, which are reflected in the table above. Accordingly, payments could differ materially based on actual aircraft utilization.

Aircraft Maintenance Deposits

Certain Airbus leases include contractually required maintenance deposit payments to the lessor, which collateralize the lessor for future maintenance events should the Company not perform required maintenance. Payments of such deposits follow contractual terms and timing, regardless of operating status of the respective aircraft. Most of the lease agreements provide that maintenance deposits are reimbursable upon completion of the major maintenance event in an amount equal to the lesser of (i) the amount qualified for reimbursement from maintenance deposits held by the lessor associated with the specific major maintenance event or (ii) the qualifying costs related to the specific major maintenance event.

Los Angeles International Airport (LAX) Construction

In May 2019, we executed an amended lease agreement with Los Angeles World Airports, which includes an agreement to renovate and upgrade the fuel system, jet bridges and concourse facilities at Terminal 6 of LAX. Project terms and pre-construction readiness was approved and finalized in 2020. We expect construction will be completed by mid 2024. Under the terms of the agreement, we expect to have total reimbursable cash outlays for the project of approximately $230 million. To date, we have made total cash outlays of $71 million and have received reimbursement for $8.7 million of that total.

Contingencies

The Company is a party to routine litigation matters incidental to its business and with respect to which no material liability is expected. Liabilities for litigation related contingencies are recorded when a loss is determined to be probable and estimable.

In 2015, three flight attendants filed a class action lawsuit seeking to represent all Virgin America flight attendants for damages based on alleged violations of California and City of San Francisco wage and hour laws. The court certified a class of approximately 1,800 flight attendants in November 2016. The Company believes the claims in this case are without factual and legal merit.

In July 2018, the Court granted in part Plaintiffs’ motion for summary judgment, finding Virgin America, and Alaska Airlines, as a successor-in-interest to Virgin America, responsible for various damages and penalties sought by the class members. On February 4, 2019, the Court entered final judgment against Virgin America and Alaska Airlines in the amount of approximately $78 million. It did not award injunctive relief against Alaska Airlines. In February 2021, an appellate court reversed portions of the lower court decision and significantly reduced the judgment, again without awarding injunctive relief against Alaska. The determination of total judgment has not been completed as of the date of this filing. Based on the facts and circumstances available, the Company believes the range of potential loss to be between $0 and $22 million, and holds an accrual for $22 million in Other accrued liabilities on the consolidated balance sheets.

The Company has asked the U.S. Supreme Court to review the case on the basis that the California laws on which the judgment is based are invalid as applied to airlines pursuant to the U.S. Constitution and provisions of federal law that were enacted to shield inter-state common carriers from a patchwork of state and local wage and hour regulations such as those at issue in this case. If appeal efforts are unsuccessful, compliance with the California laws may have an adverse impact on the Company's operations and financial position, and collective bargaining agreements.

The Company is involved in other litigation around the application of state and local employment laws, like many air carriers. Our defenses are similar to those identified above, including that the state and local laws are preempted by federal law and are unconstitutional because they impede interstate commerce. None of these additional disputes are material.
NOTE 11. SHAREHOLDERS' EQUITY

Dividends

In March 2020, the Company suspended the payment of dividends indefinitely. The Company is barred by its CARES Act agreements from resuming any payment of dividends until October 1, 2022. Prior to the suspension, the Company paid dividends of $45 million and $173 million to shareholders of record during 2020 and 2019.

Common Stock Repurchase

In August 2015, the Board of Directors authorized a $1 billion share repurchase program. As of December 31, 2021, the Company has repurchased 7.6 million shares for $544 million under this program. In March 2020, the Company suspended the share repurchase program indefinitely. The Company is barred by its CARES Act agreements from resuming share repurchases until October 1, 2022. Prior to the suspension, the Company repurchased $31 million, or 538,078 shares, in 2020 and $75 million, or 1,192,820 shares, in 2019.

At December 31, 2021, the Company held 9,349,944 shares in treasury. Management does not anticipate retiring common shares held in treasury for the foreseeable future.

CARES Act Warrant Issuance

As additional taxpayer protection required under the PSP programs, during 2021, the Company granted the Treasury a total of 539,508 warrants to purchase common stock. The warrants are non-voting, freely transferable, may be settled as net shares or in cash at the Company's option, and have a five-year term.

In addition, in conjunction with the October 2020 draw on the CARES Act Loan, the Company granted the Treasury 427,080 warrants to purchase Alaska Air Group (ALK) common stock. The value of the warrants was estimated using the Black-Scholes option pricing model, and the relative fair value of the warrants of $6 million was recorded in stockholders' equity.

Total warrants outstanding are as follows as of December 31, 2021:

<table>
<thead>
<tr>
<th>Number of shares of ALK common stock</th>
<th>Strike Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSP 1</td>

<tr>
<td>Stock awards</td>
<td>20</td>
<td>1.3</td>
</tr>
<tr>
<td>Unrecognized stock-based compensation</td>
<td>$24</td>
<td>1.3</td>
</tr>
</tbody>
</table>

The Company is authorized to issue 20 million shares of common stock under these plans, of which 6,990,817 shares remain available for future grants of either options or stock awards as of December 31, 2021.

**Stock Options**

Stock options to purchase common stock are granted at the fair market value of the stock on the date of grant. The stock options granted have terms of up to ten years.

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants:

<table>
<thead>
<tr>
<th></th>
<th>2021</th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Expected volatility</td>
<td>43 %</td>
<td>34 %</td>
<td>30 %</td>
</tr>
<tr>
<td>Expected term</td>
<td>6 years</td>
<td>6 years</td>
<td>6 years</td>
</tr>
<tr>
<td>Risk-free interest rate</td>
<td>6.8 %</td>
<td>1.03 %</td>
<td>2.41 %</td>
</tr>
<tr>
<td>Expected dividend yield</td>
<td>— %</td>
<td>1.73 %</td>
<td>2.09 %</td>
</tr>
<tr>
<td>Weighted-average grant date fair value per share</td>
<td>$23.66</td>
<td>$14.11</td>
<td>$16.84</td>
</tr>
<tr>
<td>Estimated fair value of options granted (millions)</td>
<td>$4</td>
<td>$6</td>
<td>$4</td>
</tr>
</tbody>
</table>

The expected market price volatility and expected term are based on historical results. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of the grant. The expected dividend yield is based on the estimated weighted average dividend yield over the expected term. The expected forfeiture rates are based on historical experience.
The tables below summarize stock option activity for the year ended December 31, 2021:

</tbody>
</table>

Cash received from stock option exercises were not material for the year ended December 31, 2021.

**Stock Awards**

Restricted Stock Units (RSUs) are awarded to eligible employees and entitle the grantee to receive shares of common stock at the end of the vesting period. The fair value of the RSUs is based on the stock price on the date of grant. Generally, RSUs “cliff vest” after three years, or the period from the date of grant to the employee’s retirement eligibility, and expense is recognized accordingly. Performance Share Units (PSUs) are awarded to certain executives to receive shares of common stock if specific performance goals and market conditions are achieved. There are several tranches of PSUs which vest when performance goals and market conditions are met.

The following table summarizes information about outstanding stock awards:

<table>
<thead>
<tr>

<td>$52.81</td>
<td>1.3</td>
</tr>
</tbody>
</table>

**Deferred Stock Awards**

Deferred Stock Units (DSUs) are awarded to members of the Board of Directors as part of their retainers. The underlying common shares are issued upon retirement from the Board, but require no future service period. As a result, the entire intrinsic value of the awards is expensed on the date of grant.

**Employee Stock Purchase Plan**

The ESPP allows employees to purchase common stock at 85% of the stock price on the first day of the offering period or the specified purchase date, whichever is lower. Employees may contribute up to 10% of their base earnings during the offering period to purchase stock. Employees purchased 1,254,393, 1,524,194 and 784,786 shares in 2021, 2020 and 2019 under the ESPP.

**NOTE 13. OPERATING SEGMENT INFORMATION**
Alaska Air Group has two operating airlines—Alaska and Horizon. Each is regulated by the U.S. Department of Transportation’s Federal Aviation Administration. Alaska has CPAs for regional capacity with Horizon and SkyWest, under which Alaska receives all passenger revenues.

Under GAAP, operating segments are defined as components of a business for which there is discrete financial information that is regularly assessed by the Chief Operating Decision Maker (CODM) in making resource allocation decisions. Financial performance for the operating airlines and CPAs is managed and reviewed by the Company's CODM as part of three reportable operating segments:

- **Mainline** - includes scheduled air transportation on Alaska's Boeing or Airbus jet aircraft for passengers and cargo throughout the U.S., and in parts of Canada, Mexico, Costa Rica and Belize.
- **Regional** - includes Horizon's and other third-party carriers’ scheduled air transportation for passengers across a shorter distance network within the U.S. and Canada under a CPA. This segment includes the actual revenues and expenses associated with regional flying, as well as an allocation of corporate overhead incurred by Air Group on behalf of the regional operations.
- **Horizon** - includes the capacity sold to Alaska under a CPA. Expenses include those typically borne by regional airlines such as crew costs, ownership costs and maintenance costs.

The CODM makes resource allocation decisions for these reporting segments based on flight profitability data, aircraft type, route economics and other financial information.

The "Consolidating and Other" column reflects parent company activity, McGee Air Services, consolidating entries and other immaterial business units of the company. The "Air Group Adjusted" column represents a non-GAAP measure that is used by the Company CODM to evaluate performance and allocate resources. Adjustments are further explained below in reconciling to consolidated GAAP results.
Operating segment information is as follows (in millions):

ITEM 9.  CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A.  CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

The Company’s management, with the participation of the Principal Executive Officer and Principal Financial Officer, conducted an evaluation of the effectiveness of the Company’s disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of the end of the period covered by this report.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in the Company's internal controls over financial reporting during the year ended December 31, 2021, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Our internal control over financial reporting is based on the 2013 framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework).
MANAGEMENT’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the 2013 framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework). Based on our evaluation, our management concluded that our internal control over financial reporting was effective as of December 31, 2021.

We intend to review and evaluate the design and effectiveness of our disclosure controls and procedures and internal control over financial reporting on an ongoing basis, improve these controls and procedures over time, and correct any deficiencies that we may discover in the future. While we believe the present design of our disclosure controls and procedures and internal control over financial reporting are effective, future events affecting our business may cause us to modify our controls and procedures.

The Company’s independent registered public accounting firm has issued an attestation report regarding its assessment of the effectiveness of the Company’s internal control over financial reporting as of December 31, 2021.
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
Alaska Air Group, Inc.:

Opinion on Internal Control Over Financial Reporting

We have audited Alaska Air Group, Inc. and subsidiaries’ (the Company) internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive operations, shareholders’ equity, and cash flows for each of the years in the three-year period ended December 31, 2021, and the related notes (collectively, the consolidated financial statements), and our report dated February 11, 2022 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Seattle, Washington
February 11, 2022

/s/ KPMG LLP
ITEM 9B. OTHER INFORMATION

Explanatory Note

On November 9, 2020, Alaska Air Group, Inc. (the Company) filed a Current Report on Form 8-K with the Securities and Exchange Commission announcing, as part of a long-planned leadership succession process, the transition of Bradley Tilden from the role of Chairman and Chief Executive Officer (CEO) of the Company to non-executive Chairman of the Company's Board of Directors and the appointment of Benito Minicucci to the role of CEO effective March 31, 2021.

On February 26, 2021, the Company filed a Current Report on Form 10-K clarifying that Mr. Tilden would continue to serve as executive Chairman of the Board following his retirement as CEO on March 31, 2021.

Executive and Board Transitions

On February 8, 2022, Mr. Tilden informed the Board of his intention to retire from the role of executive Chairman and to step down as a Director of the Company and its airline subsidiaries at the conclusion of the annual meeting of stockholders on May 5, 2022.

Upon the recommendation of the Board’s Governance, Nominating and Corporate Responsibility Committee (Committee), the Board elected Patricia Bedient to assume the role of non-executive Board Chair upon Mr. Tilden’s retirement. Ms. Bedient has served on the Board since 2004, as Lead Independent Director since May 2016, and as the Chair of the Committee since May 2020.

The Board also elected Kathleen Hogan to succeed Ms. Bedient as Chair of the Committee, effective May 6, 2022. Ms. Hogan, chief people officer and executive vice president of human resources for Microsoft Corporation, has served on the Board since 2019 and also sits on the Compensation and Leadership Development committee.

Board Size

In connection with Mr. Tilden’s retirement announcement and effective at the close of the 2022 annual meeting of stockholders, the number of seats on the Company’s and its airline subsidiaries’ boards of directors was decreased by actions of each board from 14 to 13.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

See “Executive Officers” under Item 1, “Our Business,” in Part I of this Form 10-K for information on the executive officers of Air Group and its subsidiaries. Except as provided herein, the remainder of the information required by this item is incorporated herein by reference from the definitive Proxy Statement for Air Group’s 2022 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of the fiscal year ended December 31, 2021 (hereinafter referred to as our “2022 Proxy Statement”).

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item is incorporated herein by reference from our 2022 Proxy Statement.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item is incorporated herein by reference from our 2022 Proxy Statement.
### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Supplemental Agreement No. 1 to
Purchase Agreement No. 3866 between
The Boeing Company and
Alaska Airlines, Inc.
Relating to Boeing Models 737-8 and 737-9 Aircraft

THIS SUPPLEMENTAL AGREEMENT, entered into as of March 15, 2013, by and between THE BOEING COMPANY (Boeing) and ALASKA AIRLINES, INC (Customer).

WHEREAS, the parties hereto entered into Purchase Agreement No. 3866 dated October 10, 2012 (Purchase Agreement), as amended and supplemented, relating to Boeing Models 737-8 aircraft (737-8 Aircraft) and 737-9 aircraft; and

WHEREAS, Customer agrees that it will accelerate the delivery of two (2) 737-8 Aircraft with the delivery positions listed below (Rescheduled Aircraft).

NOW THEREFORE, in consideration of the mutual covenants herein contained, the parties agree to amend the Purchase Agreement as follows:

1. **Purchase Agreement Table of Contents and Tables:**
   
   1.1 Remove and replace, in its entirety, the Purchase Agreement "Table of Contents", with the revised Table of Contents, attached hereto, to reflect the changes made in this Supplemental Agreement No. 1.
   
   1.2 Remove and replace, in its entirety, the Purchase Agreement "Table 1 A to Purchase Agreement No. PA-03866"", with the revised Table 1 A, attached hereto, to reflect the revisions associated with the acceleration of the Rescheduled Aircraft.

2. **Letter Agreements.**
   
   2.1 Letter Agreement ASA-PA-3866-LA-09433 entitled "Open Matters", is hereby deleted in its entirety and replaced with a revised Letter Agreement ASA-PA-3866-LA-09433R I, attached hereto, to reflect the revisions associated with the acceleration of the Rescheduled Aircraft.
2.2 Letter Agreement ASA-PA-3866-LA-09443 entitled "Agreement for Block Fuel Burn Price Adjustment" is hereby deleted in its entirety and replaced with a revised Letter Agreement ASA-PA-3866-LA-09443RI, attached hereto, to correct a typographical error in paragraph 2.2 of such Letter Agreement.

[***]

The Agreement will be deemed to be supplemented to the extent provided herein as of the date hereof and as so supplemented will continue in full force and effect

EXECUTED IN DUPLICATE as of the day and year first written above.

Supplemental Agreement No. 6
to
Purchase Agreement No. 3866
between
The Boeing Company
and
Alaska Airlines, Inc.
Relating to Boeing Models 737-8 and 737-9 Aircraft

THIS SUPPLEMENTAL AGREEMENT, entered into as of December 19, 2016, by and between THE BOEING COMPANY (Boeing) and ALASKA AIRLINES, INC. (Customer).

WHEREAS, the parties hereto entered into Purchase Agreement No. 3866 dated October 10, 2012 (Purchase Agreement), as amended and supplemented, relating to Boeing Models 737-8 aircraft (737-8 Aircraft) and 737-9 aircraft (737-9 Aircraft) (collectively Aircraft); and

WHEREAS, Customer and Boeing agree to substitute five (5) 737-890 aircraft in Purchase Agreement 2497 (NG Substitution Aircraft)) for 5 737-8 aircraft (Removed Aircraft); and

WHEREAS, Customer and Boeing agree to modify the previously executed Letter Agreement 6-1162-MVL-030, “Business Considerations Relating to Optional Features” into the Purchase Agreement; and

NOW THEREFORE, in consideration of the mutual covenants herein contained, the parties agree to amend the Purchase Agreement as follows:

1. Purchase Agreement Table of Contents and Tables:

   1.1 Remove and replace, in its entirety, the Purchase Agreement “Table of Contents” with the revised Table of Contents, attached hereto, to reflect the changes made in this Supplemental Agreement No. 6.

   1.2 Remove and replace, in its entirety, the Purchase Agreement “Table 1A to Purchase Agreement No. PA-03866”, with the revised Table 1A, attached hereto to reflect the removal of the Removed Aircraft”

2. Supplemental Exhibit
2.1 Supplemental Exhibit BFE1 entitled “Buyer Furnished Equipment Variables” is deleted in its entirety and replaced with a revised Supplemental Exhibit BFE1 attached hereto, to reflect the removal of the Removed Aircraft.

2. Letter Agreements.

2.1 Letter Agreement ASA-PA-3866-LA-09433R1 entitled “Open Matters” is hereby deleted in its entirety and replaced with a revised Letter Agreement ASA-PA-3866-LA-09433R2, attached hereto, to reflect an administrative clean up regarding delivery windows in Table 1A.

2.2 Letter Agreement ASA-PA-3866-LA-09438 entitled “Promotional Support” 737-8 and 737-9”, is hereby deleted in its entirety and replaced with a revised Letter Agreement ASA-PA-3866-LA-09438R1, attached hereto, to reflect the impact of removing the Removed Aircraft from the Purchase Agreement.

2.3 Letter Agreement 6-1162-MVL-030, “Business Considerations Relating to Optional Features”, attached hereto, is hereby added to the Purchase Agreement.

3. Miscellaneous.

4. Advance Payments

[***]

The Purchase Agreement will be deemed to be supplemented to the extent provided herein as of the date hereof and as so supplemented will continue in full force and effect.

EXECUTED IN DUPLICATE as of the date and year first written above.

AMENDMENT No. 1 TO PURCHASE AGREEMENT COM0041-16

This Amendment No.1 [COM0651-17] (the "Amendment No. 1") dated as of May __, 2016 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2017 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 1 and the Purchase Agreement, this Amendment No. 1 shall control.

WHEREAS, Buyer is hereby confirming exercise of the first group of three (3) Option Aircraft under the Purchase Agreement;

WHEREAS, Embraer shall deliver and Buyer shall take delivery of these three (3) Aircraft in accordance with new delivery schedule contained in this Amendment No. 1 (including Attachment "E" hereto).

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. DEFINITIONS

New articles 1.1.4.1 and 1.1.4.2 shall be inserted after article 1.1.4 as follows:

1.1.4.1  "Firm Aircraft" shall mean the thirty (30) EMBRAER 175 firm aircraft as described on article 2.1 of the Purchase Agreement.

1.1.4.2  "Confirmed Option Aircraft" shall mean the additional EMBRAER 175 aircraft that Buyer has confirmed the exercise of the option, as per terms of Article 21 and as set forth in Attachment "E".

2. SUBJECT

Article 2 of the Purchase Agreement shall be deleted and replaced as follows:

"Subject to the terms and conditions of this Agreement:

2.1 Embraer shall sell and deliver and Buyer shall purchase and take delivery of (30) Firm Aircraft and (3) Confirmed Option Aircraft;

2.2 Embraer shall provide to Buyer the Services and the Technical Publications as described in Attachment "B" to this Agreement; and

2.3 Buyer shall have the option to purchase up to thirty (30) Option Aircraft, in accordance with Article 21."
3. OPTION AIRCRAFT

Article 21 caput and Article 21.4 of the Purchase Agreement shall be deleted and replaced as follows:

“Subject to the payment of the Option Aircraft initial deposit set forth in Article 21.1, Buyer shall have the option to purchase thirty (30) additional Option Aircraft, to be delivered in accordance with the Option Aircraft contractual delivery dates contained in item 2 of Attachment “E” to this Agreement (each an “Option Aircraft Contractual Delivery Date”). The Option Aircraft will be supplied in accordance with the following terms and conditions:”

[***]

4. ATTACHMENT CHANGE

As a result of the changes referred to in Article 3 above, Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by Attachment E to this Amendment No. 1, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

5. REINSTATATION OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 1 shall remain in full force and effect without any change.

6. COUNTERPARTS

This Amendment No. 1 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 1 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

[INTENTIONALLY LEFT BLANK – SIGNATURE PAGE FOLLOWS]
IN WITNESS WHEREOF, Embraer and Buyer, by their duly authorized officers, have entered into and executed this Amendment No. 1 to be effective as of the date first written above.

AMENDMENT No. 2 TO PURCHASE AGREEMENT COM0041-16

This Amendment No.2 [COM0651-17] (the "Amendment No. 2") dated as of July 21, 2016 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2017 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 2 and the Purchase Agreement, this Amendment No. 2 shall control.

WHEREAS, the Parties have agreed to modify certain items of the Aircraft specific configuration.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. CONFIGURATION CHANGES TO THE AIRCRAFT

   1.1. The following items shall be incorporated to the configuration of Aircraft 01 and subsequent:

   a.1. 
   b.1. 
   c.1. 

2. PRICE

   As a result of the changes referred to in Article 1 above, Article 3.1 of the Purchase Agreement is hereby deleted and replaced as follows:

   

3. ATTACHMENT A CHANGE

   As a result of the changes referred to in Article 2 above, Attachment A to the Purchase Agreement is hereby deleted and replaced in its entirety by Attachment A to this Amendment No. 2, which shall be deemed to be Attachment A for all purposes under the Purchase Agreement.

4. ATTACHMENT H CHANGE

   As a result of the changes referred to in Article 2 above, Attachment H to the Purchase Agreement is hereby deleted and replaced in its entirety by Attachment H to this Amendment No. 2, which shall be deemed to be Attachment H for all purposes under the Purchase Agreement.
5. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 2 shall remain in full force and effect without any change.

6. COUNTERPARTS

This Amendment No. 2 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 2 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

AMENDMENT No. 3 TO PURCHASE AGREEMENT COM0041-16

This Amendment No.3 [COM0651-17] (the “Amendment No. 3”) dated as of February 7, 2017 is between Embraer S.A. (“Embraer”) and Horizon Air Industries, Inc. (“Buyer”), collectively referred to herein as the “Parties”, and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2016 as amended from time to time (the “Purchase Agreement”).

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 2 and the Purchase Agreement, this Amendment No. 2 shall control.

WHEREAS, the Parties have agreed to modify certain items of the Aircraft specific configuration.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. CONFIGURATION CHANGES TO THE AIRCRAFT

1.1. The following items shall be incorporated to the configuration of Aircraft 01 and subsequent:

a.1. Configuration changes:
   
   b1. [***]
   c1. [***]

2. PRICE

As a result of the changes referred to in Article 1 above, Article 3.1 of the Purchase Agreement is hereby deleted and replaced as follows:

AMENDMENT No. 3 TO PURCHASE AGREEMENT COM0041-16
AMENDMENT No. 4 TO PURCHASE AGREEMENT COM0041-16

This Amendment No.4 [COM0651-17] (the "Amendment No. 4") dated as of September 25, 2017 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2017 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 4 and the Purchase Agreement, this Amendment No. 4 shall control.

WHEREAS, Buyer has requested that the Contractual Delivery Dates of Aircraft #11 through #15 in effect immediately prior to the date hereof be modified and that such Contractual Delivery Dates be postponed;

WHEREAS, Embraer has agreed to postpone the Contractual Delivery Dates of Aircraft #11 through #15 (the "Postponed Aircraft") in accordance with the terms hereof.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. POSTPONEMENT FEES

[***]

2. ATTACHMENT CHANGE

Contractual Delivery Dates for each such Postponed Aircraft as provided for in Attachment E to the Purchase Agreement are hereby deleted, and such Attachment E is replaced in its entirety by Attachment E to this Amendment No. 4, which shall be deemed to be Attachment E for all purposes of the Purchase Agreement.

3. APPLICATION OF PROGRESS PAYMENTS

Embraer shall (i) retain pre-paid progress payments that Buyer has paid to Embraer for the Postponed Aircraft pursuant to Section 4 of the Purchase Agreement; (ii) continue to treat those payments as advance progress payments; and (iii) apply such amounts to progress payments that are due for Postponed Aircraft as of the execution date of this Amendment No. 4, and also to future advance payment obligations of Buyer as they become due under the Purchase Agreement subsequent to the date of execution of this Amendment No. 4."

4. FAILURE TO PAY POSTPONEMENT FEES AND APPLICATION OF LIQUIDATED DAMAGES PROVISIONS

In the event that Buyer fails to pay the Postponement Fees within two (2) Working Days of the date of, and as provide by Section 1 of, this Amendment No. 4, Embraer may terminate the Buyer's right to acquire the Postponed Aircraft and Buyer shall
remain liable for the payment of such Postponement Fees notwithstanding such termination. Buyer shall furthermore be liable for such termination of any Postponed Aircraft pursuant to Article 20.3 of the Purchase Agreement as if Article 20.3 had originally applied to the payment of such Postponement Fees. The Parties hereby agree that the liquidated damages provision set forth in Article 20.3 of the Purchase Agreement shall apply to any Postponed Aircraft terminated pursuant to the Amendment No. 4 and such liquidated damages provision represents a genuine, fair and reasonable estimate of Embraer's likely damages in the event of termination of any Postponed Aircraft.

5. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 4 shall remain in full force and effect without any change.

6. COUNTERPARTS

This Amendment No. 4 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 4 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

[INTENTIONALLY LEFT BLANK – SIGNATURE PAGE follows]
IN WITNESS WHEREOF, Embraer and Buyer, by their duly authorized officers, have entered into and executed this Amendment No. 1 to be effective as of the date first written above.

AMENDMENT No. 5 TO PURCHASE AGREEMENT COM0041-16

This Amendment No. 5 [COM0651-17] (the "Amendment No. 5") dated as of November 22, 2017 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2017 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 5 and the Purchase Agreement, this Amendment No. 5 shall control.

WHEREAS, Buyer has requested and Embraer has agreed to change the Contractual Delivery Date of certain Aircraft.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. DELIVERY

The Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by the Attachment E to this Amendment No. 5, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

2. OPTION AIRCRAFT

Article 21 caput and Article 21.4 of the Purchase Agreement shall be deleted and replaced as follows:

"Subject to the payment of the Option Aircraft initial deposit set forth in Article 21.1, Buyer shall have the option to purchase thirty (30) additional Option Aircraft, to be delivered in accordance with the Option Aircraft contractual delivery dates contained in item 2 of Attachment "E" to this Agreement (each an "Option Aircraft Contractual Delivery Date"). The Option Aircraft will be supplied in accordance with the following terms and conditions:"

AMENDMENT No. 6 TO PURCHASE AGREEMENT COM0041-16

This Amendment No. 6 [COM0127-18] (the "Amendment No. 6") dated as of March 26, 2018 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11, 2017 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 6 and the Purchase Agreement, this Amendment No. 6 shall control.

WHEREAS, Embraer has proposed and Buyer has agreed to advance the Contractual Delivery Date of Aircraft #24, #25 and #26 from 2019 to 2018.

WHEREAS, Buyer has requested and Embraer has agreed to postpone the Contractual Delivery Date of Aircraft #31, #32 and #33 from 2019 to 2021, also to postpone the Option Aircraft #01 to #06 from 2020 to 2022 and Option Aircraft #07 to #12 from 2020 to 2023.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Embraer and Buyer agree as follows:

1. DELIVERY

The Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by the Attachment E to this Amendment No. 6, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

2. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 6 shall remain in full force and effect without any change.

3. COUNTERPARTS

This Amendment No. 6 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 6 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

[INTENTIONALLY LEFT BLANK – SIGNATURE PAGE address]
IN WITNESS WHEREOF, Embraer and Buyer, by their duly authorized officers, have entered into and executed this Amendment No. 6 to be effective as of the date first written above.

AMENDMENT No. 7 TO
PURCHASE AGREEMENT COM0041-16

This Amendment No. 7 COM0426-18 (the "Amendment No. 7") dated as of August 3, 2018 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11th, 2016 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 7 and the Purchase Agreement, this Amendment No. 7 shall control.

WHEREAS, the Parties have agreed to modify certain items of the Aircraft-specific configuration.

NOW, THEREFORE, for good and valuable consideration which is hereby acknowledged, Embraer and Buyer hereby agree as follows:

1. CONFIGURATION CHANGE TO THE AIRCRAFT

The following modification shall be made to the configuration of the Horizon #020 and all subsequent Aircraft.

   a.1. Configuration change: [***]
   b.1. [***]
   c.1. [***]

2. PRICE

As a result of the change referred to in Article 1 above, Article 3.1 of the Purchase Agreement is defined as follows:

"3.1 The Aircraft Basic Price, in United States dollars, for each Aircraft is as follows: [***]"
3. ATTACHMENTS CHANGE

As a result of the change referred to in Article 2 above, Attachments A and H to the Purchase Agreement are hereby deleted and replaced in their entirety by Attachments A and H to this Amendment No. 7, which shall be deemed to be Attachments A and H for all purposes under the Purchase Agreement.

4. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 7 shall remain in full force and effect without any change.

5. COUNTERPARTS

This Amendment No. 7 may be signed by the parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 7 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

AMENDMENT No. 8 TO PURCHASE AGREEMENT COM0041-16

This Amendment No. 8 COM0457-18 to the Purchase Agreement (the "Amendment No. 8") dated as of September 25, 2018 is between Embraer S.A. ("Embraer") and Horizon Air Industries, Inc. ("Buyer"), collectively referred to herein as the "Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11th, 2016 as amended from time to time (the "Purchase Agreement").

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 8 and the Purchase Agreement, this Amendment No. 8 shall control.

WHEREAS, the Parties have agreed to modify certain items of the Aircraft specific configuration;

WHEREAS, the Parties had agreed to set forth additional agreements in relation to the product support package;

WHEREAS, the Parties have agreed to change the Aircraft Basic Price for Aircraft #16 and on;

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged, Embraer and Buyer hereby agree as follows:

1. CONFIGURATION CHANGE TO THE AIRCRAFT

1.1. The following change shall be made available to the configuration of the Aircraft #17 and on:

1.1.1. [***]

1.1.1.a [***].

1.1.1.b [***]

1.1.1.c [***]

1.2. The following change shall be made available to the configuration of the Aircraft #27 and on.
1.2.1 [***].
1.2.1.a [***].
1.2.1.b [***]
1.2.1.c [***]

2. PRODUCT SUPPORT PACKAGE CHANGES

Item 1.1 of Article 2.3.1 of the Attachment B to the Purchase Agreement is hereby deleted and replaced in its entirety by the following:

[***]

3. PRICE

Article 3 of the Purchase Agreement is hereby deleted and replaced in its entirety by the following:

3. PRICE

3.1 The Aircraft Basic Price, in United States dollars, for each Aircraft is as follows:
[***]
3.2 [***]
3.3 [***]

4. ATTACHMENTS CHANGE

As a result of the change referred to in Article 1 above, Attachments A, B and H to the Purchase Agreement are hereby deleted and replaced in their entirety by Attachments A, B and H to this Amendment No. 8, which shall be deemed to be Attachments A, B and H for all purposes under the Purchase Agreement.

5. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 8 shall remain in full force and effect without any change.

6. COUNTERPARTS

This Amendment No. 8 may be signed by the parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 8 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

AMENDMENT No. 13 TO PURCHASE AGREEMENT COM0041-16

This Amendment No. 13 COM0030-21, to the Purchase Agreement COM0041-16 (the “Amendment No. 13”) dated as of June 5, 2020 is between Yaborã Indústria Aeronáutica S.A. (“Seller”) and Horizon Air Industries, Inc. (“Buyer”), collectively referred to herein as the “Parties”, and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11th, 2016 as amended from time to time (the “Purchase Agreement”).

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the Purchase Agreement and in case of any conflict between this Amendment No. 13 and the Purchase Agreement, this Amendment No. 13 shall control.

WHEREAS, Embraer S.A. has restructured its activities and assigned, conveyed or transferred to Seller, all assets and rights related to its commercial aviation business (“Commercial Aviation Business”). Such assignment was effective on January 1st, 2020 (the “Contribution”). In view of the foregoing, the Purchase Agreement was assigned from Embraer S.A. to Seller, pursuant to the ASSIGNMENT AND ASSUMPTION AGREEMENT COM0302-19, as per notice sent to Buyer.

WHEREAS, the parties have agreed to change the Option Aircraft Delivery Schedule described in item 2 of Attachment E to the Purchase Agreement, in accordance with the terms hereof.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Seller and Buyer agree as follows:

1. DELIVERY

The Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by the Attachment E to this Amendment No. 13, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

2. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 13 shall remain in full force and effect without any change.

3. COUNTERPARTS

This Amendment No. 13 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

Amendment No.14 to PA COM0041-16
This Amendment No.17 [COM0489-21] (the "Amendment No.17") dated as of November 16, 2021 is between
EMBRAER S.A., a corporation existing under the laws of Brazil, which address and principal place of business is at
Avenida Brigadeiro Faria Lima, 2170, prédio F-100, Putim, in the city of São José dos Campos, State of São Paulo,
Brazil ("Embraer"); YABORÁ INDÚSTRIA AERONÁUTICA S.A., a corporation existing under the laws of Brazil, with
office at Avenida Brigadeiro Faria Lima, 2170, in the City of São José dos Campos, State of São Paulo, Brazil
("Embraer Commercial") and HORIZON AIR INDUSTRIES, INC. ("Buyer"), collectively referred to herein as the
"Parties", and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11th,
2016 as amended and assigned from time to time (the "Purchase Agreement").

Embraer and Embraer Commercial are referred collectively as “Seller”.

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the
Purchase Agreement and in case of any conflict between this Amendment No. 17 and the Purchase Agreement, this
Amendment No. 17 shall control.

WHEREAS, Due to a shortage of pilots, Buyer has requested and Seller has agreed to terminate five (5) Confirmed
Option Aircraft in order that Skywest, Inc. ("Skywest") may take delivery of the Aircraft as Aircraft #188 through
Aircraft #192 in accordance with the terms and conditions stated in the Purchase Agreement COM0028-13 between
Seller and Skywest (the "Skywest Agreement").

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Seller and
Buyer agree as follows:

1. SUBJECT

Buyer has requested and Seller has agreed to terminate five (5) Confirmed Option Aircraft. As a result of such
termination, Article 2 of the Purchase Agreement is hereby deleted and replaced as follows:

“Subject to the terms and conditions of this Agreement:

2.1 Seller shall sell and deliver and Buyer shall purchase and take delivery of thirty (30) Firm Aircraft and seven
(7) Confirmed Option Aircraft;

2.2 Seller shall provide to Buyer the Services and the Technical Publications as described in Attachment “B” to
this Agreement; and

2.3 Buyer shall have the option to purchase up to twenty-one (21) Option Aircraft, in accordance with Article 21.”
2. ATTACHMENT CHANGE

As a result of the change referred to in Article 1 of this Amendment No. 17, Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by Attachment E to this Amendment No. 17, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

3. PAYMENT RETURN

[***]

4. TERMINATION AMOUNT

2. Option Aircraft Delivery Schedule (ref. Purchase Agreement, Article 21)

[***]
This Amendment No.18 [COM0515-21] (the “Amendment No.18”) dated as of November 16, 2021 is between
EMBRAER S.A., a corporation existing under the laws of Brazil, which address and principal place of business is at
Avenida Brigadeiro Faria Lima, 2170, prédio F-100, Putim, in the city of São José dos Campos, State of São Paulo,
Brazil (“Embraer”); YABORÁ INDÚSTRIA AERONÁUTICA S.A., a corporation existing under the laws of Brazil, with
office at Avenida Brigadeiro Faria Lima, 2170, in the City of São José dos Campos, State of São Paulo, Brazil
(“Embraer Commercial”) and HORIZON AIR INDUSTRIES, INC. ("Buyer"), collectively referred to herein as the
“Parties”, and constitutes an amendment and modification to Purchase Agreement COM0041-16 dated April 11th,
2016 as amended and assigned from time to time (the "Purchase Agreement").

Embraer and Embraer Commercial are referred collectively as “Seller”.

All capitalized terms not otherwise defined herein shall have the same meaning when used herein as provided in the
Purchase Agreement and in case of any conflict between this Amendment No. 18 and the Purchase Agreement, this
Amendment No. 18 shall control.

WHEREAS, Buyer and Seller executed the Amendment No.17 on November 16, 2021 to the Purchase Agreement to
reflect the agreement related to the transfer of five (5) delivery positions held by Buyer to Skywest, Inc. (“Skywest”).

WHEREAS, Buyer and Seller have agreed to reinstate five (5) Firm Aircraft into the Purchase Agreement according
to the terms and conditions stated hereinafter.

NOW, THEREFORE, for good and valuable consideration, which is hereby acknowledged by the Parties, Seller and
Buyer agree as follows:

1. SUBJECT

Buyer has requested and Seller has agreed to reinstate five (5) Firm Aircraft into the Purchase Agreement. As a
result of such order increase, Article 2 of the Purchase Agreement is hereby deleted and replaced as follows:

“Subject to the terms and conditions of this Agreement:

2.1 Seller shall sell and deliver and Buyer shall purchase and take delivery of thirty five (35) Firm Aircraft and
seven (7) Confirmed Option Aircraft;

2.2 Seller shall provide to Buyer the Services and the Technical Publications as described in Attachment “B” to
this Agreement; and

2.3 Buyer shall have the option to purchase up to twenty-one (21) Option Aircraft, in accordance with Article 21.”
2. ATTACHMENT CHANGE

As a result of the change referred to in Article 1 of this Amendment No. 18, Attachment E to the Purchase Agreement is hereby deleted and replaced in its entirety by Attachment E to this Amendment No. 18, which shall be deemed to be Attachment E for all purposes under the Purchase Agreement.

3. PAYMENT RELOCATION

[***]

4. EFFECTIVENESS OF AMENDMENT No.18

This Amendment No.18 shall become effective subject to Skywest receiving a written notice of termination from Buyer, with copy to Seller, on or before January 15th, 2022 in regards to the termination under the CPA between Buyer and Skywest of five (5) aircraft, in which case the five (5) delivery slots previously terminated shall be reinstated in the Purchase Agreement with the deliveries in October/2022, October/ 2022, November/ 2022, March/ 2023 and April/ 2023.

If such written notice is not provided by 11:59 pm (Eastern Time) on January 15th, 2022, then this Amendment No. 18 shall not be effective and be considered null and void, and of no force and effect.

For avoidance of doubt, Seller’s and Buyer’s rights and obligations under the current Purchase Agreement shall continue to be in full force and effect, with no changes until the effectiveness of this Amendment No.18, if it is the case.

5. REINSTATEMENT OF PURCHASE AGREEMENT

All other provisions and conditions of the referenced Purchase Agreement, as well as its related Attachments and Letter Agreement, which are not specifically modified by this Amendment No. 18 shall remain in full force and effect without any change.

6. COUNTERPARTS

This Amendment No. 18 may be signed by the Parties hereto in any number of separate counterparts with the same effect as if the signatures thereto and hereto were upon the same instrument and all of which when taken together shall constitute one and the same instrument.

This Amendment No. 18 may be signed by facsimile with originals duly signed to follow by an internationally recognized courier.

[SIGNATURE PAGE FOLLOWS]
IN WITNESS WHEREOF, Seller and Buyer, by their duly authorized officers, have entered into and executed this Amendment No. 18 to be effective according to the terms and conditions stated in Article 4 of this Amendment No. 18.

[***]
ALASKA AIR GROUP, INC. EMPLOYEE STOCK PURCHASE PLAN
(As amended by the Board on February 15, 2019
for Offering Periods commencing on or after September 1, 2019)

1. PURPOSE
The purpose of this Plan is to assist Eligible Employees in acquiring a stock ownership interest in the Company, at a favorable price and upon favorable terms, pursuant to a plan which is intended to qualify as an “employee stock purchase plan” under Section 423 of the Code. This Plan is also intended to encourage Eligible Employees to remain in the employ of the Company or a Participating Subsidiary and to provide them with an additional incentive to advance the best interests of the Company.

2. DEFINITIONS
Capitalized terms used herein which are not otherwise defined shall have the following meanings.

(a) “Account” means the bookkeeping account maintained by the Company, or by a record keeper on behalf of the Company, for a Participant pursuant to Section 7(a).

(b) “Board” means the Board of Directors of the Company, as defined below.

(c) “Code” means the U.S. Internal Revenue Code of 1986, as amended from time to time.

(d) “Commission” means the U.S. Securities and Exchange Commission.

(e) “Committee” means the committee appointed by the Board to administer the Plan pursuant to Section 12.

(f) “Common Stock” means the common stock, par value $0.01 per share, of the Company, and such other securities or property as may become the subject of Options pursuant to an adjustment made under Section 17.

(g) “Company” means Alaska Air Group, Inc., a Delaware corporation, and its successors.

(h) “Compensation” means an Eligible Employee's base pay, inclusive of overtime and any employer paid leave. Compensation also includes any amounts contributed as salary reduction contributions to a plan qualifying under Section 401(k), 125, or 129 of the Code. Any other form of remuneration is excluded from Compensation, including (but not limited to) the following: cash bonuses, severance pay, hiring bonuses, prizes, awards, relocation or housing allowances, stock option exercises, stock appreciation right payments, the vesting or grant of restricted stock, the payment of stock units, performance awards, auto allowances, tuition reimbursement, perquisites, non-cash compensation and other forms of imputed income. Notwithstanding the foregoing, Compensation shall not include any amounts deferred under or paid from any nonqualified deferred compensation plan maintained by the Company or any Subsidiary (including, without limitation, the Company’s Nonqualified Deferred Compensation Plan).

(i) “Contributions” means the bookkeeping amounts credited to the Account of the Participant pursuant to this Plan, equal in amount to the amount of Compensation that the Participant has elected to contribute for the purchase of Common Stock under and in accordance with this Plan.

(j) “Effective Date” means March 11, 2010, the date on which this Plan was initially adopted by the Board.

(k) “Eligible Employee” means, subject to Section 3, any person employed by the Company or any Subsidiary which has been designated in writing by the Committee as a “Participating Subsidiary”; provided, however, that “Eligible Employee” shall not include any employee whose customary employment is for less than five (5) months in a calendar year.

(m) “Exercise Date” means, with respect to an Offering Period, the last day of that Offering Period.

(n) “Fair Market Value” on any date means:

(1) if the Common Stock is listed or admitted to trade on a national securities exchange, the closing price of a share of Common Stock on such date on the principal national securities exchange on which the Common Stock is so listed or admitted to trade, or, if there is no trading of the Common Stock on such date, then the closing price of a share of Common Stock on such exchange on the next preceding date on which there was trading in the shares of Common Stock; or

(2) in the absence of exchange data required to determine Fair Market Value pursuant to the foregoing, the value as established by the Committee as of the relevant time for purposes of this Plan.
“Grant Date” means, with respect to an Offering Period, the first day of that Offering Period.

“Individual Limit” has the meaning given to such term in Section 4(b).

“Offering Period” means the six (6) month period commencing on each Grant Date; provided, however, the Committee may declare, as it deems appropriate and in advance of the applicable Offering Period, a shorter (not to be less than three months) Offering Period or a longer (not to exceed 27 months) Offering Period. Unless otherwise expressly provided by the Committee in advance of a particular Offering Period, the Grant Date for that Offering Period may not occur on or before the Exercise Date for the immediately preceding Offering Period.

“Option” means the option to acquire shares of Common Stock granted to a Participant pursuant to Section 8.

“Option Price” means the per share exercise price of an Option as determined in accordance with Section 8(b).

“Parent” means any corporation (other than the Company) in an unbroken chain of corporations ending with the Company in which each corporation (other than the Company) owns stock possessing 50% or more of the total combined voting power of all classes of stock in one or more of the other corporations in the chain.

“Participant” means an Eligible Employee who has elected to participate in this Plan and who has filed a valid and effective Subscription Agreement to make Contributions pursuant to Section 6.

“Participating Subsidiary” shall have the meaning given to such term in Section 19(c).

“Plan” means this Alaska Air Group, Inc. Employee Stock Purchase Plan, as it may be amended or restated from time to time.

“Subscription Agreement” means the written agreement or applicable electronic form of agreement filed by an Eligible Employee with the Company pursuant to Section 6 to participate in this Plan.

“Subsidiary” means any corporation (other than the Company) in an unbroken chain of corporations (beginning with the Company) in which each corporation (other than the last corporation) owns stock possessing 50% or more of the total combined voting power of all classes of stock in one or more of the other corporations in the chain.

3. ELIGIBILITY

Any person employed as an Eligible Employee as of a Grant Date may participate in this Plan during the Offering Period in which such Grant Date occurs, subject to the Eligible Employee satisfying the requirements of Section 6; provided, however, that the Committee may impose a requirement, prior to the start of an Offering Period, that an individual be employed with the Company or a Participating Subsidiary for a specified period of time (which shall be less than two years) prior to the applicable Grant Date to be eligible to participate in that Offering Period.

4. STOCK SUBJECT TO THIS PLAN; SHARE LIMITATIONS

(a) Aggregate Share Limit. Subject to the provisions of Section 17, the capital stock that may be delivered under this Plan will be shares of the Company’s authorized but unissued Common Stock. The maximum number of shares of Common Stock that may be delivered pursuant to Options granted under this Plan is 8,000,000 shares, subject to adjustments pursuant to Section 17.

(b) Individual Share Limit. The maximum number of shares of Common Stock that any one individual may acquire upon exercise of his or her Option with respect to any one Offering Period is 8,000, subject to adjustments pursuant to Section 17 (the “Individual Limit”). The Committee may amend the Individual Limit, effective no earlier than the first Offering Period commencing after the adoption of such amendment, without stockholder approval.

(c) Shares Not Actually Delivered. Shares that are subject to or underlie Options, which for any reason are cancelled, terminated, forfeited, fail to vest, or for any other reason are not paid or delivered under this Plan shall again, except to the extent prohibited by law, be available for subsequent Options under this Plan.

5. OFFERING PERIODS

During the term of this Plan, the Company will grant Options to purchase shares of Common Stock in each Offering Period to all Participants in that Offering Period. Unless otherwise specified by the Committee in advance of the Offering Period, Offering Periods will be of approximately six (6) months duration and will commence on November 1 and May 1 each year and will end on the following April 30 and October 31, respectively; provided that there will be an Offering Period of approximately eight (8)
6. PARTICIPATION

(a) Enrollment. An Eligible Employee may become a Participant in this Plan by completing a Subscription Agreement on a form approved by and in a manner prescribed by the Committee (or its delegate). To become effective, a Subscription Agreement must be signed by the Eligible Employee and be filed with the Company at the time specified by the Committee, but in all cases prior to the start of the Offering Period with respect to which it is to become effective, and must set forth a whole percentage (or, if the Committee so requires, a stated amount) of the Eligible Employee's Compensation to be credited to the Participant's Account as Contributions each pay period.

(b) Contribution Limits. Notwithstanding the foregoing, a Participant may not elect to contribute less than one percent (1%) nor more than ten percent (10%) (or such other limit as the Committee may establish prior to the start of the applicable Offering Period) of his or her Compensation during any one pay period as Plan Contributions. The Committee also may prescribe other limits, rules or procedures for Contributions.

(c) Content and Duration of Subscription Agreements. Subscription Agreements shall contain the Eligible Employee's authorization and consent to the Company's withholding from his or her Compensation the amount of his or her Contributions. An Eligible Employee's Subscription Agreement, and his or her participation election and withholding consent thereon, shall remain valid for all Offering Periods until (1) the Eligible Employee's participation terminates pursuant to the terms hereof, (2) the Eligible Employee files a new Subscription Agreement that becomes effective, or (3) the Committee requires that a new Subscription Agreement be executed and filed with the Company.

7. METHOD OF PAYMENT OF CONTRIBUTIONS

(a) Participation Accounts. The Company shall maintain on its books, or cause to be maintained by a record keeper, an Account in the name of each Participant. The percentage of Compensation elected to be applied as Contributions by a Participant shall be deducted from such Participant's Compensation on each payday during the period for payroll deductions set forth below and such payroll deductions shall be credited to that Participant's Account as soon as administratively practicable following its receipt by the Company. A Participant may discontinue, increase, or decrease the level of his or her Contributions (within the Plan limits) by completing and filing with the Company, on such terms as the Committee (or its delegate) may prescribe, a new Subscription Agreement which indicates such election. Subject to any other timing requirements that the Committee may impose, an election pursuant to this Section 7(c) shall be effective with the first Offering Period that commences after the Company's receipt of such election, provided that a Participant may, on one occasion only during an Offering Period, elect to decrease (but not increase) the level of his or her Contributions (subject to Section 6(b)) by filing a new Subscription Agreement with the Company indicating such election, which election shall be effective as soon as administratively practicable following its receipt by the Company. Except as contemplated by the foregoing proviso and Section 7(d) and 7(e), changes in Contribution levels may not take effect during an Offering Period. Other modifications or suspensions of Subscription Agreements are not permitted.

(b) Payroll Deductions. Subject to such other rules as the Committee may adopt, payroll deductions with respect to an Offering Period shall commence as of the first day of the payroll period which coincides with or immediately follows the applicable Grant Date and shall end on the last date of the payroll period which coincides with or immediately precedes the applicable Exercise Date, unless sooner terminated by the Participant as provided in Section 7(d) or until his or her participation terminates pursuant to Section 11.

(c) Changes in Contribution Elections for Next Offering Period; One-Time Reduction Permitted During an Offering Period. A Participant may discontinue, increase, or decrease the level of his or her Contributions (within the Plan limits) by completing and filing with the Company, on such terms as the Committee (or its delegate) may prescribe, a new Subscription Agreement which indicates such election. Subject to any other timing requirements that the Committee may impose, an election pursuant to this Section 7(c) shall be effective with the first Offering Period that commences after the Company's receipt of such election, provided that a Participant may, on one occasion only during an Offering Period, elect to decrease (but not increase) the level of his or her Contributions (subject to Section 6(b)) by filing a new Subscription Agreement with the Company indicating such election, which election shall be effective as soon as administratively practicable following its receipt by the Company. Except as contemplated by the foregoing proviso and Section 7(d) and 7(e), changes in Contribution levels may not take effect during an Offering Period. Other modifications or suspensions of Subscription Agreements are not permitted.

(d) Withdrawal During an Offering Period. A Participant may terminate his or her Contributions during an Offering Period (and receive a distribution of the balance of his or her Account in accordance with Section 11) by completing and filing with the Company, in such form and on such terms as the Committee (or its delegate) may prescribe, a written withdrawal form or applicable electronic...
withdrawal form which shall be signed by the Participant. Such termination shall be effective as soon as administratively practicable after its receipt by the Company. A withdrawal election pursuant to this Section 7(d) with respect to an Offering Period shall only be effective, however, if it is received by the Company prior to the Exercise Date of the Offering Period (or such earlier deadline that the Committee may reasonably require to process the withdrawal prior to the applicable Exercise Date). Partial withdrawals of Accounts are not permitted.

(e) **Discontinuance of Contributions During an Offering Period.** A Participant may discontinue his or her Contributions at any time during an Offering Period by completing and filing with the Company, on such terms as the Committee (or its delegate) may prescribe, a new Subscription Agreement which indicates such election. If a Participant elects to discontinue his or her Contributions pursuant to this Section 7(e), the Contributions previously credited to the Participant's Account for that Offering Period shall be used to exercise the Participant’s Option as of the applicable Exercise Date in accordance with Section 9 (unless the Participant makes a timely withdrawal election in accordance with Section 7(d), in which case such Participant's Account shall be paid to him or her in cash in accordance with Section 11(a)).

8. **GRANT OF OPTION**

(a) **Grant Date; Number of Shares.** On each Grant Date, each Eligible Employee who is a Participant during that Offering Period shall be granted an Option to purchase a number of shares of Common Stock. The Option shall be exercised on the Exercise Date. The number of shares of Common Stock subject to the Option shall be determined by dividing the Participant’s Account balance as of the applicable Exercise Date by the Option Price, subject to the limits of Section 8(c).

(b) **Option Price.** The Option Price per share of the shares subject to an Option for an Offering Period shall be the lesser of: (i) 85% of the Fair Market Value of a Share on the Grant Date of that Offering Period; or (ii) 85% of the Fair Market Value of a Share on the Exercise Date of that Offering Period; provided, however, that the Committee may provide prior to the start of any Offering Period that the Option Price for that Offering Period shall be determined by applying a discount amount (not to exceed 15%) to either (1) the Fair Market Value of a share of Common Stock on that Grant Date of that Offering Period, or (2) the Fair Market Value of a share of Common Stock on the Exercise Date of that Offering Period, or (3) the lesser of the Fair Market Value of a share of Common Stock on the Grant Date of that Offering Period or the Fair Market Value of a share of Common Stock on the Exercise Date of that Offering Period. Notwithstanding anything to the contrary in the preceding provisions of this Section 8(b), in no event shall the Option Price per share be less than the par value of a share of Common Stock.

(c) **Limits on Share Purchases.** Notwithstanding anything else contained herein, the maximum number of shares subject to an Option for an Offering Period shall be subject to the Individual Limit in effect on the Grant Date of that Offering Period (subject to adjustment pursuant to Section 17) and any person who is otherwise an Eligible Employee shall not be granted any Option (or any Option granted shall be subject to compliance with the following limitations) or other right to purchase shares under this Plan to the extent:

1. It would, if exercised, cause the person to own stock (within the meaning of Section 423(b)(3) of the Code) possessing 5% or more of the total combined voting power or value of all classes of stock of the Company, or of any Parent, or of any Subsidiary; or
2. such Option causes such individual to have rights to purchase stock under this Plan and any other plan of the Company, any Parent, or any Subsidiary which is qualified under Section 423 of the Code which accrue at a rate which exceeds $25,000 of the Fair Market Value of the stock of the Company, or any Parent, or of any Subsidiary (determined at the time the right to purchase such stock is granted, before giving effect to any discounted purchase price under any such plan) for each calendar year in which such right is outstanding at any time.

For purposes of the foregoing, a right to purchase stock accrues when it first becomes exercisable during the calendar year. In determining whether the stock ownership of an Eligible Employee equals or exceeds the 5% limit set forth above, the rules of Section 424(d) of the Code (relating to attribution of stock ownership) shall apply, and stock which the Eligible Employee may purchase under outstanding options shall be treated as stock owned by the Eligible Employee.

9. **EXERCISE OF OPTION**

(a) **Purchase of Shares.** Unless a Participant withdraws pursuant to Section 7(d) or the Participant’s Plan participation is terminated as provided in Section 11, his or her Option for the purchase of shares shall be exercised automatically on the Exercise Date for that Offering Period, without any further action on the Participant’s part, and the maximum number of whole shares of Common Stock...
Stock subject to such Option (subject to the limits of Section 8(c)) shall be purchased at the Option Price with the balance of such Participant's Account.

(b) **Account Balance Remaining After Purchase.** If any amount which is not sufficient to purchase a whole share remains in a Participant's Account after the exercise of his or her Option on the Exercise Date: (1) such amount shall be credited to such Participant's Account for the next Offering Period, if he or she is then a Participant; or (2) if such Participant is not a Participant in the next Offering Period, or if the Committee so elects, such amount shall be refunded to such Participant as soon as administratively practicable after such date. If the share limit of Section 4(a) is reached, any amount that remains in a Participant's Account after the exercise of his or her Option on the Exercise Date to purchase the number of shares that he or she is allocated shall be refunded to the Participant as soon as administratively practicable after such date. If any amount which exceeds the limits of Section 8(c) remains in a Participant's Account after the exercise of his or her Option on the Exercise Date, such amount shall be refunded to the Participant as soon as administratively practicable after such date.

10. **DELIVERY OF SHARES**

As soon as administratively practicable after the Exercise Date, the Company shall, provide for the crediting of the shares of Common Stock purchased upon exercise of a Participant's Option in book entry form in the name of the Participant, or provide for an alternative arrangement for the delivery of such shares to a broker or record keeping service for the benefit of the Participant. In the event the Company is required to obtain from any commission or agency authority to deliver such shares, the Company will seek to obtain such authority. If the Company is unable to obtain from any such commission or agency authority which counsel for the Company deems necessary for the lawful issuance of any such certificate or other delivery of such shares, or if for any reason the Company cannot issue or deliver shares of Common Stock and satisfy Section 21, the Company shall be relieved from liability to any Participant except that the Company shall return to each Participant to whom such shares cannot be issued or delivered the amount of the balanced credited to his or her Account that would have otherwise been used for the purchase of such shares. Without limiting the generality of Section 12(b)(3), if shares are delivered to a broker for the benefit of a Participant as described above, the Committee may adopt such policies and procedures as it determines appropriate regarding the Participant's ability to transfer such shares from such broker account before the expiration of two years from the Grant Date of the Offering Period for which those shares were acquired and one year from the Exercise Date of the Offering Period for which those shares were acquired (provided, that nothing in this Section 10 shall prohibit a sale of such shares by the Participant on the open market or a transfer of such shares upon the death of the Participant).

11. **TERMINATION OF EMPLOYMENT; CHANGE IN ELIGIBLE STATUS**

(a) **General.** Except as provided in Section 11(b) below, if a Participant ceases to be an Eligible Employee for any reason (including, without limitation, due to the Participant's death, disability, resignation or retirement, or due to a layoff or other termination of employment with or without cause), or if the Participant elects to withdraw from the Plan pursuant to Section 7(d), at any time prior to the Exercise Date for the Offering Period in which he or she participates, such Participant shall not be eligible to exercise the Option for that Offering Period and Participant's Account shall be paid to him or her (or, in the event of the Participant's death, to the person or persons entitled thereto under Section 13) in cash, and such Participant's Option and participation in the Plan shall automatically terminate as of the time that the Participant ceased to be an Eligible Employee.

(b) **Change in Eligible Status; Leave.** If a Participant (1) ceases to be an Eligible Employee during an Offering Period but remains an employee of the Company or a Subsidiary through the Exercise Date (for example, and without limitation, due to a change in the Participant's employer from the Company or a Participating Subsidiary to a non-Participating Subsidiary, if the Participant's employer ceases to maintain the Plan as a Participating Subsidiary but otherwise continues as a Subsidiary, or if the Participant's customary level of employment no longer satisfies the requirements set forth in the definition of Eligible Employee), or (2) during an Offering Period commences a sick leave, military leave, or other leave of absence approved by the Company or a Participating Subsidiary, and the leave meets the requirements of Treasury Regulation Section 1.421-1(h)(2) and the Participant is an employee of the Company or a Subsidiary or on such leave as of the applicable Exercise Date, such Participant's Contributions shall cease (subject to Section 7(d)), and the Contributions previously credited to the Participant's Account for that Offering Period shall be used to exercise the Participant's Option as of the applicable Exercise Date in accordance with Section 9 (unless the Participant makes a timely withdrawal election in accordance with Section 7(d), in which case such Participant's Account shall be paid to him or her in cash in accordance with Section 11(a)).

(c) **Re-Enrollment.** A Participant's termination from Plan participation precludes the Participant from again participating in this Plan during that Offering Period. However, such termination shall not
have any effect upon his or her ability to participate in any succeeding Offering Period, provided that the applicable eligibility and participation requirements are again then met. A Participant's termination from Plan participation shall be deemed to be a revocation of that Participant's Subscription Agreement and such Participant must file a new Subscription Agreement to resume Plan participation in any succeeding Offering Period.

(d) **Change in Subsidiary Status.** For purposes of this Plan, if a Subsidiary ceases to be a Subsidiary, each person employed by that Subsidiary will be deemed to have terminated employment for purposes of this Plan, unless the person continues as an employee of the Company or another Subsidiary.

### 12. ADMINISTRATION

(a) **The Committee.** The Board shall appoint the Committee, which shall be composed of not less than two members of the Board. The Board may, at any time, increase or decrease the number of members of the Committee, and may appoint such person or persons as it desires to fill any vacancy existing on the Committee, whether caused by removal, resignation, or otherwise. The Board may also, at any time, assume the administration of all or a part of this Plan, in which case references (or relevant references in the event the Board assumes the administration of only certain aspects of this Plan) to the “Committee” shall be deemed to be references to the Board. Action of the Committee with respect to this Plan shall be taken pursuant to a majority vote or by the unanimous written consent of its members. No member of the Committee shall be entitled to act on or decide any matters relating solely to himself or herself or solely to any of his or her rights or benefits under this Plan.

(b) **Powers and Duties of the Committee.** Subject to the express provisions of this Plan, the Committee shall supervise and administer this Plan and shall have the full authority and discretion: (1) to construe and interpret this Plan and any agreements defining the rights and obligations of the Company, any Subsidiary, and Participants under this Plan; (2) to further define the terms used in this Plan; (3) to prescribe, amend and rescind rules and regulations relating to the administration of this Plan (including, without limitation, deadlines for making elections or for providing any notices contemplated by this Plan, which deadlines may be more restrictive than any deadlines otherwise contemplated by this Plan); and (4) to make all other determinations and take such other action as contemplated by this Plan or as may be necessary or advisable for the administration of this Plan or the effectuation of its purposes. Notwithstanding anything else contained in this Plan to the contrary, the Committee may also adopt rules, procedures or sub-plans applicable to particular Subsidiaries or locations, which sub-plans may be designed to be outside the scope of Section 423 of the Code and need not comply with the otherwise applicable provisions of this Plan.

(c) **Decisions of the Committee are Binding.** Any action taken by, or inaction of, the Company, any Subsidiary, the Board or the Committee relating or pursuant to this Plan and within its authority hereunder or under applicable law shall be within the absolute discretion of that entity or body and shall be conclusive and binding upon all persons.

(d) **Indemnification.** Neither the Board nor any Committee, nor any member thereof or person acting at the direction thereof, shall be liable for any act, omission, interpretation, construction or determination made in good faith in connection with this Plan, and all such persons shall be entitled to indemnification and reimbursement by the Company in respect of any claim, loss, damage or expense (including, without limitation, attorneys' fees) arising or resulting therefrom to the fullest extent permitted by law and/or under any directors and officers liability insurance coverage that may be in effect from time to time.

(e) **Reliance on Experts.** In making any determination or in taking or not taking any action under this Plan, the Committee or the Board, as the case may be, may obtain and may rely upon the advice of experts, including professional advisors to the Company. No director, officer or agent of the Company or any Participating Subsidiary shall be liable for any such action or determination taken or made or omitted in good faith.

(f) **Delegation.** The Committee may delegate ministerial, non-discretionary functions to individuals who are officers or employees of the Company or a Subsidiary.

### 13. DEATH BENEFITS

If a Participant dies, the Company shall deliver all shares and/or cash payable pursuant to the terms hereof to the executor or administrator of the estate of the Participant, or if no such executor or administrator has been appointed, the Company, in its discretion, may deliver such shares and/or cash to the spouse or to any one or more dependents or relatives of the Participant, or if no spouse, dependent or relative is known to the Company, then to such other person as the Company may designate.
14. **TRANSFERABILITY**

Neither Contributions credited to a Participant’s Account nor any Options or rights with respect to the exercise of Options or the right to receive shares under this Plan may be anticipated, alienated, encumbered, assigned, transferred, pledged or otherwise disposed of in any way (other than by will, the laws of descent and distribution, or as provided in Section 13) by the Participant. Any such attempt at anticipation, alienation, encumbrance, assignment, transfer, pledge or other disposition shall be without effect and all amounts shall be paid and all shares shall be delivered in accordance with the provisions of this Plan. Amounts payable or shares deliverable pursuant to this Plan shall be paid or delivered only to (or credited in the name of, as the case may be) the Participant or, in the event of the Participant’s death, the Participant’s beneficiary pursuant to Section 13.

15. **USE OF FUNDS; INTEREST**

All Contributions received or held by the Company under this Plan will be included in the general assets of the Company and may be used for any corporate purpose. Notwithstanding anything else contained herein to the contrary, no interest will be paid to any Participant or credited to his or her Account under this Plan (in respect of Account balances, refunds of Account balances, or otherwise). Amounts payable under this Plan shall be payable in shares of Common Stock or from the general assets of the Company and, except for any shares that may be reserved on the books of the Company for issuance with respect to this Plan, no special or separate reserve, fund or deposit shall be made to assure payment of amounts that may be due with respect to this Plan.

16. **REPORTS**

Statements shall be provided (either electronically or in written form, as the Committee may provide from time to time) to Participants as soon as administratively practicable following each Exercise Date. Each Participant’s statement shall set forth, as of such Exercise Date, that Participant’s Account balance immediately prior to the exercise of his or her Option, the Option Price, the number of whole shares purchased and his or her remaining Account balance, if any.
17. ADJUSTMENTS OF AND CHANGES IN THE STOCK

Upon or in contemplation of any reclassification, recapitalization, stock split (including a stock split in the form of a stock dividend), or reverse stock split, any merger, combination, consolidation, or other reorganization; split-up, spin-off, or any similar extraordinary dividend distribution in respect of the Common Stock (whether in the form of securities or property); any exchange of Common Stock or other securities of the Company, or any similar, unusual or extraordinary corporate transaction in respect of the Common Stock; or a sale of substantially all of the assets of the Company as an entirety occurs; then the Committee shall equitably and proportionately adjust (1) the number and type of shares or the number and type of other securities that thereafter may be made the subject of Options (including the specific maxima and numbers of shares set forth elsewhere in this Plan), (2) the number, amount and type of shares (or other securities or property) subject to any or all outstanding Options, (3) the Option Price of any or all outstanding Options, and/or (4) the securities, cash or other property deliverable upon exercise of any outstanding Options, in each case to the extent necessary to preserve (but not increase) the level of incentives intended by this Plan and the then-outstanding Options.

Upon the occurrence of any event described in the preceding paragraph, or any other event in which the Company does not survive (or does not survive as a public company in respect of its Common Stock); then the Committee may make provision for a cash payment or for the substitution or exchange of any or all outstanding Options for cash, securities or property to be delivered to the holders of any or all outstanding Options based upon the distribution or consideration payable to holders of the Common Stock upon or in respect of such event.

The Committee may adopt such valuation methodologies for outstanding Options as it deems reasonable in the event of a cash or property settlement and, without limitation on other methodologies, may base such settlement solely upon the excess (if any) of the amount payable upon or in respect of such event over the Option Price of the Option.

In any of such events, the Committee may take such action sufficiently prior to such event to the extent that the Committee deems the action necessary to permit the Participant to realize the benefits intended to be conveyed with respect to the underlying shares in the same manner as is or will be available to stockholders generally.

18. POSSIBLE EARLY TERMINATION OF PLAN AND OPTIONS

Upon a dissolution or liquidation of the Company, or any other event described in Section 17 that the Company does not survive or does not survive as a publicly-traded company in respect of its Common Stock, as the case may be, the Plan and, if prior to the last day of an Offering Period, any outstanding Option granted with respect to that Offering Period shall terminate, subject to any provision that has been expressly made by the Board for the survival, substitution, assumption, exchange or other settlement of the Plan and Options. In the event a Participant's Option is terminated pursuant to this Section 18 without a provision having been made by the Board for a substitution, exchange or other settlement of the Option, such Participant's Account shall be paid to him or her in cash without interest.

19. TERM OF PLAN; AMENDMENT OR TERMINATION

(a) Effective Date; Termination. This Plan became effective as of the Effective Date. No new Offering Periods shall commence on or after February 14, 2029 and this Plan shall terminate as of the Exercise Date on or immediately following such date unless sooner terminated pursuant to Section 18 or this Section 19. In the event that all of the shares of Common Stock made available under this Plan are subscribed prior to the expiration of this Plan, this Plan shall terminate at the end of that Offering Period and the shares available shall be allocated for purchase by Participants in that Offering Period on a pro-rata basis determined with respect to Participants' Account balances.

(b) Board Amendment Authority. The Board may, at any time, terminate or, from time to time, amend, modify or suspend this Plan, in whole or in part and without notice. Stockholder approval for any amendment or modification shall not be required, except to the extent required by law or applicable stock exchange rules or required under Section 423 of the Code in order to preserve the intended tax consequences of this Plan. No Options may be granted during any suspension of this Plan or after the termination of this Plan, but the Committee will retain jurisdiction as to Options then outstanding in accordance with the terms of this Plan. No amendment, modification, or termination pursuant to this Section 19(b) shall, without written consent of the Participant, affect in any manner materially adverse to the Participant any rights or benefits of such Participant or obligations of the Company under any Option granted under this Plan prior to the effective date of such change. Changes contemplated by Section 17 or Section 18 shall not be deemed to constitute changes or amendments requiring Participant consent.

(c) Certain Additional Committee Authority. Notwithstanding the amendment provisions of Section 19(b) and without limiting the Board's authority thereunder and without limiting the Committee's authority pursuant to any other provision of this Plan, the Committee shall have the right (1) to
designate from time to time the Subsidiaries whose employees may be eligible to participate in this Plan (including, without limitation, any Subsidiary that may first become such after the date stockholders first approve this Plan) (each a "Participating Subsidiary"). and (2) to change the service and other qualification requirements set forth under the definition of Eligible Employee in Section 2 (subject to the requirements of Section 423(b) of the Code and applicable rules and regulations thereunder). Any such change shall not take effect earlier than the first Offering Period that starts on or after the effective date of such change. Any such change shall not require stockholder approval.

20. NOTICES

All notices or other communications by a Participant to the Company contemplated by this Plan shall be deemed to have been duly given when received in the form and manner specified by the Committee (or its delegate) at the location, or by the person, designated by the Committee (or its delegate) for that purpose.

21. CONDITIONS UPON ISSUANCE OF SHARES

This Plan, the granting of Options under this Plan and the offer, issuance and delivery of shares of Common Stock are subject to compliance with all applicable federal and state laws, rules and regulations (including but not limited to state and federal securities laws) and to such approvals by any listing, regulatory or governmental authority as may, in the opinion of counsel for the Company, be necessary or advisable in connection therewith. The person acquiring any securities under this Plan will, if requested by the Company and as a condition precedent to the exercise of his or her Option, provide such assurances and representations to the Company as the Committee may deem necessary or desirable to assure compliance with all applicable legal requirements.

22. PLAN CONSTRUCTION

(a) **Section 16.** It is the intent of the Company that transactions involving Options under this Plan (other than "Discretionary Transactions" as that term is defined in Rule 16b-3(b)(1) promulgated by the Commission under Section 16 of the Exchange Act, to the extent there are any Discretionary Transactions under the Plan), in the case of Participants who are or may be subject to the prohibitions of Section 16 of the Exchange Act, satisfy the requirements for exemption under Rule 16b-3(c) promulgated by the Commission under Section 16 of the Exchange Act to the maximum extent possible. Notwithstanding the foregoing, the Company shall have no liability to any Participant for Section 16 consequences of Options or other events with respect to this Plan.

(b) **Section 423.** Except as the Committee may expressly provide in the case of one or more sub-plans adopted pursuant to Section 12(b), this Plan and Options are intended to qualify under Section 423 of the Code. Accordingly, all Participants are to have the same rights and privileges (within the meaning of Section 423(b)(5) of the Code and except as not required thereunder to qualify this Plan under Section 423) under this Plan, subject to differences in Compensation among Participants and subject to the Contribution and share limits of this Plan.

(c) **Interpretation.** If any provision of this Plan or of any Option would otherwise frustrate or conflict with the intents expressed above, that provision to the extent possible shall be interpreted so as to avoid such conflict. If the conflict remains irreconcilable, the Committee may disregard the provision if it concludes that to do so furthers the interest of the Company and is consistent with the purposes of this Plan as to such persons in the circumstances.

23. EMPLOYEES’ RIGHTS

(a) **No Employment Rights.** Nothing in this Plan (or in any Subscription Agreement or other document related to this Plan) will confer upon any Eligible Employee or Participant any right to continue in the employ or other service of the Company or any Subsidiary, constitute any contract or agreement of employment or other service or effect an employee’s status as an employee at will, nor shall interfere in any way with the right of the Company or any Subsidiary to change such person’s compensation or other benefits or to terminate his or her employment or other service, with or without cause. Nothing contained in this Section 23(a), however, is intended to adversely affect any express independent right of any such person under a separate employment or service contract other than a Subscription Agreement.

(b) **No Rights to Assets of the Company.** No Participant or other person will have any right, title or interest in any fund or in any specific asset (including shares of Common Stock) of the Company or any Subsidiary by reason of any Option hereunder. Neither the provisions of this Plan (or of any Subscription Agreement or other document related to this Plan), nor the creation or adoption of this Plan, nor any action taken pursuant to the provisions of this Plan will create, or be construed to create, a trust of any kind or a fiduciary relationship between the Company or any Subsidiary and any Participant, Beneficiary or other person. To the extent that a Participant, Beneficiary or other person acquires a right to receive payment pursuant to this Plan, such right will be no greater than the right of any unsecured general creditor of the Company.
(c) **No Stockholder Rights.** A Participant will not be entitled to any privilege of stock ownership as to any shares of Common Stock not actually delivered to and held of record by the Participant. No adjustment will be made for dividends or other rights as a stockholder for which a record date is prior to such date of delivery.

24. **MISCELLANEOUS**

(a) **Governing Law.** This Plan, the Options, Subscription Agreements and other documents related to this Plan shall be governed by, and construed in accordance with, the laws of the State of Delaware.

(b) **Severability.** If any provision shall be held by a court of competent jurisdiction to be invalid and unenforceable, the remaining provisions of this Plan shall continue in effect.

(c) **Captions and Headings.** Captions and headings are given to the sections of this Plan solely as a convenience to facilitate reference. Such captions and headings shall not be deemed in any way material or relevant to the construction of interpretation of this Plan or any provision hereof.

(d) **No Effect on Other Plans or Corporate Authority.** The adoption of this Plan shall not affect any other Company or Subsidiary compensation or incentive plans in effect. Nothing in this Plan will limit or be deemed to limit the authority of the Board or Committee (1) to establish any other forms of incentives or compensation for employees of the Company or any Subsidiary (with or without reference to the Common Stock), or (2) to grant or assume options (outside the scope of and in addition to those contemplated by this Plan) in connection with any proper corporate purpose; to the extent consistent with any other plan or authority. Benefits received by a Participant under an Option granted pursuant to this Plan shall not be deemed a part of the Participant's compensation for purposes of the determination of benefits under any other employee welfare or benefit plans or arrangements, if any, provided by the Company or any Subsidiary, except where the Committee or the Board (or the Board of Directors of the Subsidiary that sponsors such plan or arrangement, as applicable) expressly otherwise provides or authorizes in writing.

25. **TAX WITHHOLDING**

Notwithstanding anything else contained in this Plan herein to the contrary, the Company may deduct from a Participant's Account balance as of an Exercise Date, before the exercise of the Participant's Option is given effect on such date, the amount of taxes (if any) which the Company reasonably determines it or any Subsidiary may be required to withhold with respect to such exercise. In such event, the maximum number of whole shares subject to such Option (subject to the other limits set forth in this Plan) shall be purchased at the Option Price with the balance of the Participant's Account (after reduction for tax withholding amount).

Should the Company for any reason be unable, or elect not to, satisfy its or any Subsidiary's tax withholding obligations in the manner described in the preceding paragraph with respect to a Participant's exercise of an Option, or should the Company or any Subsidiary reasonably determine that it or an affiliated entity has a tax withholding obligation with respect to a disposition of shares acquired pursuant to the exercise of an Option prior to satisfaction of the holding period requirements of Section 423 of the Code, the Company or Subsidiary, as the case may be, shall have the right at its option to (1) require the Participant to pay or provide for payment of the amount of any taxes which the Company or Subsidiary reasonably determines that it or any affiliate is required to withhold with respect to such event or (2) deduct from any amount otherwise payable to or for the account of the Participant the amount of any taxes which the Company or Subsidiary reasonably determines that it or an affiliate is required to withhold with respect to such event.
26. **NOTICE OF SALE**

Any person who has acquired shares under this Plan shall give prompt written notice to the Company of any sale or other transfer of the shares if such sale or transfer occurs (1) within the two-year period after the Grant Date of the Offering Period with respect to which such shares were acquired, or (2) within the twelve-month period after the Exercise Date of the Offering Period with respect to which such shares were acquired.
ALASKA AIR GROUP PERFORMANCE BASED PAY PLAN
(Amended November 4, 2021)

The Board of Directors (the “Board”) of Alaska Air Group, Inc. (the “Company”) has adopted the Performance-Based Pay Plan (the “Plan”) to reward employees of Alaska Airlines, Inc. (“Alaska”) and Horizon Air Industries, Inc. (“Horizon”). The Board has delegated authority to the Compensation and Leadership Development Committee (the “Committee”) to administer the Plan. The Performance Based Pay Award (“Award”) of each eligible Plan Participant will depend upon the degree to which the Company, Alaska and Horizon achieve the applicable performance goals and, if applicable, an award modifier, set by the Committee for each calendar year (a “Plan Year”) and upon the discretion of the Committee as explained below.

This Amended and Restated Plan is effective beginning with the 2022 Plan Year and each year thereafter until amended, restated or terminated, pursuant to Paragraph 8. For the terms of Awards granted for any earlier Plan Year, refer to the version of the Plan in effect for the applicable Plan Year.

1. ELIGIBILITY

Eligibility to participate in the Plan during a Plan Year is limited to all regular, temporary variable time and temporary pool U.S. and Canadian employees, and Mexico management employees, of Alaska and Horizon (“Eligible Employees”) who:

(a) are employees of Alaska or Horizon on December 31 of the Plan Year for which the Award is being paid, or

(b) were employees during a portion of the Plan Year for which the Award is being paid but were not employees on December 31 because their employment ended due to retirement, disability or death. (For example, if an employee retires from Alaska or Horizon and his/her last day of employment is on or between January 1 and December 31, 2022, he/she would be eligible for an award for the 2022 Plan Year, but would not be eligible for an Award for the 2023 Plan Year because he/she was not an employee during any part of the 2023 Plan Year, even though his/her first day of retirement might be January 1, 2023.)

For the sake of clarity, “Eligible Employees” shall not include temporary employees (other than variable time and temporary pool employees) or Mexico non-management employees of Alaska or Horizon, or employees of McGee Air Services, Inc.

Eligible Employees who are on temporary medical leave, military leave, furlough, or company-approved leave of absence as of December 31 of the Plan Year shall remain eligible under the Plan. Unless otherwise provided in a separate agreement, an individual who is not employed with Alaska or Horizon on December 31 of the Plan Year for any reason not set forth above, for example, resignation or termination (with or without cause), forfeits any Award under this Plan. In addition, employees terminated for cause, as determined by Alaska or Horizon, shall forfeit any Award under this Plan, regardless of their employment status on December 31 of the Plan Year. Notwithstanding the foregoing, contract employees or independent contractors as classified by Alaska or Horizon, shall be excluded from participation hereunder, regardless of whether an agency or court subsequently re-classifies such individuals as employees of Alaska or Horizon. An Eligible Employee who meets all the requirements for an Award is a “Plan Participant” for such Plan Year. Participation in the Plan does not guarantee that any Award will be paid if applicable performance goals specified for the Plan Year are not achieved for the year.

2. CALCULATION OF THE AWARD

The size of the Award earned for a Plan Year will depend upon the extent to which the performance goals and, if applicable, an award modifier has been achieved during that Plan Year, and upon the discretion of the Committee. Separate performance weighting has been established for each performance goal.

A Plan Participant’s Award is determined by the following formula: Eligible Earnings X Participation Rate X Payout Award Percentage.

“Eligible Earnings” means the aggregate wages or salary paid during the Plan Year to the Plan Participant for services performed for Alaska or Horizon, including cash received for vacation payouts in connection with the Plan Participant’s transfer between any two entities (i.e., Alaska and Horizon) or in connection with retirement, death or disability, amounts that the Plan Participant could have received in cash had the Plan Participant not elected to contribute the amount to an employee benefit plan maintained by the Company or an affiliate and any other voluntary payment the Plan Participant makes which reduces his/her compensation (such as the Plan Participant’s voluntary contribution to an Internal Revenue Code (“Code”) Section 401(k) Plan, Code Section 125 medical account, dependent day care spending account, or charitable gift), but excluding commissions, back-pay awards, bonuses (including any payment received under this Plan), and all other forms of incentive or other supplemental pay.
employee benefits paid by the employer (such as employer contributions to a Code Section 401(k) Plan), worker’s compensation payments, disability payments, cash and non-cash fringe benefits and perquisites (such as per diems, auto expense reimbursement, relocation reimbursement or travel reimbursement).

“Participation Rate” shall mean the percentage level communicated to each Eligible Employee or class of Eligible Employee.

“Payout Award Percentage” means the sum of the weighted payout of each performance goal, calculated in the manner specified by Paragraph 3, herein. Awards may be paid in cash only.

All calculations will be performed by the Finance Department of Alaska and will be subject to approval by the Committee. Once approved by the Committee, such calculations shall be conclusively presumed to be accurate.

3. PERFORMANCE WEIGHTING

In order for any Award to be payable as to a particular performance goal, a “Threshold” performance level for that goal must be achieved. The payout percentage for a particular performance goal will be 50% if the “Threshold” level is reached, 100% if the “Target” level is reached, and 200% if the “Maximum” level is achieved. This determination applies to each goal individually. If performance for a particular goal is between the Threshold and Target levels, or between the Target and Maximum levels, the payout percentage for that goal will be determined by linear interpolation between those two levels. The payout percentage for each goal as so determined will then be multiplied by the weighting factor for that goal, as specified in Annex 1 Performance Based Pay Plan Goals and Measures described in Paragraph 4 for the applicable Plan Year (the “weighted payout percentages”).

4. PERFORMANCE GOALS AND APPLICABLE PERFORMANCE WEIGHTING FACTORS

The Committee will establish the performance goals and, if applicable, an award modifier for each Plan Year during the life of this Plan, and will annually approve an Annex 1 Performance-Based Pay Plan Goals and Measures to this Plan that outlines the performance goals, award modifiers and the weighting factors and an Annex 2 Performance-Based Pay Plan Participation Rates.

5. DISCRETIONARY FACTOR

In the case of a Plan Participant described in Paragraph 1 who retired, terminated employment due to disability, or died during the year, or a Plan Participant who took a leave of absence or worked a reduced schedule during any portion of the year, the Committee retains absolute discretionary authority to adjust the Award to such Plan Participant based upon the Committee’s determination of such Plan Participant’s contribution to the Company or its affiliates or any other factors as the Committee may determine appropriate.

6. TIMING OF AWARDS

Payment of Awards for a Plan Year will be made no later than March 15 of the following year. A deceased Plan Participant’s Award will be paid to the Participant’s estate.

7. PLAN PARTICIPANT TRANSFERS BETWEEN ALASKA AND HORIZON

If a Plan Participant transfers between Alaska and Horizon, the Plan Participant’s Award under this Plan, and any payment in respect of such Award, shall be separately determined by the Committee based on Eligible Earnings, Participation Rate and Payout Award Percentage attributable to each entity. This will result in a separate Award based on Alaska service and performance, and a separate Award based on Horizon service and performance, as applicable.

8. AMENDMENT

The Board, acting on its own or through the Committee, retains the right to modify the Plan at any time in any manner that it deems appropriate, provided that (a) no amendment that adversely affects the rights of Plan Participants or their beneficiaries shall be effective for a Plan Year that ended prior to the Plan Year in which the amendment was adopted, and (b) it will not terminate the Plan for any Plan Year during that Plan Year unless it is clear that Plan Participants will not receive any payment with respect to Awards granted for that Plan Year.

9. CLAWBACK POLICY

The Award is subject to the terms of the Company’s recoupment, clawback or similar policy as it may be in effect from time to time, as well as any similar provisions of applicable law, any of which could in certain circumstances require forfeiture of the Award and repayment or forfeiture of any cash received with respect to the Award.

10. MISCELLANEOUS
a. This Plan, including its attachments, constitutes the entire understanding relating to an Award to any employee of Alaska or Horizon, and supersedes all prior oral or written agreements, representations or commitments relating to such Awards.

b. This Plan is not a commitment of the Company, Alaska or Horizon, to any officer or employee of such company, to continue that individual in its employ in order to qualify for an Award. Nothing contained in this Plan may be considered to be a promise of continued employment. Any employee who shall file suit against his or her employer for wrongful termination shall automatically cease to be a Plan Participant.

c. This Plan and the rights and obligations provided for herein shall be construed and interpreted in accordance with the law of the state of Washington, excluding its conflicts of law rules.

d. No unpaid Award will be subject to the debts, liabilities, contracts or engagements of any Plan Participant, and may not be alienated, pledged, garnished or sold, and any attempt to do so shall be void.

e. All Awards are subject to applicable federal, state, and local deductions.

f. This Plan is intended to be an exception to, or otherwise be in compliance with, Section 409A of the Internal Revenue Code of 1986, as amended. This Plan shall be interpreted to comply with Section 409A.
THIS NONQUALIFIED STOCK OPTION AGREEMENT (this “Option Agreement”) dated [AWARD DATE], by and between ALASKA AIR GROUP, INC., a Delaware corporation (the “Corporation”), and [PARTICIPANT NAME] (the “Grantee”) evidences the nonqualified stock option (the “Option”) granted by the Corporation to the Grantee as to the number of shares of the Corporation’s Common Stock first set forth below.

Number of Shares of Common Stock: 
Exercise Price per Share: $ 
Expiration Date: 

**Vesting:** The Option shall become vested as to 25% of the total number of shares of Common Stock subject to the Option on each of the first, second, third and fourth anniversaries of the Award Date.

The Option is granted under the Alaska Air Group, Inc. 2016 Performance Incentive Plan (the “Plan”) and subject to the Terms and Conditions of Nonqualified Stock Option (the “Terms”) attached to this Option Agreement (incorporated herein by this reference) and to the Plan. The Option has been granted to the Grantee in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Grantee. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Option set forth herein. The Grantee acknowledges receipt of a copy of the Terms, the Plan and the Prospectus for the Plan.

ALASKA AIR GROUP, INC.
A Delaware corporation

Benito Minicucci
Chief Executive Officer

---

1 Subject to adjustment under Section 7.1 of the Plan
2 Subject to early termination under Section 4 of the Terms and Section 7.2 of the Plan
1. \textbf{Vesting; Limits on Exercise; Incentive Stock Option Status.}

The Option shall vest and become exercisable in percentage installments of the aggregate number of shares subject to the Option as set forth on the cover page of this Option Agreement. The Option may be exercised only to the extent the Option is vested and exercisable.

- \textit{Cumulative Exercisability.} To the extent that the Option is vested and exercisable, the Grantee has the right to exercise the Option (to the extent not previously exercised), and such right shall continue, until the expiration or earlier termination of the Option.

- \textit{No Fractional Shares.} Fractional share interests shall be disregarded, but may be cumulated.

- \textit{Minimum Exercise.} No fewer than 100 shares of Common Stock (subject to adjustment under Section 7.1 of the Plan) may be purchased at any one time, unless the number purchased is the total number at the time exercisable under the Option.

- \textit{Nonqualified Stock Option.} The Option is a nonqualified stock option and is not, and shall not be, an incentive stock option within the meaning of Section 422 of the Code.

2. \textbf{Continuance of Employment/Service Required; No Employment/Service Commitment.}

Except as expressly provided in Section 4.2 below, the vesting schedule requires continued employment or service through each applicable vesting date as a condition to the vesting of the applicable installment of the Option and the rights and benefits under this Option Agreement. Employment or service for only a portion of the vesting period, even if a substantial portion, will not entitle the Grantee to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of employment or services as provided in Section 4 below or under the Plan.

Nothing contained in this Option Agreement or the Plan constitutes an employment or service commitment by the Corporation or any of its Subsidiaries, affects the Grantee’s status as an employee at will who is subject to termination without cause, confers upon the Grantee any right to remain employed by or in service to the Corporation or any Subsidiary, interferes in any way with the right of the Corporation or any Subsidiary at any time to terminate such employment or services, or affects the right of the Corporation or any Subsidiary to increase or decrease the Grantee’s other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Grantee without his consent thereto.

3. \textbf{Method of Exercise of Option.}

The Option shall be exercisable by the delivery to the Secretary of the Corporation (or such other person as the Administrator may require pursuant to such administrative exercise procedures as the Administrator may implement from time to time) of:

- a written notice stating the number of shares of Common Stock to be purchased pursuant to the Option or by the completion of such other administrative exercise procedures as the Administrator may require from time to time,

- payment in full for the Exercise Price of the shares to be purchased in cash, check or by electronic funds transfer to the Corporation;

- any written statements or agreements required pursuant to Section 8.1 of the Plan; and

- satisfaction of the tax withholding provisions of Section 8.5 of the Plan.

The Administrator also may, but is not required to, authorize a non-cash payment alternative by one or more of the following methods (subject in each case to compliance with all applicable laws, rules, regulations and listing requirements and further subject to such rules as the Administrator may adopt as to any such payment method):

- notice and third party payment in such manner as may be authorized by the Administrator;
• in shares of Common Stock already owned by the Grantee, valued at their fair market value (as determined under the Plan) on the exercise date;
• a reduction in the number of shares of Common Stock otherwise deliverable to the Grantee (valued at their fair market value on the exercise date, as determined under the Plan) pursuant to the exercise of the Option; or
• a “cashless exercise” with a third party who provides simultaneous financing for the purposes of (or who otherwise facilitates) the exercise of the Option.

4. Early Termination of Option.

4.1 Possible Termination of Option upon Certain Corporate Events. The Option is subject to termination in connection with certain corporate events as provided in Section 7.2 of the Plan.

4.2 Termination of Option upon a Termination of Grantee’s Employment or Services; Possible Acceleration on Certain Terminations. Subject to earlier termination on the Expiration Date of the Option or pursuant to Section 4.1 above, if the Grantee ceases to be employed by or ceases to provide services to the Corporation or one of its Subsidiaries, the following rules shall apply (the last day that the Grantee is employed by or provides services to the Corporation or a Subsidiary is referred to as the Grantee’s “Severance Date”). Certain capitalized terms used in this Section 4.2 have the meanings ascribed to them in Exhibit A attached hereto.

• Other than as expressly provided below in this Section 4.2, the Option (whether vested or not) shall terminate on the Severance Date.

• If the termination of the Grantee’s employment or services is the result of the Grantee’s Retirement, (a) the Option, to the extent not vested on the Severance Date and scheduled to vest at any time within the three (3)-year period following the Severance Date, shall become fully vested as of the Severance Date, (b) the Grantee will have until the date that is three (3) years after the Grantee’s Severance Date to exercise the Option, provided, however, that any portion of the Option that becomes vested pursuant to the foregoing clause (a) shall become exercisable only at such times as such portion would have otherwise vested pursuant to the original vesting schedule as provided herein had the Grantee’s employment or service not terminated, (c) the Option, to the extent not vested on the Severance Date (after giving effect to the foregoing clause (a)), shall terminate on the Severance Date, and (d) the Option, to the extent exercisable at any time during the three (3)-year period following the Severance Date and not exercised on or prior to the last day of such period, shall terminate at the close of business on the last day of the three (3)-year period.

• If the termination of the Grantee’s employment or services is the result of the Grantee’s death or Disability, (a) the Option, to the extent not vested on the Severance Date, shall become fully vested as of the Severance Date, (b) the Grantee (or his beneficiary or personal representative, as the case may be) will have until the date that is three (3) years after the Grantee’s Severance Date to exercise the Option, and (c) the Option, to the extent exercisable for the three (3)-year period following the Severance Date and not exercised during such period, shall terminate at the close of business on the last day of the three (3)-year period.

Notwithstanding any other provision herein or in the Plan, the Option, to the extent outstanding and not then vested, shall become fully vested if (i) the Grantee’s employment with the Corporation and its Subsidiaries is terminated by the Corporation or a Subsidiary without Cause or by the Grantee for Good Reason, and (ii) such termination occurs at any time within the period commencing six (6) months before a Change of Control and ending twenty-four (24) months after such Change of Control. In the event that, upon the occurrence of a Change of Control, the Grantee is entitled to accelerated vesting of the Option pursuant to this paragraph in connection with a termination of the Grantee’s employment prior to such Change of Control, the Option, to the extent it had not vested and was cancelled or otherwise terminated upon or prior to the date of such Change of Control solely as a result of such termination of employment, shall be reinstated and shall automatically become fully vested, and the Grantee shall be given a reasonable opportunity to exercise such accelerated portion of the Option before it terminates.

In all events the Option is subject to earlier termination on the Expiration Date of the Option or as contemplated by Section 4.1. If the Grantee is rendering services other than as an employee or a director, the Administrator shall be the sole judge of whether the Grantee continues to render services for purposes of this Option Agreement.
5. **Non-Transferability.**

The Option and any other rights of the Grantee under this Option Agreement or the Plan are nontransferable and exercisable only by the Grantee, except as set forth in Section 5.7 of the Plan.

6. **Notices.**

Any notice to be given under the terms of this Option Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Grantee at the address last reflected on the Corporation’s payroll records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be delivered in person or shall be enclosed in a properly sealed envelope addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government. Any such notice shall be given only when received, but if the Grantee is no longer employed by or providing services to the Corporation or a Subsidiary, shall be deemed to have been duly given five business days after the date mailed in accordance with the foregoing provisions of this Section 6.

7. **Plan.**

The Option and all rights of the Grantee under this Option Agreement are subject to the terms and conditions of the Plan, incorporated herein by this reference. The Grantee agrees to be bound by the terms of the Plan and this Option Agreement. The Grantee acknowledges having read and understanding the Plan, the Prospectus for the Plan, and this Option Agreement. Unless otherwise expressly provided in other sections of this Option Agreement, provisions of the Plan that confer discretionary authority on the Board or the Administrator do not and shall not be deemed to create any rights in the Grantee unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Board or the Administrator so conferred by appropriate action of the Board or the Administrator under the Plan after the date hereof.

8. **Entire Agreement.**

This Option Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Option Agreement may be amended pursuant to Section 8.6 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Grantee hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof.

9. **Governing Law.**

This Option Agreement shall be governed by and construed in accordance with the laws of the State of Delaware without regard to conflict of law principles thereunder.

10. **Effect of this Agreement.**

Subject to the Corporation’s right to terminate the Option pursuant to Section 7.2 of the Plan, this Option Agreement shall be assumed by, be binding upon and inure to the benefit of any successor or successors to the Corporation.

11. **Counterparts.**

This Option Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

12. **Section Headings.**

The section headings of this Option Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.
13. **Clawback Policy.**

The Option is subject to the terms of the Corporation’s recoupment, clawback or similar policy as it may be in effect from time to time, as well as requirements of applicable law, including but not limited to restrictions on executive compensation levels under the Coronavirus Aid, Relief and Economic Security (CARES) Act, any of which could in certain circumstances require forfeiture of the Option and repayment or forfeiture of any shares of Common Stock or other cash or property received with respect to the Option (including any value received from a disposition of the shares acquired upon exercise of the Option).

14. **No Advice Regarding Grant.**

The Grantee is hereby advised to consult with his or her own tax, legal and/or investment advisors with respect to any advice the Grantee may determine is needed or appropriate with respect to the Option (including, without limitation, to determine the foreign, state, local, estate and/or gift tax consequences with respect to the Option and any shares that may be acquired upon exercise of the Option). Neither the Corporation nor any of its officers, directors, affiliates or advisors makes any representation (except for the terms and conditions expressly set forth in this Option Agreement) or recommendation with respect to the Option. Except for the withholding rights contemplated by Section 3 above and Section 8.5 of the Plan, the Grantee is solely responsible for any and all tax liability that may arise with respect to the Option and any shares that may be acquired upon exercise of the Option.
EXHIBIT A
DEFINITIONS

For purposes of the Option, the following terms shall have the meanings set forth is this Exhibit A.

“Cause” means the occurrence of any of the following:

(i) the Grantee is convicted of, or has pled guilty or nolo contendere to, a felony (other than traffic related offenses or as a result of vicarious liability); or

(ii) the Grantee has engaged in acts of fraud, material dishonesty or other acts of willful misconduct in the course of his duties to the Corporation or any of its Subsidiaries; or

(iii) the Grantee willfully and repeatedly fails to perform or uphold his duties to the Corporation or any of its Subsidiaries; or

(iv) the Grantee willfully fails to comply with reasonable directives of the Board which are communicated to him or her in writing; provided, however, that no act or omission by the Grantee shall be deemed to be “willful” if the Grantee reasonably believed in good faith that such acts or omissions were in the best interests of the Corporation.

“Change of Control” means the occurrence of any of the following:

(i) the consummation of:

   (A) any consolidation or merger of the Corporation in which the Corporation is not the continuing or surviving corporation or pursuant to which shares of common stock of the Corporation would be converted into cash, securities or other property, other than a merger of the Corporation in which the holders of common stock of the Corporation immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger; or

   (B) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, the assets of the Corporation.

(ii) at any time during a period of twenty-four (24) months, fewer than a majority of the members of the Board are Incumbent Directors.

   “Incumbent Directors” means (A) individuals who constitute the Board at the beginning of such period; and (B) individuals who were nominated or elected by all of, or a committee composed entirely of, the individuals described in (A); and (C) individuals who were nominated or elected by individuals described in (B).

(iii) any Person (meaning any individual, entity or group within the meaning of Section 13(d)(3) or 14(d) of the Exchange Act) shall, as a result of a tender or exchange offer, open market purchases, privately-negotiated purchases or otherwise, become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act, directly or indirectly, of the then-outstanding securities of the Corporation ordinarily (and apart from rights accruing under special circumstances) having the right to vote in the election of members of the Board (“Voting Securities” to be calculated as provided in paragraph (d) of Rule 13d-3 in the case of rights to acquire common stock of the Corporation) representing 20% or more of the combined voting power of the then-outstanding Voting Securities.

(iv) approval by the stockholders of the Corporation of any plan or proposal for the liquidation or dissolution of the Corporation.

Unless the Board shall determine otherwise, a Change of Control shall not be deemed to have occurred by reason of any corporate reorganization, merger, consolidation, transfer of assets, liquidating distribution or other transaction entered into solely by and between the Corporation and any affiliate thereof, provided
such transaction has been approved by at least two-thirds (2/3) of the Incumbent Directors (as defined above) then in office and voting.

Notwithstanding the foregoing, in no event shall a transaction or other event that occurred prior to the date of grant of the Option constitute a Change of Control, and no Change of Control after the first Change of Control to occur after the grant date shall be considered for purposes of the Option.

“Good Reason” means, without the Grantee’s express written consent, the occurrence of any one or more of the following:

(i) a material reduction in the Grantee’s annual base salary;
(ii) a material diminution or reduction of the Grantee’s authority, duties, or responsibilities;
(iii) a material change in the geographic location at which the Grantee must perform services; or
(iv) any material breach by the Corporation of any other provision of this Agreement;

provided, however, that any such condition shall not constitute “Good Reason” unless both (x) the Grantee provides written notice to the Corporation of the condition claimed to constitute Good Reason within ninety (90) days of the initial existence of such condition, and (y) the Corporation fails to remedy such condition within thirty (30) days of receiving such written notice thereof; and provided, further, that in all events the termination of the Grantee’s employment with the Corporation shall not be treated as a termination for “Good Reason” unless such termination occurs not more than two (2) years following the initial existence of the condition claimed to constitute “Good Reason.”

“Retirement” means that, as of the Grantee’s Severance Date, the Grantee either (i) has attained age 55 with at least five (5) full years of service with the Corporation and its Subsidiaries, or (ii) has attained age 60, or (iii) is a participant in and is entitled to commence a benefit under a defined benefit plan sponsored by the Corporation or any of its Subsidiaries and has at least 10 years of service with the Corporation and its Subsidiaries.

“Disability” means a “permanent and total disability” (within the meaning of Section 22(e)(3) of the Code or as otherwise determined by the Administrator).
ALASKA AIR GROUP, INC.
2016 PERFORMANCE INCENTIVE PLAN
 INCENTIVE STOCK OPTION AGREEMENT

THIS INCENTIVE STOCK OPTION AGREEMENT (this “Option Agreement”) dated [AWARD DATE], by and between ALASKA AIR GROUP, INC., a Delaware corporation (the “Corporation”), and [PARTICIPANT NAME] (the “Grantee”) evidences the incentive stock option (the “Option”) granted by the Corporation to the Grantee as to the number of shares of the Corporation’s Common Stock first set forth below.

<table>
<thead>
<tr>
<th>Number of Shares of Common Stock¹:</th>
<th>Award Date:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exercise Price per Share¹:</td>
<td>$</td>
</tr>
<tr>
<td>Expiration Date¹,²:</td>
<td></td>
</tr>
</tbody>
</table>

**Vesting**² The Option shall become vested as to 25% of the total number of shares of Common Stock subject to the Option on each of the first, second, third and fourth anniversaries of the Award Date.

The Option is granted under the Alaska Air Group, Inc. 2016 Performance Incentive Plan (the “Plan”) and subject to the Terms and Conditions of Incentive Stock Option (the “Terms”) attached to this Option Agreement (incorporated herein by this reference) and to the Plan. The Option has been granted to the Grantee in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Grantee. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Option set forth herein. The Grantee acknowledges receipt of a copy of the Terms, the Plan and the Prospectus for the Plan.

ALASKA AIR GROUP, INC.
A Delaware corporation

Benito Minicucci
Chief Executive Officer

¹ Subject to adjustment under Section 7.1 of the Plan
² Subject to early termination under Section 4 of the Terms and Section 7.2 of the Plan
TERMS AND CONDITIONS OF INCENTIVE STOCK OPTION

1. Vesting; Limits on Exercise; Incentive Stock Option Status.
   The Option shall vest and become exercisable in percentage installments of the aggregate number of shares subject to the Option as set forth on the cover page of this Option Agreement. The Option may be exercised only to the extent the Option is vested and exercisable.

   - Cumulative Exercisability. To the extent that the Option is vested and exercisable, the Grantee has the right to exercise the Option (to the extent not previously exercised), and such right shall continue, until the expiration or earlier termination of the Option.

   - No Fractional Shares. Fractional share interests shall be disregarded, but may be cumulated.

   - Minimum Exercise. No fewer than 100 shares of Common Stock (subject to adjustment under Section 7.1 of the Plan) may be purchased at any one time, unless the number purchased is the total number at the time exercisable under the Option.

   - ISO Status. The Option is intended as an incentive stock option within the meaning of Section 422 of the Code (an “ISO”).

   - ISO Value Limit. If the aggregate fair market value of the shares with respect to which ISOs (whether granted under the Option or otherwise) first become exercisable by the Grantee in any calendar year exceeds $100,000, as measured on the applicable Award Dates, the limitations of Section 5.1.2 of the Plan shall apply and to such extent the Option will be rendered a nonqualified stock option.

2. Continuance of Employment/Service Required; No Employment/Service Commitment.
   Except as expressly provided in Section 4.2 below, the vesting schedule requires continued employment or service through each applicable vesting date as a condition to the vesting of the applicable installment of the Option and the rights and benefits under this Option Agreement. Employment or service for only a portion of the vesting period, even if a substantial portion, will not entitle the Grantee to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of employment or services as provided in Section 4 below or under the Plan.

   Nothing contained in this Option Agreement or the Plan constitutes an employment or service commitment by the Corporation or any of its Subsidiaries, affects the Grantee’s status as an employee at will who is subject to termination without cause, confers upon the Grantee any right to remain employed by or in service to the Corporation or any Subsidiary, interferes in any way with the right of the Corporation or any Subsidiary at any time to terminate such employment or services, or affects the right of the Corporation or any Subsidiary to increase or decrease the Grantee’s other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Grantee without his consent thereto.

   The Option shall be exercisable by the delivery to the Secretary of the Corporation (or such other person as the Administrator may require pursuant to such administrative exercise procedures as the Administrator may implement from time to time) of:

   - a written notice stating the number of shares of Common Stock to be purchased pursuant to the Option or by the completion of such other administrative exercise procedures as the Administrator may require from time to time,

   - payment in full for the Exercise Price of the shares to be purchased in cash, check or by electronic funds transfer to the Corporation;

   - any written statements or agreements required pursuant to Section 8.1 of the Plan; and

   - satisfaction of the tax withholding provisions of Section 8.5 of the Plan.

   The Administrator also may, but is not required to, authorize a non-cash payment alternative by one or more of the following methods (subject in each case to compliance with all applicable laws, rules, regulations and listing requirements and further subject to such rules as the Administrator may adopt as to any such payment method):
notice and third party payment in such manner as may be authorized by the Administrator;

• in shares of Common Stock already owned by the Grantee, valued at their fair market value (as determined under the Plan) on the exercise date;

• a reduction in the number of shares of Common Stock otherwise deliverable to the Grantee (valued at their fair market value on the exercise date, as determined under the Plan) pursuant to the exercise of the Option; or

• a “cashless exercise” with a third party who provides simultaneous financing for the purposes of (or who otherwise facilitates) the exercise of the Option.

The Option will qualify as an ISO only if it meets all of the applicable requirements of the Code. The Option may be rendered a nonqualified stock option if the Administrator permits the use of one or more of the non-cash payment alternatives referenced above.

4. Early Termination of Option.

4.1 Possible Termination of Option upon Certain Corporate Events. The Option is subject to termination in connection with certain corporate events as provided in Section 7.2 of the Plan.

4.2 Termination of Option upon a Termination of Grantee’s Employment or Services; Possible Acceleration on Certain Terminations. Subject to earlier termination on the Expiration Date of the Option or pursuant to Section 4.1 above, if the Grantee ceases to be employed by or ceases to provide services to the Corporation or one of its Subsidiaries, the following rules shall apply (the last day that the Grantee is employed by or provides services to the Corporation or a Subsidiary is referred to as the Grantee’s “Severance Date”). Certain capitalized terms used in this Section 4.2 have the meanings ascribed to them in Exhibit A attached hereto.

• Other than as expressly provided below in this Section 4.2, the Option (whether vested or not) shall terminate on the Severance Date.

• If the termination of the Grantee’s employment or services is the result of the Grantee’s Retirement, (a) the Option, to the extent not vested on the Severance Date and scheduled to vest at any time within the three (3)-year period following the Severance Date, shall become fully vested as of the Severance Date, (b) the Grantee will have until the date that is three (3) years after the Grantee’s Severance Date to exercise the Option, provided, however, that any portion of the Option that becomes vested pursuant to the foregoing clause (a) shall become exercisable only at such times as such portion would have otherwise vested pursuant to the original vesting schedule as provided herein had the Grantee’s employment or service not terminated, (c) the Option, to the extent not vested on the Severance Date (after giving effect to the foregoing clause (a)), shall terminate on the Severance Date, and (d) the Option, to the extent exercisable at any time during the three (3)-year period following the Severance Date and not exercised on or prior to the last day of such period, shall terminate at the close of business on the last day of the three (3)-year period.

• If the termination of the Grantee’s employment or services is the result of the Grantee’s death or Disability, (a) the Option, to the extent not vested on the Severance Date, shall become fully vested as of the Severance Date, (b) the Grantee (or his beneficiary or personal representative, as the case may be) will have until the date that is three (3) years after the Grantee’s Severance Date to exercise the Option, and (c) the Option, to the extent exercisable for the three (3)-year period following the Severance Date and not exercised during such period, shall terminate at the close of business on the last day of the three (3)-year period.

Notwithstanding any other provision herein or in the Plan, the Option, to the extent outstanding and not then vested, shall become fully vested if (i) the Grantee’s employment with the Corporation and its Subsidiaries is terminated by the Corporation or a Subsidiary without Cause or by the Grantee for Good Reason, and (ii) such termination occurs at any time within the period commencing six (6) months before a Change of Control and ending twenty-four (24) months after such Change of Control. In the event that, upon the occurrence of a Change of Control, the Grantee is entitled to accelerated vesting of the Option pursuant to this paragraph in connection with a termination of the Grantee’s employment prior to such Change of Control, the Option, to the extent it had not vested and was cancelled or otherwise terminated upon or prior to the date of such Change of Control solely as a result of such termination of employment, shall be reinstated and shall automatically become fully vested, and the Grantee shall be given a reasonable opportunity to exercise such accelerated portion of the Option before it terminates.
In all events the Option is subject to earlier termination on the Expiration Date of the Option or as contemplated by Section 4.1. If the Grantee is rendering services other than as an employee or a director, the Administrator shall be the sole judge of whether the Grantee continues to render services for purposes of this Option Agreement.

Notwithstanding any post-termination exercise period provided for herein or in the Plan, the Option will qualify as an ISO only if it is exercised within the applicable exercise periods for ISOs under, and meets all of the other requirements of, the Code. If the Option is not exercised within the applicable exercise periods for ISOs or does not meet such other requirements, the Option will be rendered a nonqualified stock option.

5. **Non-Transferability.**

The Option and any other rights of the Grantee under this Option Agreement or the Plan are nontransferable and exercisable only by the Grantee, except as set forth in Section 5.7 of the Plan.

6. **Notices.**

Any notice to be given under the terms of this Option Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Grantee at the address last reflected on the Corporation’s payroll records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be delivered in person or shall be enclosed in a properly sealed envelope addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government. Any such notice shall be given only when received, but if the Grantee is no longer employed by or providing services to the Corporation or a Subsidiary, shall be deemed to have been duly given five business days after the date mailed in accordance with the foregoing provisions of this Section 6.

7. **Plan.**

The Option and all rights of the Grantee under this Option Agreement are subject to the terms and conditions of the Plan, incorporated herein by this reference. The Grantee agrees to be bound by the terms of the Plan and this Option Agreement. The Grantee acknowledges having read and understanding the Plan, the Prospectus for the Plan, and this Option Agreement. Unless otherwise expressly provided in other sections of this Option Agreement, provisions of the Plan that confer discretionary authority on the Board or the Administrator do not and shall not be deemed to create any rights in the Grantee unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Board or the Administrator so conferred by appropriate action of the Board or the Administrator under the Plan after the date hereof.

8. **Entire Agreement.**

This Option Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Option Agreement may be amended pursuant to Section 8.6 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Grantee hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof.

9. **Governing Law.**

This Option Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware without regard to conflict of law principles thereunder.

10. **Effect of this Agreement.**

Subject to the Corporation’s right to terminate the Option pursuant to Section 7.2 of the Plan, this Option Agreement shall be assumed by, be binding upon and inure to the benefit of any successor or successors to the Corporation.

11. **Counterparts.**

This Option Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.
12. **Section Headings.**

The section headings of this Option Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.

13. **Clawback Policy.**

The Option is subject to the terms of the Corporation’s recoupment, clawback or similar policy as it may be in effect from time to time, requirements of applicable law, including but not limited to restrictions on executive compensation levels under the Coronavirus Aid, Relief and Economic Security (CARES) Act, any of which could in certain circumstances require forfeiture of the Option and repayment or forfeiture of any shares of Common Stock or other cash or property received with respect to the Option (including any value received from a disposition of the shares acquired upon exercise of the Option).

14. **No Advice Regarding Grant.**

The Grantee is hereby advised to consult with his or her own tax, legal and/or investment advisors with respect to any advice the Grantee may determine is needed or appropriate with respect to the Option (including, without limitation, to determine the foreign, state, local, estate and/or gift tax consequences with respect to the Option and any shares that may be acquired upon exercise of the Option). Neither the Corporation nor any of its officers, directors, affiliates or advisors makes any representation (except for the terms and conditions expressly set forth in this Option Agreement) or recommendation with respect to the Option. Except for the withholding rights contemplated by Section 3 above and Section 8.5 of the Plan, the Grantee is solely responsible for any and all tax liability that may arise with respect to the Option and any shares that may be acquired upon exercise of the Option.
EXHIBIT A

DEFINITIONS

For purposes of the Option, the following terms shall have the meanings set forth in this Exhibit A.

“Cause” means the occurrence of any of the following:

(i) the Grantee is convicted of, or has pled guilty or nolo contendere to, a felony (other than traffic related offenses or as a result of vicarious liability); or

(ii) the Grantee has engaged in acts of fraud, material dishonesty or other acts of willful misconduct in the course of his duties to the Corporation or any of its Subsidiaries; or

(iii) the Grantee willfully and repeatedly fails to perform or uphold his duties to the Corporation or any of its Subsidiaries; or

(iv) the Grantee willfully fails to comply with reasonable directives of the Board which are communicated to him or her in writing;

provided, however, that no act or omission by the Grantee shall be deemed to be “willful” if the Grantee reasonably believed in good faith that such acts or omissions were in the best interests of the Corporation.

“Change of Control” means the occurrence of any of the following:

(i) the consummation of:
   
   (A) any consolidation or merger of the Corporation in which the Corporation is not the continuing or surviving corporation or pursuant to which shares of common stock of the Corporation would be converted into cash, securities or other property, other than a merger of the Corporation in which the holders of common stock of the Corporation immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger; or
   
   (B) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, the assets of the Corporation.

(ii) at any time during a period of twenty-four (24) months, fewer than a majority of the members of the Board are Incumbent Directors.

   “Incumbent Directors” means (A) individuals who constitute the Board at the beginning of such period; and (B) individuals who were nominated or elected by all of, or a committee composed entirely of, the individuals described in (A); and (C) individuals who were nominated or elected by individuals described in (B).

(iii) any Person (meaning any individual, entity or group within the meaning of Section 13(d)(3) or 14(d) of the Exchange Act) shall, as a result of a tender or exchange offer, open market purchases, privately-negotiated purchases or otherwise, become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act), directly or indirectly, of the then-outstanding securities of the Corporation ordinarily (and apart from rights accruing under special circumstances) having the right to vote in the election of members of the Board ("Voting Securities" to be calculated as provided in paragraph (d) of Rule 13d-3 in the case of rights to acquire common stock of the Corporation) representing 20% or more of the combined voting power of the then-outstanding Voting Securities.

(iv) approval by the stockholders of the Corporation of any plan or proposal for the liquidation or dissolution of the Corporation.

Unless the Board shall determine otherwise, a Change of Control shall not be deemed to have occurred by reason of any corporate reorganization, merger, consolidation, transfer of assets, liquidating distribution or other transaction entered into solely by and between the Corporation and any affiliate thereof, provided
such transaction has been approved by at least two-thirds (2/3) of the Incumbent Directors (as defined above) then in office and voting.

Notwithstanding the foregoing, in no event shall a transaction or other event that occurred prior to the date of grant of the Option constitute a Change of Control, and no Change of Control after the first Change of Control to occur after the grant date shall be considered for purposes of the Option.

“Good Reason” means, without the Grantee’s express written consent, the occurrence of any one or more of the following:

(i) a material reduction in the Grantee’s annual base salary;

(ii) a material diminution or reduction of the Grantee’s authority, duties, or responsibilities;

(iii) a material change in the geographic location at which the Grantee must perform services; or

(iv) any material breach by the Corporation of any other provision of this Agreement;

provided, however, that any such condition shall not constitute “Good Reason” unless both (x) the Grantee provides written notice to the Corporation of the condition claimed to constitute Good Reason within ninety (90) days of the initial existence of such condition, and (y) the Corporation fails to remedy such condition within thirty (30) days of receiving such written notice thereof; and provided, further, that in all events the termination of the Grantee’s employment with the Corporation shall not be treated as a termination for “Good Reason” unless such termination occurs not more than two (2) years following the initial existence of the condition claimed to constitute “Good Reason.”

“Retirement” means that, as of the Grantee’s Severance Date, the Grantee either (i) has attained age 55 with at least five (5) full years of service with the Corporation and its Subsidiaries, or (ii) has attained age 60, or (iii) is a participant in and is entitled to commence a benefit under a defined benefit plan sponsored by the Corporation or any of its Subsidiaries and has at least 10 years of service with the Corporation and its Subsidiaries.

“Disability” means a “permanent and total disability” (within the meaning of Section 22(e)(3) of the Code or as otherwise determined by the Administrator).
THIS PERFORMANCE STOCK UNIT AWARD AGREEMENT (this “Agreement”) dated [AWARD DATE] by and between ALASKA AIR GROUP, INC., a Delaware corporation (the “Corporation”), and [PARTICIPANT NAME] (the “Participant”) evidences the award of stock units (the “Award”) granted by the Corporation to the Participant as to the number of stock units (the “Stock Units”) first set forth below.

<table>
<thead>
<tr>
<th>Number of Stock Units¹:</th>
<th>Award Date:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Performance Period:</td>
<td></td>
</tr>
</tbody>
</table>

**Vesting** The Award shall vest and become nonforfeitable as provided in Section 2 of the attached Terms and Conditions of Performance Stock Unit Award (the “Terms”).

The Award is granted under the Alaska Air Group, Inc. 2016 Performance Incentive Plan (the “Plan”) and subject to the Terms attached to this Agreement (incorporated herein by this reference) and to the Plan. The Award has been granted to the Participant in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Participant. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Award set forth herein. The Participant acknowledges receipt of a copy of the Terms, the Plan and the Prospectus for the Plan.

ALASKA AIR GROUP, INC.
A Delaware Corporation

Benito Minicucci
Chief Executive Officer

¹ Subject to adjustment under Section 7.1 of the Plan.
1. **Stock Units.** As used herein, the term “stock unit” shall mean a non-voting unit of measurement which is deemed for bookkeeping purposes to be equivalent to one outstanding share of the Corporation’s Common Stock (subject to adjustment as provided in Section 7.1 of the Plan) solely for purposes of the Plan and this Agreement. The Stock Units shall be used solely as a device for the determination of the payment to eventually be made to the Participant if such Stock Units vest pursuant to this Agreement. The Stock Units shall not be treated as property or as a trust fund of any kind.

2. **Performance-Based and Time-Based Vesting.** Subject to Section 7 below, the Award shall vest and become nonforfeitable based on the achievement of the performance goals established by the Administrator and set forth on Exhibit A attached hereto for the Performance Period identified on the cover page of this Agreement. The number of Stock Units that shall be eligible to vest under this Agreement shall be determined based on the level of results or achievement of targets during the Performance Period for each of the performance goals as set forth in Exhibit A. Except as otherwise expressly provided in Section 7(c), any Stock Units subject to the Award that do not vest on or before the last day of the Performance Period pursuant to the provisions hereof (and have not previously terminated) shall terminate as of the last day of the Performance Period.

3. **Continuance of Employment/Service Required; No Employment/Service Commitment.** Except as expressly provided in Section 7, the Participant is required to remain in employment or service with the Corporation or one of its Subsidiaries through the applicable vesting date as a condition to the vesting of any portion of the Award and the rights and benefits under this Agreement. Except as expressly provided in Section 7(b) below, employment or service for only a portion of the vesting period, even if a substantial portion, will not entitle the Participant to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of employment or services as provided in Section 7 below or under the Plan.

Nothing contained in this Agreement or the Plan constitutes an employment or service commitment by the Corporation, affects the Participant’s status as an employee at will who is subject to termination without cause, confers upon the Participant any right to remain employed by or in service to the Corporation, interferes in any way with the right of the Corporation at any time to terminate such employment or services, or affects the right of the Corporation to increase or decrease the Participant’s other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Participant without his or her consent thereto.

4. **Limitations on Rights Associated with Units.** The Participant shall have no rights as a stockholder of the Corporation, no dividend rights and no voting rights, with respect to the Stock Units and any shares of Common Stock underlying or issuable in respect of such Stock Units until such shares of Common Stock are actually issued to and held of record by the Participant. No adjustments will be made for dividends or other rights of a holder for which the record date is prior to the date of issuance of the stock certificate.

5. **Restrictions on Transfer.** Neither the Award, nor any interest therein or amount or shares payable in respect thereof may be sold, assigned, transferred, pledged or otherwise disposed of, alienated or encumbered, either voluntarily or involuntarily. The transfer restrictions in the preceding sentence shall not apply to (a) transfers to the Corporation, or (b) transfers by will or the laws of descent and distribution.

6. **Timing and Manner of Payment of Stock Units.** On or as soon as administratively practical following the date on which any Stock Units subject to this Award vest pursuant to Section 2 or Section 7(b) (and in all events within two and one-half months after such vesting event), the Corporation shall deliver to the Participant a number of shares of Common Stock (either by delivering one or more certificates for such shares or by entering such shares in book entry form, as determined by the Corporation in its discretion) equal to the number of Stock Units subject to this Award that vest on such date. The Corporation’s obligation to deliver shares of Common Stock or otherwise make payment with respect to vested Stock Units is subject to the condition precedent that the Participant or other person entitled under the Plan to receive any shares with respect to the vested Stock Units deliver to the Corporation any representations or other documents or assurances that the Administrator may deem necessary or desirable to assure compliance with all applicable legal and accounting requirements. The Participant shall have no further rights with respect to any Stock Units that are paid or that terminate pursuant to Section 7.

7. **Effect of Termination of Employment or Service.**

(a) **General.** Except as expressly provided in Sections 7(b) and 7(c), if the Participant’s employment or service with the Corporation or one of its Subsidiaries terminates for any reason prior to the last day of the Performance Period (the last day that the Participant is employed by or provides services to the Corporation or a Subsidiary is referred to as the Participant’s “Severance Date”), the Participant’s Stock Units...
shall terminate on the Participant’s Severance Date. If any unvested Stock Units are terminated hereunder (whether pursuant to this Section 7 or otherwise), such Stock Units shall automatically terminate and be cancelled as of the applicable termination date without payment of any consideration by the Corporation and without any other action by the Participant, or the Participant’s beneficiary or personal representative, as the case may be, and the Participant shall have no right with respect thereto or in respect thereof. If the Participant is rendering services other than as an employee or a director, the Administrator shall be the sole judge of whether the Participant continues to render services for purposes of this Agreement.

(b) Death, Disability, Retirement. Notwithstanding Section 7(a), if the Participant’s Separation from Service occurs during the Performance Period as a result of the Participant’s death, Disability or Retirement, (i) the Participant’s Stock Units shall be subject to pro-rata vesting such that the number of Stock Units subject to the Award (if any) that shall become vested as of the conclusion of the Performance Period shall equal (A) the number of Stock Units subject to the Award that would have vested as of the conclusion of the Performance Period in accordance with Section 2 above (assuming no termination of the Participant’s employment or service had occurred), multiplied by (B) a fraction, the numerator of which shall be the number of calendar days that elapsed during the Performance Period through the Participant’s Severance Date, and the denominator of which shall be the number of calendar days in the Performance Period; and (ii) any Stock Units subject to the Award that do not vest in accordance with the foregoing clause (i) shall terminate as of the last day of the Performance Period. If a Participant’s employment or service is terminated in the circumstances described in Section 7(c) and in the circumstances described in this Section 7(b), the provisions of Section 7(c) shall control.

(c) Certain Terminations in Connection with Change of Control. Notwithstanding Section 7(a), the Award, to the extent then outstanding and not vested, shall become fully vested with respect to the number of Stock Units set forth on the cover page of this Agreement (subject to adjustment under Section 7.1 of the Plan) if (i) the Participant’s Severance Date occurs as a result of a termination of the Participant’s employment by the Corporation or one of its Subsidiaries without Cause or by the Participant for Good Reason, and (ii) the Participant’s Severance Date occurs both during the Performance Period and during the period commencing six (6) months before a Change of Control and ending twenty-four (24) months after such Change of Control. In the event that the Participant’s Severance Date occurred before the Change of Control and the Participant is entitled to accelerated vesting of the Award pursuant to this Section 7(c) in connection with such Change of Control, the Award, to the extent it had not vested and was purported to have terminated on the Participant’s Severance Date pursuant to Section 7(a), shall be reinstated (as though no such termination of employment had occurred) and shall automatically become fully vested as of the date of the Change of Control (even if after the Performance Period but only if the termination of employment occurred during the Performance Period). For avoidance of doubt, if the Award is accelerated under this Section 7(c), the performance-based vesting provisions of Section 2 shall be disregarded.

(d) Defined Terms. For purposes of the Award, the terms “Cause,” “Change of Control,” “Disability,” “Good Reason” and “Retirement” have the meanings ascribed to such terms on Exhibit B hereto.

8. Adjustments Upon Specified Events. Upon the occurrence of certain events relating to the Corporation’s stock contemplated by Section 7.1 of the Plan (including, without limitation, an extraordinary cash dividend on such stock), the Administrator shall make adjustments in accordance with such section in the number of Stock Units then outstanding and the number and kind of securities that may be issued in respect of the Award. No such adjustment shall be made with respect to any ordinary cash dividend paid on the Common Stock. For purposes of clarity, the provisions of Exhibit A control as to any adjustment of the performance goals, criteria or metrics.

9. Tax Withholding. Subject to Section 8.1 of the Plan, upon any distribution of shares of Common Stock in respect of the Stock Units, the Corporation shall automatically reduce the number of shares to be delivered by (or otherwise reacquire) the appropriate number of whole shares, valued at their then fair market value (determined in accordance with the applicable provisions of the Plan), to satisfy any withholding obligations of the Corporation with respect to such distribution of shares at the minimum applicable withholding rates. In the event that the Corporation cannot legally satisfy such withholding obligations by such reduction of shares, or in the event of a cash payment or any other withholding event in respect of the Stock Units, the Corporation shall be entitled to require a cash payment by or on behalf of the Participant and/or to deduct from other compensation payable to the Participant any sums required by federal, state or local tax law to be withheld with respect to such distribution or payment.

10. Notices. Any notice to be given under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Participant at the Participant’s last address reflected on the Corporation’s records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be given only when received, but if the Participant is no longer employed by or providing services to the Corporation or a Subsidiary, shall be deemed to
11. **Plan.** The Award and all rights of the Participant under this Agreement are subject to the terms and conditions of the provisions of the Plan, incorporated herein by reference. The Participant agrees to be bound by the terms of the Plan and this Agreement. The Participant acknowledges having read and understanding the Plan, the Prospectus for the Plan, and this Agreement. Unless otherwise expressly provided in other sections of this Agreement, provisions of the Plan that confer discretionary authority on the Board or the Administrator do not (and shall not be deemed to) create any rights in the Participant unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Board or the Administrator so conferred by appropriate action of the Board or the Administrator under the Plan after the date hereof.

12. **Entire Agreement.** This Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Agreement may be amended pursuant to Section 8.6 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Participant hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof.

13. **Limitation on Participant’s Rights.** Participation in the Plan confers no rights or interests other than as herein provided. This Agreement creates only a contractual obligation on the part of the Corporation as to amounts payable and shall not be construed as creating a trust. Neither the Plan nor any underlying program, in and of itself, has any assets. The Participant shall have only the rights of a general unsecured creditor of the Corporation with respect to amounts credited and benefits payable, if any, with respect to the Stock Units, and rights no greater than the right to receive the Common Stock as a general unsecured creditor with respect to Stock Units, as and when payable hereunder.

14. **Counterparts.** This Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

15. **Section Headings.** The section headings of this Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.

16. **Governing Law.** This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware without regard to conflict of law principles thereunder.

17. **Section 409A.**

(a) It is intended that the terms of the Award shall either be exempt from or comply with Section 409A of the Code (including the Treasury regulations and other published guidance relating thereto) (“Code Section 409A”) so as not to subject the Participant to payment of any additional tax, penalty or interest imposed under Code Section 409A. The provisions of this Agreement shall be construed and interpreted to avoid the imputation of any such additional tax, penalty or interest under Code Section 409A yet preserve (to the nearest extent reasonably possible) the intended benefit payable to the Participant.

(b) Notwithstanding any provision of this Agreement to the contrary, if the Participant is a “specified employee” within the meaning of Treasury Regulation Section 1.409A-1(i) as of the date of the Participant’s Separation from Service, the Participant shall not be entitled to any payment or benefit pursuant to Section 7(b) or Section 7(c) hereof until the earlier of (i) the date which is six (6) months after the Participant’s Separation from Service for any reason other than death, or (ii) the date of the Participant’s death. Any amounts otherwise payable to the Participant upon or in the six (6) month period following the Participant’s Separation from Service that are not so paid by reason of this Section 17(c) shall be paid (without interest) as soon as practicable (and in all events within thirty (30) days) after the date that is six (6) months after the Participant’s Separation from Service (or, if earlier, as soon as practicable, and in all events within thirty (30) days, after the date of the Participant’s death). The provisions of this Section 17(b) shall only apply if, and to the extent, required to avoid the imputation of any tax, penalty or interest pursuant to Code Section 409A. For purposes hereof, “Separation from Service” means a “separation from service” within the meaning of Treasury Regulation Section 1.409A-1(h)(1), without regard to the optional alternative definitions available thereunder (i.e. generally a termination of the Participant’s employment with the Corporation or a Subsidiary).

18. **Clawback Policy.** The Stock Units are subject to the terms of the Corporation’s recoupment, clawback or similar policy as it may be in effect from time to time, as well as requirements of applicable law, including but not limited to restrictions on executive compensation levels under the Coronavirus Aid, Relief and Economic Security (CARES) Act, any of which could in certain circumstances require repayment or forfeiture of
the Stock Units or any shares of Common Stock or other cash or property received with respect to the Stock Units (including any value received from a disposition of the shares acquired upon payment of the Stock Units).

19. **No Advice Regarding Grant.** The Participant is hereby advised to consult with his or her own tax, legal and/or investment advisors with respect to any advice the Participant may determine is needed or appropriate with respect to the Stock Units (including, without limitation, to determine the foreign, state, local, estate and/or gift tax consequences with respect to the Award). Neither the Corporation nor any of its officers, directors, affiliates or advisors makes any representation (except for the terms and conditions expressly set forth in this Agreement) or recommendation with respect to the Award. Except for the withholding rights set forth in Section 9 above, the Participant is solely responsible for any and all tax liability that may arise with respect to the Award.
EXHIBIT A TO ___________________ AWARD

PERFORMANCE GOALS

______________________________ Performance Period
EXHIBIT B
DEFINITIONS

For purposes of the Award, the following terms shall have the meanings set forth in this Exhibit B.

“Cause” means the occurrence of any of the following:

(i) the Participant is convicted of, or has pled guilty or nolo contendere to, a felony (other than traffic related offenses or as a result of vicarious liability); or

(ii) the Participant has engaged in acts of fraud, material dishonesty or other acts of willful misconduct in the course of his or her duties to the Corporation; or

(iii) the Participant willfully and repeatedly fails to perform or uphold his or her duties to the Corporation; or

(iv) the Participant willfully fails to comply with reasonable directives of the Board which are communicated to him or her in writing;

provided, however, that no act or omission by the Participant shall be deemed to be “willful” if the Participant reasonably believed in good faith that such acts or omissions were in the best interests of the Corporation.

“Change of Control” means the occurrence of any of the following:

(i) the consummation of:
   
   (A) any consolidation or merger of the Corporation in which the Corporation is not the continuing or surviving corporation or pursuant to which shares of common stock of the Corporation would be converted into cash, securities or other property, other than a merger of the Corporation in which the holders of common stock of the Corporation immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger; or
   
   (B) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, the assets of the Corporation;

(ii) at any time during a period of twenty-four (24) months, fewer than a majority of the members of the Board are Incumbent Directors. “Incumbent Directors” means (A) individuals who constitute the Board at the beginning of such period; and (B) individuals who were nominated or elected by all of, or a committee composed entirely of, the individuals described in (A); and (C) individuals who were nominated or elected by individuals described in (B);

(iii) any Person (meaning any individual, entity or group within the meaning of Section 13(d)(3) or 14(d) of the Exchange Act) shall, as a result of a tender or exchange offer, open market purchases, privately-negotiated purchases or otherwise, become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) of 20% or more of the then-outstanding securities of the Corporation (other than securities acquired from the Corporation or its subsidiaries in the ordinary course of business); or

(iv) approval by the stockholders of the Corporation of any plan or proposal for the liquidation or dissolution of the Corporation.

Unless the Board shall determine otherwise, a Change of Control shall not be deemed to have occurred by reason of any corporate reorganization, merger, consolidation, transfer of assets, liquidating distribution or other transaction entered into solely by and between the Corporation and any affiliate thereof, provided
such transaction has been approved by at least two-thirds (2/3) of the Incumbent Directors (as defined above) then in office and voting.

Notwithstanding the foregoing, in no event shall a transaction or other event that occurred prior to the date of grant of the Award constitute a Change of Control, and no Change of Control after the first Change of Control to occur after the grant date shall be considered for purposes of the Award.

“Disability” means a “permanent and total disability” (within the meaning of Section 22(e)(3) of the Code or as otherwise determined by the Administrator).

“Good Reason” means, without the Participant’s express written consent, the occurrence of any one or more of the following:

- a material reduction in the Participant’s annual base salary;
- a material diminution or reduction of the Participant’s authority, duties, or responsibilities;
- a material change in the geographic location at which the Participant must perform services; or
- any material breach by the Corporation of any other provision of this Agreement;

provided, however, that any such condition shall not constitute “Good Reason” unless both (x) the Participant provides written notice to the Corporation of the condition claimed to constitute Good Reason within ninety (90) days of the initial existence of such condition, and (y) the Corporation fails to remedy such condition within thirty (30) days of receiving such written notice thereof; and provided, further, that in all events the termination of the Participant’s employment with the Corporation shall not be treated as a termination for “Good Reason” unless such termination occurs not more than two (2) years following the initial existence of the condition claimed to constitute “Good Reason.”

“Retirement” means that, as of the Participant’s Severance Date, the Participant either (i) has attained age 55 with at least five (5) full years of service with the Corporation and its Subsidiaries, or (ii) has attained age 60, or (iii) is a participant in and is entitled to commence a benefit under a defined benefit plan sponsored by the Corporation or any of its Subsidiaries and has at least 10 years of service with the Corporation and its Subsidiaries.

“Separation from Service” means a “separation from service” within the meaning of Treasury Regulation Section 1.409A-1(h)(1), without regard to the optional alternative definitions available thereunder (i.e. generally a termination of the Participant’s employment with the Corporation or a Subsidiary).
ALASKA AIR GROUP, INC.
2016 PERFORMANCE INCENTIVE PLAN
STOCK UNIT AWARD AGREEMENT

THIS STOCK UNIT AWARD AGREEMENT (this “Agreement”) dated [AWARD DATE], by and between ALASKA AIR GROUP, INC., a Delaware corporation (the “Corporation”), and [PARTICIPANT NAME] (the “Participant”) evidences the award of restricted stock units (the “Award”) granted by the Corporation to the Participant as to the number of stock units (the “Stock Units”) first set forth below.

<table>
<thead>
<tr>
<th>Number of Stock Units¹:</th>
<th>Award Date:</th>
</tr>
</thead>
</table>

Vesting The Award shall vest and become nonforfeitable with respect to 100% of the total number of Stock Units subject to the Award on the third anniversary of the Award Date (the “Vesting Date”).

The Award is granted under the Alaska Air Group, Inc. 2016 Performance Incentive Plan (the “Plan”) and subject to the Terms and Conditions of Stock Unit Award (the “Terms”) attached to this Agreement (incorporated herein by this reference) and to the Plan. The Award has been granted to the Participant in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Participant. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Award set forth herein. The Participant acknowledges receipt of a copy of the Terms, the Plan and the Prospectus for the Plan.

ALASKA AIR GROUP, INC.
A Delaware Corporation

Benito Minicucci
Chief Executive Officer

¹ Subject to adjustment under Section 7.1 of the Plan.
Stock Units. As used herein, the term “stock unit” shall mean a non-voting unit of measurement which is deemed for bookkeeping purposes to be equivalent to one outstanding share of the Corporation’s Common Stock (subject to adjustment as provided in Section 7.1 of the Plan) solely for purposes of the Plan and this Agreement. The Stock Units shall be used solely as a device for the determination of the payment to eventually be made to the Participant if such Stock Units vest pursuant to this Agreement. The Stock Units shall not be treated as property or as a trust fund of any kind.

Vesting. Subject to Section 7 below, the Award shall vest and become nonforfeitable as set forth on the cover page of this Agreement.

Continuance of Employment/Service Required; No Employment/Service Commitment. Except as expressly provided in Section 7 below, the Participant is required to remain in employment or service with the Corporation or one of its Subsidiaries through the applicable Vesting Date as a condition to the vesting of the applicable installment of the Award and the rights and benefits under this Agreement. Employment or service for only a portion of the vesting period, even if a substantial portion, will not entitle the Participant to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of employment or services as provided in Section 7 below or under the Plan.

Nothing contained in this Agreement or the Plan constitutes an employment or service commitment by the Corporation, affects the Participant’s status as an employee at will who is subject to termination without cause, confers upon the Participant any right to remain employed by or in service to the Corporation or any Subsidiary, interferes in any way with the right of the Corporation or any Subsidiary at any time to terminate such employment or services, or affects the right of the Corporation or any Subsidiary to increase or decrease the Participant’s other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Participant without his or her consent thereto.

Limitations on Rights Associated with Units. The Participant shall have no rights as a stockholder of the Corporation, no dividend rights and no voting rights, with respect to the Stock Units and any shares of Common Stock underlying or issuable in respect of such Stock Units until such shares of Common Stock are actually issued to and held of record by the Participant. No adjustments will be made for dividends or other rights of a holder for which the record date is prior to the date of issuance of the stock certificate.

Restrictions on Transfer. Neither the Award, nor any interest therein or amount or shares payable in respect thereof may be sold, assigned, transferred, pledged or otherwise disposed of, alienated or encumbered, either voluntarily or involuntarily. The transfer restrictions in the preceding sentence shall not apply to (a) transfers to the Corporation, or (b) transfers by will or the laws of descent and distribution.

Timing and Manner of Payment of Stock Units. As soon as administratively practicable after the applicable Vesting Date (and in no event later than two and one-half (2 ½) months after such Vesting Date), the Corporation shall deliver to the Participant a number of shares of Common Stock (either by delivering one or more certificates for such shares or by entering such shares in book entry form, as determined by the Corporation in its discretion) equal to the number of Stock Units subject to this Award that vest on the Vesting Date; provided, however, that if any Stock Units vest pursuant to Section 7 of this Agreement in connection with the Participant’s Separation from Service (as defined in Exhibit A attached hereto), the payment of such vested Stock Units shall be made within thirty (30) days after the date that is six (6) months after such Separation from Service. The Corporation’s obligation to deliver shares of Common Stock or otherwise make payment with respect to vested Stock Units is subject to the condition precedent that the Participant or other person entitled under the Plan to receive any shares with respect to the vested Stock Units deliver to the Corporation any representations or other documents or assurances that the Administrator may deem necessary or desirable to assure compliance with all applicable legal and accounting requirements. The Participant shall have no further rights with respect to any Stock Units that are paid or that terminate pursuant to Section 7.

Effect of Termination of Employment or Service. (a) General. Except as expressly provided below in this Section 7, the Participant’s Stock Units shall terminate to the extent such units have not become vested prior to the first date the Participant is no longer employed by or providing services to the Corporation or one of its Subsidiaries, regardless of the reason for the termination of the Participant’s employment or service with the Corporation or a Subsidiary (the last day that the Participant is employed by or provides services to the Corporation or a Subsidiary is referred to as the Participant’s “Severance Date”). If any unvested Stock Units are terminated hereunder, such Stock Units shall automatically terminate and be cancelled as of the applicable termination date without payment of any consideration by the
Corporation and without any other action by the Participant, or the Participant’s beneficiary or personal representative, as the case may be. If the Participant is rendering services other than as an employee or a director, the Administrator shall be the sole judge of whether the Participant continues to render services for purposes of this Agreement.

(b) **Termination Due to Death, Disability or Retirement.** Notwithstanding Section 7(a), if the Participant’s Separation from Service is the result of the Participant’s death, Disability or Retirement, the Participant’s Stock Units, to the extent such units are outstanding and not then vested, shall become fully vested as of the Participant’s Severance Date and shall be paid in accordance with Section 6.

(c) **Certain Terminations in Connection with Change of Control.** Notwithstanding Section 7(a), the Participant’s Stock Units, to the extent such units are outstanding and not then vested, shall become fully vested on the Participant’s Severance Date and shall be paid in accordance with Section 6 if (i) the Participant’s Separation from Service is the result of a termination of the Participant’s employment by the Corporation or one of its Subsidiaries without Cause or by the Participant for Good Reason, and (ii) such termination of employment occurs at any time within the period commencing six (6) months before a Change of Control and ending twenty-four (24) months after such Change of Control. In the event that the Participant’s Severance Date occurred before the Change of Control and the Participant is entitled to accelerated vesting of the Award pursuant to this Section 7(c) in connection with such Change of Control, the Award, to the extent it had not vested and was purported to have terminated on the Participant’s Severance Date pursuant to Section 7(a), shall be reinstated (as though no such termination of employment had occurred) and shall automatically become fully vested as of the date of the Change of Control.

(d) **Defined Terms.** For purposes of the Award, the terms “Cause,” “Change of Control,” “Disability,” “Good Reason” and “Retirement” have the meanings ascribed to such terms on Exhibit A hereto.

8. **Adjustments Upon Specified Events; Change of Control.**

(a) Upon the occurrence of certain events relating to the Corporation’s stock contemplated by Section 7.1 of the Plan (including, without limitation, an extraordinary cash dividend on such stock), the Administrator shall make adjustments in accordance with such section in the number of Stock Units then outstanding and the number and kind of securities that may be issued in respect of the Award. No such adjustment shall be made with respect to any ordinary cash dividend paid on the Common Stock.

(b) Notwithstanding anything in Section 7.2 of the Plan to the contrary but subject to the next sentence, to the extent the Award constitutes “nonqualified deferred compensation” within the meaning of Section 409A of the Code, no change in the timing of payment of the Award may be made pursuant to Section 7.2 of the Plan. In connection with a Change of Control that constitutes a “change in the ownership or effective control” of the Corporation or a “change in the ownership of a substantial portion of the assets” of the Corporation (in each case within the meaning of Section 409A of the Code), the Administrator may terminate and liquidate the Award and distribute all vested benefits hereunder in accordance with the requirements of Treasury Regulation 1.409A-3(j)(4)(ix)(A), (B) or (C) promulgated under Section 409A of the Code (or any similar successor provision), which regulation generally provides that a deferred compensation arrangement may be terminated within twelve (12) months following a dissolution or change in control of the Corporation or may be terminated if the Corporation also terminates all other similar deferred compensation arrangements and distributes all benefits under the Award not less than twelve (12) months and not more than twenty-four (24) months following such termination. For clarity, in the event of any such change in ownership referred to in the preceding sentence in connection with which the Administrator has so provided for the termination and liquidation of the Award, any Stock Units subject to the Award that are outstanding and otherwise unvested immediately prior to such change in ownership shall be deemed fully vested upon (or, as necessary to give effect to such acceleration, immediately prior to, such change in ownership).

9. **Tax Withholding.** Subject to Section 8.1 of the Plan, upon any distribution of shares of Common Stock in respect of the Stock Units, the Corporation shall automatically reduce the number of shares to be delivered by (or otherwise reacquire) the appropriate number of whole shares, valued at their then fair market value (determined in accordance with the applicable provisions of the Plan), to satisfy any withholding obligations of the Corporation or its Subsidiaries with respect to such distribution of shares at the minimum applicable withholding rates. In the event that the Corporation cannot legally satisfy such withholding obligations by such reduction of shares, or in the event of a cash payment or any other withholding event in respect of the Stock Units, the Corporation (or a Subsidiary) shall be entitled to require a cash payment by or on behalf of the Participant and/or to deduct from other compensation payable to the Participant any sum required by federal, state or local tax law to be withheld with respect to such distribution or payment.
10. **Notices.** Any notice to be given under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Participant at the Participant’s last address reflected on the Corporation’s records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be given only when received, but if the Participant is no longer employed by or providing services to the Corporation or a Subsidiary, shall be deemed to have been duly given by the Corporation when enclosed in a properly sealed envelope addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government.

11. **Plan.** The Award and all rights of the Participant under this Agreement are subject to the terms and conditions of the provisions of the Plan, incorporated herein by reference. The Participant agrees to be bound by the terms of the Plan and this Agreement. The Participant acknowledges having read and understanding the Plan, the Prospectus for the Plan, and this Agreement. Unless otherwise expressly provided in other sections of this Agreement, provisions of the Plan that confer discretionary authority on the Board or the Administrator do not (and shall not be deemed to) create any rights in the Participant unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Board or the Administrator so conferred by appropriate action of the Board or the Administrator under the Plan after the date hereof.

12. **Entire Agreement.** This Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Agreement may be amended pursuant to Section 8.6 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Participant hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof.

13. **Limitation on Participant’s Rights.** Participation in the Plan confers no rights or interests other than as herein provided. This Agreement creates only a contractual obligation on the part of the Corporation as to amounts payable and shall not be construed as creating a trust. Neither the Plan nor any underlying program, in and of itself, has any assets. The Participant shall have only the rights of a general unsecured creditor of the Corporation with respect to amounts credited and benefits payable, if any, with respect to the Stock Units, and rights no greater than the right to receive the Common Stock as a general unsecured creditor with respect to Stock Units, as and when payable hereunder.

14. **Counterparts.** This Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

15. **Section Headings.** The section headings of this Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.

16. **Governing Law.** This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Delaware without regard to conflict of law principles thereunder.

17. **Construction.** It is intended that the terms of the Award shall either be exempt from or comply with Section 409A of the Code (including the Treasury regulations and other published guidance relating thereto ("Code Section 409A")) so as not to subject the Participant to payment of any additional tax, penalty or interest imposed under Code Section 409A. The provisions of this Agreement shall be construed and interpreted to avoid the imputation of any such additional tax, penalty or interest under Code Section 409A yet preserve (to the nearest extent reasonably possible) the intended benefit payable to the Participant.

18. **Clawback Policy.** The Stock Units are subject to the terms of the Corporation’s recoupment, clawback or similar policy as it may be in effect from time to time, requirements of applicable law, including but not limited to restrictions on executive compensation levels under the Coronavirus Aid, Relief and Economic Security (CARES) Act, any of which could in certain circumstances require repayment or forfeiture of the Stock Units or any shares of Common Stock or other cash or property received with respect to the Stock Units (including any value received from a disposition of the shares acquired upon payment of the Stock Units).

19. **No Advice Regarding Grant.** The Participant is hereby advised to consult with his or her own tax, legal and/or investment advisors with respect to any advice the Participant may determine is needed or appropriate with respect to the Stock Units (including, without limitation, to determine the foreign, state, local, estate and/or gift tax consequences with respect to the Award). Neither the Corporation nor any of its officers, directors, affiliates or advisors makes any representation (except for the terms and conditions expressly set forth in this Agreement) or recommendation with respect to the Award. Except for the withholding rights set forth in
Section 9 above, the Participant is solely responsible for any and all tax liability that may arise with respect to the Award.
EXHIBIT A
DEFINITIONS

For purposes of the Award, the following terms shall have the meanings set forth in this Exhibit A.

“Cause” means the occurrence of any of the following:

(i) the Participant is convicted of, or has pled guilty or nolo contendere to, a felony (other than traffic related offenses or as a result of vicarious liability); or

(ii) the Participant has engaged in acts of fraud, material dishonesty or other acts of willful misconduct in the course of his or her duties to the Corporation or any of its Subsidiaries; or

(iii) the Participant willfully and repeatedly fails to perform or uphold his or her duties to the Corporation or any of its Subsidiaries; or

(iv) the Participant willfully fails to comply with reasonable directives of the Board which are communicated to him or her in writing;

provided, however, that no act or omission by the Participant shall be deemed to be “willful” if the Participant reasonably believed in good faith that such acts or omissions were in the best interests of the Corporation.

“Change of Control” means the occurrence of any of the following:

(i) the consummation of:

(A) any consolidation or merger of the Corporation in which the Corporation is not the continuing or surviving corporation or pursuant to which shares of common stock of the Corporation would be converted into cash, securities or other property, other than a merger of the Corporation in which the holders of common stock of the Corporation immediately prior to the merger have the same proportionate ownership of common stock of the surviving corporation immediately after the merger; or

(B) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, the assets of the Corporation;

(ii) at any time during a period of twenty-four (24) months, fewer than a majority of the members of the Board are Incumbent Directors. “Incumbent Directors” means (A) individuals who constitute the Board at the beginning of such period; and (B) individuals who were nominated or elected by all of, or a committee composed entirely of, the individuals described in (A); and (C) individuals who were nominated or elected by individuals described in (B);

(iii) any Person (meaning any individual, entity or group within the meaning of Section 13(d)(3) or 14(d) of the Exchange Act) shall, as a result of a tender or exchange offer, open market purchases, privately-negotiated purchases or otherwise, become the beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) directly or indirectly, of the then-outstanding securities of the Corporation; or (Voting Securities”) to be calculated as provided in paragraph (d) of Rule 13d-3 in the case of rights to acquire common stock of the Corporation) representing 20% or more of the combined voting power of the then-outstanding Voting Securities; or

(iv) approval by the stockholders of the Corporation of any plan or proposal for the liquidation or dissolution of the Corporation.

Unless the Board shall determine otherwise, a Change of Control shall not be deemed to have occurred by reason of any corporate reorganization, merger, consolidation, transfer of assets, liquidating distribution or other transaction entered into solely by and between the Corporation and any affiliate thereof, provided
such transaction has been approved by at least two-thirds (2/3) of the Incumbent Directors (as defined above) then in office and voting.

Notwithstanding the foregoing, in no event shall a transaction or other event that occurred prior to the date of grant of the Award constitute a Change of Control, and no Change of Control after the first Change of Control to occur after the grant date shall be considered for purposes of the Award.

“Disability” means a “permanent and total disability” (within the meaning of Section 22(e)(3) of the Code or as otherwise determined by the Administrator).

“Good Reason” means, without the Participant’s express written consent, the occurrence of any one or more of the following:

(i) a material reduction in the Participant’s annual base salary;
(ii) a material diminution or reduction of the Participant’s authority, duties, or responsibilities;
(iii) a material change in the geographic location at which the Participant must perform services; or
(iv) any material breach by the Corporation of any other provision of this Agreement;

provided, however, that any such condition shall not constitute “Good Reason” unless both (x) the Participant provides written notice to the Corporation of the condition claimed to constitute Good Reason within ninety (90) days of the initial existence of such condition, and (y) the Corporation fails to remedy such condition within thirty (30) days of receiving such written notice thereof; and provided, further, that in all events the termination of the Participant’s employment with the Corporation shall not be treated as a termination for “Good Reason” unless such termination occurs not more than two (2) years following the initial existence of the condition claimed to constitute “Good Reason.”

“Retirement” means that, as of the Participant’s Severance Date, the Participant either (i) has attained age 55 with at least five (5) full years of service with the Corporation and its Subsidiaries, or (ii) has attained age 60, or (iii) is a participant in and is entitled to commence a benefit under a defined benefit plan sponsored by the Corporation or any of its Subsidiaries and has at least 10 years of service with the Corporation and its Subsidiaries.

“Separation from Service” means a “separation from service” within the meaning of Treasury Regulation Section 1.409A-1(h)(1), without regard to the optional alternative definitions available thereunder (i.e. generally a termination of the Participant’s employment with the Corporation or a Subsidiary).

EXHIBIT 31.1

CERTIFICATIONS

I, Benito Minicucci, certify that:

1. I have reviewed this annual report on Form 10-K of Alaska Air Group, Inc. for the period ended December 31, 2021;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and

   e) The registrant’s other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors:

      a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and

      b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
